A Memory Called Empire Arkady Martine,2019-03-26 Winner of the 2020 Hugo Award for Best Novel A Locus, and Nebula Award nominee for 2019 A Best Book of 2019: Library Journal, Polygon, Den of Geek An NPR Favorite Book of 2019 A Guardian Best Science Fiction and Fantasy Book of 2019 and "Not the Booker Prize" Nominee A Goodreads Biggest SFF Book of 2019 and Goodreads Choice Awards Nominee A Memory Called Empire perfectly balances action and intrigue with matters of empire and identity. All around brilliant space opera, I absolutely love it.—Ann Leckie, author of Ancillary Justice Ambassador Mahit Dzmare arrives in the center of the multi-system Teixcalaanli Empire only to discover that her predecessor, the previous ambassador from their small but fiercely independent mining Station, has died. But no one will admit that his death wasn't an accident—or that Mahit might be next to die, during a time of political instability in the highest echelons of the imperial court. Now, Mahit must discover who is behind the murder, rescue herself, and save her Station from Teixcalaan's unceasing expansion—all while navigating an alien culture that is all too seductive, engaging in intrigues of her own, and hiding a deadly technological secret—one that might spell the end of her Station and her way of life—or rescue it from annihilation. A fascinating space opera debut novel, Arkady Martine's A Memory Called Empire is an interstellar mystery adventure. The most thrilling ride ever. This book has everything I love.—Charlie Jane Anders, author of All the Birds in the Sky And coming soon, the brilliant sequel, A Desolation Called Peace! Alien RPG Free League Publishing,2019-12-10 Space is vast, dark, and not your friend. Gamma rays and neutrino bursts erupt from dying stars to cook you alive, black holes tear you apart, and the void itself boils your blood and seizes your brain. Try to scream and no one can hear you - hold your breath and you rupture your lungs. Space isn't as empty as you'd think, either - its frontiers are ever expanding. Rival governments wage a cold war of aggression while greedy corporations vie for valuable resources. Colonists reach for the stars and gamble with their lives - each new world tamed is either feast or famine. And there are things lurking in the shadows of every asteroid - things strange and different and deadly. Things alien. This is the official ALIEN tabletop roleplaying game - a universe of body horror and corporate brinkmanship, where synthetic people play god while space truckers and marines serve host to newborn ghoulish creatures. It's a harsh and unforgiving universe and you are nothing if not expendable. Stay alive if you can--Back cover.

Altered Starscape Ian Douglas,2016-10-25 Galaxies collide in a thrilling new series from bestselling author Ian Douglas, as the last humans in the universe face off against a new threat 2162. Thirty-eight years after first contact, Lord Commander Grayson St. Clair leads the Tellus Ad Astra on an unprecedented expedition to the Galactic Core, carrying more than a million scientists, diplomats, soldiers, and AIs. Despite his reservations about their alien hosts, St. Clair is deeply committed to his people—especially after they're sucked into a black hole and spat out four billion years in the future. Civilizations have risen and fallen. The Andromeda Galaxy is drifting into the Milky Way. And Earth is most certainly a distant memory. All that matters now is survival. But as the ship's Marines search for allies amid ancient ruins and strange new planetary structures, St. Clair must wrap his mind around an enemy capable of harnessing a weapon of incomprehensible power: space itself.

Galactic Outlaws Jason Anspach,Nick Cole,2019-08-20 A threat looms at the edge of the galaxy... Years have passed since the battle of Kublar, and Wraith is in deep cover for Legion Dark Ops, living a second life on the edge as an irreverent smuggler and bounty hunter under the alias of Captain Keel. As he fights off pirates and double-crossing rebels, Keel comes to realize that the old lines between right and wrong have blurred as the Legion sinks further under the corrupting influence of the House of Reason and its points. When a lucrative night market contract is offered directly to Wraith to hunt down an enigmatic warlord, the former legionnaire winds up on a galactic-wide search that brings him face to face with the galaxy's most notorious bounty hunter, a living legend known as Tyrus Rechs. The pair soon discover that the man they both hunt is more powerful than either imagined... and is poised to overthrow the Republic. With a cloud of darkness growing and a planet pitched in war, Wraith must choose whether his true allegiances lie with himself... or with his brothers still in the Legion. Military sci-fi meets space opera in this world-spanning adventure. Start reading now to see how expansive Galaxy's Edge is with this brief interlude in the ongoing story of the legionnaires of Victory Company!

