📖 **Yearbook of International Sports Arbitration 2015** Antoine Duval, Antonio Rigozzi, 2016-10-21 The Yearbook of International Sports Arbitration is the first academic publication aiming to offer comprehensive coverage, on a yearly basis, of the most recent and salient developments regarding international sports arbitration, through a combination of general articles and case notes. The present volume covers decisions rendered by the Court of Arbitration for Sport (CAS) and national courts in 2015. It is a must-have for sports lawyers and arbitrators, as well as researchers engaged in this field. It provides in-depth articles on burning issues raised by international sports arbitration, and independent commentaries by esteemed academics and seasoned practitioners on the most important decisions of the CAS (e.g. the Dutee Chand case) and national courts (e.g. the Pechstein and Wilhelmshaven decision rendered by the OLG München and OLG Bremen in Germany). Dr. Antoine Duval is senior researcher for international and European sports law at the T.M.C. Asser Instituut in The Hague. He holds a Ph.D. on the interaction between lex sportiva and EU law from the European University Institute in Florence. Prof. Antonio Rigozzi teaches international arbitration and sports law at the University of Neuchâtel, Switzerland, and is the partner in charge of the sports arbitration practice at Lévvy Kaufmann-Köhler, a Geneva-based law firm specializing in international arbitration.

📖 **Representing Modern Istanbul** Enno Maessen, 2022-01-27 Following the collapse of the Ottoman Empire, Istanbul would lose its position as capital yet remain a crucial urban centre in the new Turkish Republic. Since the 1950s it has undergone a metamorphosis from a mid-sized city to a megapolis. Beyoğlu, historically represented as its most ‘cosmopolitan’ district and home to European embassies and cultural institutions, is a microcosm of these changes. This book explores the urban history of Beyoğlu via a series of case studies which use previously unexamined archival material to tell the story of its local and international institutions. From the German Teutonia Club and a centre point of Turkey’s cinema culture to influential francophone, British and German schools which educated many of Turkey’s future elite, the book charts the shifting identities of the residents of the district. These case studies reveal the effects of changing political circumstances, from the rise of nationalism to Turkey’s place in the Cold War, as well as critically examining Beyoğlu’s legacy as a multicultural centre. In the process, the book reveals a picture of resilience, cross-cultural contact and provides an important contribution to our understanding of present-day and historical Istanbul and Beyoğlu.

📖 World Football Club Crests Leonard J. Gerski, J. L. Nilsson, 2018-11-15 An illustrated exploration of the design, meaning and symbolism of world football club crests. Why is there a devil shown on the crest of Manchester United? Which club’s crest motto is ‘To Dare Is To Do’? And whose emblem depicts a bear and a strawberry tree? From the seahorses of Newcastle United to the royal crown of Real Madrid, via the riveting hammers of West Ham United, Valencia’s famous bat design and German club St Pauli’s unofficial skull-and-crossbones emblem, there is a story behind every crest, a tale of identity. Covering more than 200 clubs from 20 different leagues, World Football Club Crests explores the design, meaning and symbolism of the game’s most famous club crests to reveal why the badges look as they do. This carefully curated collection charts the continuing evolution of the designs and describes the changing styles, varied influences and remarkable controversies that have shaped football’s most iconic crests. 📖 **Sport, Music, Identities** Anthony Bateman, 2016-01-08 Despite the close and longstanding links between sport and music, the relationships between these two significant cultural forms have been relatively neglected. This book addresses the oversight with a series of highly original essays written by authors from a range of academic disciplines including history, psychology, musicology and cultural studies. It deals with themes including sport in music; music in sport; the use of music in mass sporting events; and sport, music and protest. In so doing, the book raises a range of important themes such as personal and collective identity, cultural value, ideology, globalisation and the commercialisation of sport. As well as considering the sport/music nexus in Great Britain, the collection examines sport and music in Ireland, the United States, Germany and the former Soviet Union, as well as in the Olympic movement. Musical styles and genres discussed are diverse and include classical, rock, music hall and football-terrace chants. For anybody with an interest in sport, music or both, this collection will prove an enjoyable and stimulating read. This book was previously published as a special issue of Sport in Society.

📖 **Soccer World 2011/12** Lorenzo Gravela,

📖 The Court of Arbitration for Sport and Its Jurisprudence Johan Lindholm, 2019-03-25 This book takes a close look at the Court of Arbitration for Sport (CAS), challenging existing claims and answering previously unanswered questions, by considering all of its publicly available decisions, both in its entirety as a body of jurisprudence and on a case-by-case level. It also investigates the actors involved in adjudication before the CAS, both the parties that bring disputes before the CAS and the arbitrators that resolve them, and in so doing establish precedents that govern sports generally. While the book relies upon and includes more traditional legal theory and analysis, it combines this with an empirical analysis of a large portion of the CAS’s decisions. Hereby it relies upon and relates to the theory of the development of a transnational legal order in sports, the lex sportiva. The publication is targeted at and will benefit those professionally working in or interested in the fields of sports law, arbitration law, transnational law, or empirical legal studies. Johan Lindholm is a professor of law at Umeå University in Sweden.

📖 **Digital Football Cultures** Stefan Lawrence, Garry Crawford, 2018-09-04 As the digital revolution continues apace, emergent technologies and means of communication present new challenges and opportunities for the football industry. This is the first book to bring together key contemporary debates at the intersection of football studies, leisure studies, and digital cultural studies. It presents cutting edge theoretical and empirical work based around four key themes: theorizing digital football cultures; digital football fandom; football and social media; and football (sub)cybercultures. Covering topics such as transnational digital fandom, online abuse, and gender, Digital Football Cultures argues that we are witnessing the hyperdigitalization of the world’s most popular sport. This book is a valuable resource for students and researchers working in leisure studies, sports studies, football studies, and critical media studies, as well as geography, anthropology, criminology, and sociology. It is also fascinating reading for anybody working in sport, media, and culture.

📖 **Soccer Around the World** Charles Parrish, John Nauright, 2014-04-21 Two leading sports authorities explore the culture of soccer around the world, considering the sport as a means to better understand a society’s past, present, and future. How popular is soccer worldwide? Here’s one indicator: 3.2 billion people—nearly half of the planet’s population—tuned in to watch the 2010 World Cup on television. Soccer matches attract a gargantuan number of fans from around the globe due to the popularity of the sport itself but also because of the nationalism it inspires and the entertainment spectacle of the big games. Distinguished authors and sports authorities, Charles Parrish and John Nauright, examine how soccer impacts societies worldwide by shaping national identities, providing common ground for diplomatic issues, and forging economic and social development. This one-volume geographic guide studies the places in which soccer has a major impact, examining each region’s teams, major tournaments, key players, and international performance. The authors organize the book geographically by region and country, with entries reviewing the history of the sport and cultural impact on the area. Each profile concludes with fascinating game-based statistics, such as winners of major tournaments and top goal scorers. The book covers 20 countries including England, Brazil, Egypt, the United States,

CAMEROON, AND KOREA.
