Wild Ones Jon Mooallem,2014-05-27 Wild Ones is a tour through our environmental moment and the eccentric cultural history of people and wild animals in America that inflects it. With propulsive curiosity and searing wit, and without that easy moralizing and nature worship of environmental journalism's older guard, [Jon] Mooallem merges reportage, science, and history into a humane and endearing meditation on what it means to live in, and bring life into, a broken world.--Back cover.

The Fallen Curtain Ruth Rendell,2009-07-01 A stranger lures a child into his car with the promise of sweets. A young man spots his fiancée's double in a public park of ill repute. An executive visits the secluded home of a former employee whose intentions are frightfully unclear. A modest soul weds the woman he rescues from suicide—only to fall victim to an unfathomable form of possessiveness... In the eleven tales gathered in *The Fallen Curtain*, Ruth Rendell—the grande dame of the literary mystery—lays bare the twisted inner workings of the unbalanced mind. Here are eleven tales of haunting psychological accuracy: the gesture that betrays a parent's madness, the childhood memory clouded with denial, the utterance that introduces the threat of violence in a situation as benign as a dinner date. Instantly engaging, maddeningly addictive, *The Fallen Curtain* testifies to the enduring talents of a master of the genre.

Global Warming and the Political Ecology of Health Hans Baer,Merrill Singer,2016-09-17 In this groundbreaking, global analysis of the relationship between climate change and human health, Hans Baer and Merrill Singer inventory and critically analyze the diversity of significant and sometimes devastating health implications of global warming. Using a range of theoretical tools from anthropology, medicine, and environmental sciences, they present ecosyndemics as a new paradigm for understanding the relationship between environmental change and disease. They also go beyond the traditional concept of disease to examine changes in subsistence and settlement patterns, land-use, and lifeways, throwing the sociopolitical and economic dimensions of climate

change into stark relief. Revealing the systemic structures of inequality underlying global warming, they also issue a call to action, arguing that fundamental changes in the world system are essential to the mitigation of an array of emerging health crises link to anthropogenic climate and environmental change.

Six Feet from Impact Janet K. Roof,2006-04-26 John Davis patrols the sandy coast of the Jersey shore. Fun, food, booze and hot bodies as far as the eye could see. A vacationer’s paradise or so it would seem if you were a mortal soul. If you look deeper, beyond the blur of flashing lights and sun-drenched bodies of Seaside Heights you will realize the unexpected danger that lurks behind every corner. If you ever had the feeling that you have cheated death or felt lucky to be alive, you just might have John Davis to thank. John’s soul roams this restless summer town with only one purpose, to intervene with death. He combs the beaches alone and invisible, year after year fighting the forces of the dreadful and hellish green light. Be careful where you step, if the light comes for you it is the end of the line for life, as you know it. His mission was plane and simple before he met Kitten. John's desire causes his soul to roam for a new purpose and his entire existence begins to revolve around this sexy car thief and her hazardous life.

Joyce's Waking Women Sheldon Brivic,1995 Inspired by the work of such French theorists as Luce Irigaray and Jacques Lacan, Joyce's Waking Women is the first book-length feminist study of James Joyce's Finnegans Wake. Sheldon Brivic's engaging style makes his guide an ideal introduction for students and others just getting their feet wet in the riverrun of Joyce's language. Helping newcomers gain the sensibility and skills essential to reading any part of the book, Brivic focuses on its many strands of feminine narrative, especially the two remarkably beautiful sections that highlight Anna Livia Plurabelle. Anna Livia, Brivic argues, embodies a radical vision of how women are entrapped and how they will free themselves. He sees her speech as the first--and last--testament of a multiracial, international heroine whose dreams for the future merge with a determination to reject male authority.

Silent Song Ren Benton,2018-05-01 Lex Perry had it all. Fame. Fortune. A once-in-ten-lifetimes love with a brilliant, beautiful, battle-scarred goddess. And an addiction that was done sharing his attention. He survived. His fall from grace never stopped fans from throwing money and panties at him. All he lost for his weakness was the heart Gin—the woman, not the booze—took with her when she left.

The Other Side of Medicine Peter Tate,2007 The Other Side of Medicine is an amusing and challenging reflection of changes and fashions in general practice. Covering various themes including humanity in medicine, communication, and quality assessment of doctors, Peter Tate offers an abundance of personal anecdotes and patient perspectives. Doctors, particularly general practitioners, their trainers and examiners, and medical students will find this romp through a half century of medical life invigorating and invaluable. This book is a collection of articles and short stories covering a medical career. Some are iconoclastic, the theme of good communication in medicine runs throughout, other themes are quality in doctors and the assessment of that quality but I hope the main strand of the book is humanity in medicine and my attempts at understanding what that is. - Peter Tate, in the Preface.