The Poems of St. John of the Cross Saint John of the Cross,1979 San Juan de la Cruz, the great sixteenth-century Spanish mystic, is regarded by many as Spain's finest poet. Passionate, ecstatic, and spiritual, his poems are a blend of exquisite lyricism and profound mystical thought. In The Poems of St. John of the Cross John Frederick Nims presents his superlative translation of the complete poems, re-creating the religious fervor of St. John's art. This dual-language edition makes available the original Spanish from the Codex of Sanlúcar de Barrameda with facing English translations. The work concludes with two essays--a critique of the poetry and a short piece on the Spanish text that appears alongside the translation--as well as brief notes on the individual poems.

Pilgrim at Tinker Creek Annie Dillard,2009-10-13 Winner of the Pulitzer Prize "The book is a form of meditation, written with headlong urgency, about seeing. . . . There is an ambition about her book that I like. . . . It is the ambition to feel." — Eudora Welty, New York Times Book Review Pilgrim at Tinker Creek is the story of a dramatic year in Virginia's Roanoke Valley, where Annie Dillard set out to chronicle incidents of beauty tangled in a rapture with violence. Dillard's personal narrative highlights one year's exploration on foot in the Virginia region through which Tinker Creek runs. In the summer, she stalks muskrats in the creek and contemplates wave mechanics; in the fall, she watches a monarch butterfly migration and dreams of Arctic caribou. She tries to con a coot; she collects pond water and examines it under a microscope. She unties a snake skin, witnesses a flood, and plays King of the Meadow with a field

of grasshoppers. The result is an exhilarating tale of nature and its seasons.

Beyond Kuiper Matthew Medney,John Connelly,2021-07-27 The galaxy is alive and filled with life. The only issue: we humans aren't invited. The Galactic Star Alliance awaits your exploration. The Amazon #1 Best Selling Hard Science Fiction Novel is back with the Galactic Edition with More Planets & More Science! There is no Drake Equation. There is no question on sentience. The galaxy is alive and filled with life. The only issue: we humans aren't invited. The Galactic Star Alliance awaits your exploration. In this illustrated novel co- created & written by Matthew Medney (Heavy Metal Magazine CEO & NYU adjunct professor) and John Connelly (Lockheed Martin Aerospace Engineer), humankind acknowledges the vastness of time, the cyclical nature of civilization, and the obscurity of our own history. If our galaxy is so full of sentient life, why has no one said hello? We thought of a simple, logical reason: no one wants too. Stepping back and casting an objective eye on ourselves, it seems painfully obvious that humans lack a fundamental respect for our planet and for each other. We possess extremely short memories and long grudges, and the likelihood of receiving alien tools to hasten our expansion seems downright foolhardy. The Galactic Star Alliance has been alive and well for millions of earth years. Hundreds of thousands of sentient worlds and trillions of beings walk, run, and crawl across the many home worlds of the Alliance. This revelation led to many questions: How is faster-than-light speed travel possible, and could cohesive, interstellar civilizations exist without it? Is it conceivable to govern a coalition not of different countries, but of different species? Each question led to another and each answer built our world, piece by piece until it spanned thousands of answers and millions of light-years. As for the title, from where would our judges watch us? But our galaxy has spoken to us humans. There are some who believe it is out there. Not as science-fantasy but as science. Introduce Bernard William Hubert. World renowned astrophysicist, and Lead Scientist of the seminal company of exploration, Outer Limits. While on loan to CERN, a catastrophe of unimaginable proportions leaves Bernard as the sole survivor. While the scientific community & world looks to him for answers, he simply states the unthinkable it has to be aliens. Inconceivable to the world, the Hubert family is investigated and his family's name tarnished. Disgraced and shunned. Bernard claws his way back into the equation with his new company C.O.R.E as they work tirelessly to design an engine capable of interstellar travel. Follow Bernard on his road to redemption and discovery in this ensemble cast of futurism, space travel and the fate of our species. This expanded Galactic Edition includes the original illustrated 35 pieces of beautiful, full-color, painted artwork by Utku Ozden along with a sneak peek at Chapter 1 of the second installment of Beyond Kuiper, The Voyage Of The Nomad. 12 exclusive pieces of art from the second book & 15 planets, designations, and information about the Karandu galaxy illustrated by Luigi Aime
