**Funny Cars** Denny Von Finn,2013-08-01 Funny cars get their name from their appearance. Their back wheels are much larger than the front wheels. Students will learn about the history and technology behind these fast, exciting race cars.

Early Funny Cars Lou Hart,2022-04-15 Blast through the evolving early years of Funny Car drag racing when doorslammers morphed into flip-top rail monsters. The era features historic mounts from Arnie the Farmer Beswick, Al “the Flying Dutchman” Vanderwoude, Jungle Jim Liberman, Don “the Snake” Prudhomme, and many more! The metamorphosis from doorslammers to fiberglass flip-top dragsters wasn’t ever a cut and dry plan. As drag racers pushed the envelope for more speed, a series of innovations quickly evolved and refined the genre. Funny Cars cut their teeth in the A/Factory Experimental (A/FX) and Experimental Stock (X/S) classes in 1964 with the 2-percent Mopars that looked funny with their axles moved forward. However, it was Jack Chrisman’s supercharged, nitro-fueled 427 Supercharged Factory Experimental (S/FX) Comet Caliente that trailblazed the class on which the NHRA turned its back and the AHRA fully accepted. Showmanship became the draw in the dawn of Funny Car with half-track burnouts and flame-throwing headers that packed fans five deep at the fence. By 1969, the NHRA had no choice but to create a class for these nitro-breathing, flip-top-sporting rail bruisers, indoctrinating the Funny Car (F/C) class at the Winternationals with 40 cars vying for 16 places in the field. The rest, as they say, is history!

**Jet-powered Funny Cars** Jesse Young,1995 Focuses on the jet-powered funny cars which compete on drag strips.

**Southern California Funny Cars** Steve Reyes,2023-06-19 Southern California was the birthplace of organized drag racing, with the first organized race held at the Santa Ana airport in 1949 and the subsequent founding of the National Hot Rod Association in 1950. Over the next decade and a half, the dragster became the king of the quarter mile on Southern California drag strips. In 1964, veteran dragster owner/driver Jack Chrisman had an idea for something different to grace Southern California's drag strips. It was not a dragster but a stock-bodied race car using nitromethane for fuel in a supercharged engine. With the help of Gene Mooneyham, Mercury's Fran Hernandez, and sponsor Helen Sachs, Chrisman put together the world's first nitro-burning funny car. It was a steel stock-bodied Mercury Cyclone with a supercharged 427 Ford engine running on pure nitromethane. Chrisman started the evolution that soon turned stock steel-bodied cars into fiberglass-bodied tube chassis funny cars. Southern California drag racers began to lead the way for racers all over the United States in the new funny car class.

*Funny Car Dragsters* Tyrone Georgiou,2011-01-01 Learn about how fast funny cars can go and why they are funny.

Cool Cars Tony Mitton,2014-10-28 Rhyming text and illustrations describe different kinds of cars, including fast cars, police cars, taxis, and convertibles.

**Otto** Kara LaReau,2011-06-21 Otto loves cars more than anything else in the world. He plays with cars, he dreams about cars, . . . he even eats cars (his favorite cereal is Wheelies). But that all changes when he awakes one morning to find that he has somehow turned into a car.Otto soon realizes that there is a downside to actually becoming his favorite thing. While the rest of his friends get to play and draw, Otto can only honk and sputter. Will Otto ever be able to switch gears and go back to being a boy?

Funny Cars Cameron Steele,2011-01-01 Amazing photography accompanies engaging information about funny cars. The combination of high-interest subject matter and light text is intended for students in grades 3 through 7--Provided by publisher.

Funny Car Fever Steve Reyes,2007 There wasn't always a class for these funny-looking cars. In the mid 1960s, many of drag racing's fastest drivers were outgrowing the Super Stock and Factory Experimental classes, building cars that stretched and eventually broke the rules. Promoters discovered they could pair up these altered-wheelbase, injected, blown machines in exhibition match races--and the spectators came running. Rivalries were born, the Funny Car class was created, and the cars kept getting faster and faster. Funny Car Fever is a humorous, heart-felt, first-hand account of the most exciting and memorable years of the Funny Car class. Steve Reyes followed these fiberglass-bodied, nitro burning machines and their drivers from the years leading up to the creation of the Funny Car class through its halcyon days. He's included over 350 of his favorite images and more than a few never-before-heard stories to bring the feeling of the class and the era home to you.

**Rental Tales** Ferdinand Komenda,2015-08-19 Sometimes unusual and crazy things happen to people while they have a rental car. Like an out of town tourist runs into a random turkey crossing the road. Or a local renter is pumping gas into his rental car and witnesses a random man throw his bicycle at the car for seemingly no reason. Many more crazy stories are in the book. Some stories are brief, others are extensive, but all are either crazy, weird, or funny, and some stories are all three combined. There are even photos of some of the vehicles after the incidents. Check it out!
