The Invention of Curried Sausage Uwe Timm,1997 Here is what German author/narrator Uwe Timm uncovers about a popular German sidewalk food, curried sausage. Convinced the delicacy did not originate in Berlin, Timm tracks down its creator, one Lena Brucker, now living in a retirement home. Thus the tale of how curried sausage came to be is the romantic story of Lena Brucker's life.

Psychoanalytic Explorations in Music Stuart Feder,Richard L. Karmel,George H. Pollock,1993 This second series of essays is an enriching companion to its ground-breaking predecessor. In a truly interdisciplinary endeavor, the scope of the explorations is extended by a unique international group of scholars working in both music and psychoanalysis. Unlike the earlier series, this volume consists entirely of original contributions. This volume continues the analytic study of individual composers in articles on Bach and Mozart, Robert Schumann, Satie and Wagner. Wagner receives particular attention in studies of universal fantasies which relate to the music, the psychological function of the Leitmotif, and Freud's familiarity with Wagner, hitherto unexplored. Other composers whose works are considered are Schubert and Bartok. A core issue in each of the two fields resides in the study of affect: What is its nature; the means and modes of representation? How is affect communicated in both the clinical situation and in the performance of music? In a central section of the book, On Affect and Music, writers in both areas address these questions. An opening section concerns itself with the problem of method in applied psychoanalysis with specific reference to music, the only such treatment in the literature. Also included in this portion of the book is a preliminary report of an ongoing study of contemporary composers based upon analytic interviews. The volume concludes with a pair of historical essays, one of which considers myths of Freud's relationship to music. The second is a study of the musicologist in Freud's early circle (and the father of Little Hans), Max Graf. The present volume then is the second in what promises to become a unique series - an intellectual venue for an authentically interdisciplinary study of psychoanalysis and music.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Schoenberg and His World Walter Frisch,2012-01-16 As the twentieth century draws to a close, Arnold Schoenberg (1874-1951) is being acknowledged as one of its most significant and multifaceted composers. Schoenberg and His World explores the richness of his genius through commentary and documents. Marilyn McCoy opens the volume with a concise chronology, based on the latest scholarship, of Schoenberg's life and works. Essays by Joseph Auner, Leon Botstein, Reinhold Brinkmann, J. Peter Burkholder, Severine Neff, and Rudolf Stephan examine aspects of his creative output, theoretical writings, relation to earlier music, and the socio-cultural contexts in which he worked. The documentary portions of Schoenberg and His World capture Schoenberg at critical periods of his career: during the first decades of the century, primarily in his native Vienna; from 1926 to 1933, in Berlin; and from 1933 on, in the U.S. Included here is the first complete translation into English of the remarkable Festschrift prepared for the 38-year-old Schoenberg by his pupils in 1912; it presciently explored the diverse talents as a composer, teacher, painter, and theorist for which he was later to be recognized. The Berlin years, when he held one of the most prestigious teaching positions in Europe, are represented by interviews with him and articles about his public lectures. The final portion of the volume, devoted to the theme Schoenberg and America, focuses on how the composer viewed--and was viewed by--the country where he spent his final eighteen years. Sabine Feisst brings together and comments upon sources which, contrary to much received opinion, attest to both the considerable impact that Schoenberg had upon his newly adopted land and his own deep involvement in its musical life.

Zizek and Media Studies M. Flisfeder,L. Willis,2014-04-09 Film, media, and cultural theorists have long appealed to Lacanian theory in order to discern processes of subjectivization, representation, and ideological interpellation. Here, the contributors take up a Zizekian approach to studies of cinema and media, raising questions about power, ideology, sexual difference, and enjoyment.

Richard Gerstl Diethard Leopold,2016 The art academy failed to recognise his talent; he rejected the contemporary art scene in Vienna; and his visionary work was largely neglected during his lifetime: the painter Richard Gerstl (1883-1908), whose creative period lasted for just four intensive years, is regarded today as one of the most important representatives of Austrian Expressionism for his portraits and landscapes. With his early pictures Self-Portrait against a Blue Background and The Sisters Karoline and Pauline Frey Richard Gerstl began to create an oeuvre which was well ahead of his times and which made him one of the pioneers of Abstract Expressionism. In 1906 Gerstl met the musician Arnold Schönberg. He embarked upon an affair with the latter's wife Mathilde, who briefly left her husband but then returned to him in 1908. Gerstl not only lost his lover but was also socially isolated; he committed suicide during that same year. His work sank into oblivion

Coptic Etymological Dictionary Jaroslav Černý,2010-10-31 Coptic was the language spoken in Egypt from late ancient times to the seventeenth century, when it was overtaken by Arabic as the national language. Derived from ancient Egyptian, the language of the hieroglyphs, it was written in an adapted form of Greek script. This dictionary lists about 2,000 Coptic words whose etymology has been established from ancient Egyptian and Greek sources, covering two-thirds of the known Coptic vocabulary and complementing W. E. Crum's 1939 Coptic Dictionary, still the standard in the field. The Egyptian forms are quoted in hieroglyphic and/or demotic forms. An appendix lists the etymologies of Coptic place-names. The final work of Czech Egyptologist Jaroslav Černý (1898-1970),

Professor of Egyptology at Oxford, the Dictionary was brought through to publication by colleagues after his death.
