Galaxy 313 Linda L Nielsen PhD,2017-12-04 Threads of starlight weave life together in a rich saga of multidimensional tales. They are the light between shadows which is where these earth stories have been awaiting their unveiling. That time is now, whatever now in which they happen into your world. Galaxy 313: Book One of the mystical fiction series Hearts Beat Wisdom introduces the principal characters and provides an overview of events thus far. These timeless tales for ages 8 through adult open a path to enlighten the heart and soul of humanity during this time of transformation. The light of love shining within each person must unite as One with Divine Presence to restore balance and harmony to self, the earth, and all life. • Niko of Quintaris—an adventurous young man who breaks with Quintaris tradition in following his heart. • Kuma, Wisdom Keeper and Star Spinner on Galaxy 313—a rare breed of guide and teacher. • Sefron—a light-being from Galaxy 313 who assumes visible forms, primarily as an elf who is Niko’s mentor on earth. • Annalisa—the fairy princess who is given to outbursts of worry about her mission of going to earth to remember who she is. • Humbugs—interdimensional way-showers through frequencies who fill crystals with dream images to assist those on their path of awakening. In the heart of a giant crystal cluster on Galaxy 313’s Brightest Star, nestled the round, furry creature yawning and puffing up in a big Humbug stretch. He could feel a special day stirring deep within himself on Crystal Mountain and beyond. “Look!” he announced in a soft, compelling hum to all who could hear him. “Open your eyes and listen with your heart. Feel beyond disorder’s illusion. Embrace the love that awaits all life.” Also by Linda L. Nielsen, PhD Microtonal Healing: Spirit of the Healing Voice. 2004. Camarillo, CA: DeVorss Publications. Received the 2005 Visionary Award in Alternative Healing.

Crystals I Antonis Anastasiadis,2016-02-13 The Crystals series will comprise a decalogy which will start from the creation of the universe, will transcend all human civilization, will come to the present and continue into the future, summarily showing the development of human civilization. The first book, ‘1st Battle of the Titans: Clash between Vacuum and the Hypercosmic (Creation)’ marks the beginning of a ‘cosmic’ journey from the Big Bang, following the evolutionary course of the universe, to reach the creation of planetary systems. The story in the first book starts from a town in the Greek provinces, where an enamoured couple comes upon an object with strange properties and potential. It is put under study by the local scientific community, and old folklore surrounding it is remembered that was hitherto dismissed as myth. The object is taken to Athens and is scrutinized by the Greek scientific community who call all the top brass of the international scientific community to their aid. On the basis of the object’s properties that have been assessed, an experiment is carried out on the Acropolis with wondrous, serendipitous findings. After that point, a wonderful journey starts that spans a series of ten books. Through myth and allegory, but also hard scientific facts, and apart from the reader’s entertainment, an effort is made for the reader to acquire true knowledge. Thus, through storytelling, the reader learns about the evolution of the universe, the galaxies, the solar systems, the earth and life on it, the evolution of humankind, philosophy, science, religion and in general, about the struggle for the humanization process of humankind to reach today’s conflicts. The following 10 books will follow with the following proposed titles: 1st Battle of the Titans: Clash between Vacuum and the Hypercosmic (Creation) 2nd Battle of the Titans: Clash between the Hypercosmic and the Supernatural (Battles of the Heavens) 3rd Battle of the Titans: Clash between the Natural and the Supernatural (Zeus-Cronos) 4th Battle of the Titans: Clash between the Natural and the Paranormal (Battle of Giants) 5th Battle of the Titans: Clash between the Natural and the Metaphysical (Prometheus) 6th Battle of the Titans: Clash between the Good and the Evil (White-Dark Crystal) 7th Battle of the Titans: Clash between the Sociopolitical and the Counter-sociopolitical (Early Civilizations) 8th Battle of the Titans: Clash between Humanism and Technocracy (Later Periods) 9th Battle of the Titans: Clash between Civilization and Barbarism (Current Times) 10th Battle of the Titans: Clash between Earthlings and Extraterrestrials (Intergalactic Travel)

But it’s soon clear they want something more: a gateway for invasion, because this version of Earth is dying. When Serenity learns

The Brighter the Stars Bryan Prosek,2020-11-10 Caught between love and revenge, Jake has one chance to live up to the man his uncle was. Earth crashed into interstellar politics as a lightweight, lagging so far behind other planetary weapons systems everyone feared they wouldn’t survive first contact with other worlds without quick action. By 2185, Earth had united itself into five geographic sectors and developed a defense system powerful enough to keep aggressors at bay—for now, at least. Jake Saunders became a Legion soldier to honor the memory of his war hero uncle, who was brutally murdered in front of him when he was still a young teen. Fast forward a few years, and Jake and his best friend Cal have been tasked with escorting Cal’s older sister Diane to become Earth’s ambassador on a far-off planet. It’s the opportunity of Diane’s career, very likely a lifetime post. But for Jake, that could mean a lifetime’s heartbreak. He has loved Diane since they were kids, and every step closer to that ambassador assignment is a step closer to goodbye. But somebody is after more than Earth’s defense, and Jake, Cal, and Diane are on a trajectory to crash headlong into that dangerous plot. Somebody wants to play Earth against its most immediate threat, Craton, and convince both to develop super weapons—and he’s working with the person who killed Jake’s uncle all those years ago. When he reappears on Jake, Cal, and Diane’s journey to the ambassadorship, Jake is faced with difficult choices to look out for his friends and honor his uncle’s memory.

The Journey Home A K Lambert,2019-05-30 After an audacious escape from Earth, the Vercetians—and some local friends—hurry home to save their own planet from the disaster about to befall it. The Zerot intend to seal the fate of another innocent race with the cruelest game in the galaxy. Young Prince Ventar has a plan, or almost, but he needs some extraordinary assistance from an ancient unascended race. He’ll need even more help to make it home before the genocide game begins.

The Zerot Infestation, Books 1 - 3 A K Lambert,2024-02-13 On the planet Preenasette in the Alpheratz system, two countries, Verceti and Trun, are engaged in a three-hundred-year war. The conflict has become sterile and is mainly carried out in space and is of little interest to the occupants of each country who carry on going about their daily lives. Then, an unseen foe (the Zerot) infiltrates the Trun, turning vital governing and military members into their bondservants, forcing them to carry out atrocities and ramp up the war on the planet’s surface as well as in space. The Zerot Cadre has twenty years to bring the world to its knees in readiness for the arrival of a Violation armada that will annihilate all Preenasettians—both Vercetian and Trun. Back in Zerot, three ancient dynasties wager on the outcome of the war and how quickly the Violation armada can complete their deadly task. To them, it is just a game—one more planet removed from existence, like many hundreds before. On Verceti, their system of ruling is under serious threat, so they decide to send their three youngest Royals (in training for the ruling council and referred to as Princes and Princesses, but without any bloodlines) off-world to protect them from repeated assassination attempts. Grace arrives on Earth with her Life Team that will train and look after her. They settle in a manor house in a secluded part of Southern Ireland, but within the team is a spy who alerts the Trun. A Trun battle cruiser is dispatched to Earth to kill the princess if the spy doesn’t. And to add to the princess’s woes, there is a Zerot en route to Earth with similar instructions. Grace will need all her training and the help of many Earthlings if she is to escape certain death.
