

Galaxy Unknown Lite

Daryl Fisher

A Galaxy Unknown Thomas DePrima, 2011 A young ensign, recently graduated from the Northern Hemisphere Space Academy, is awakened abruptly in the middle of the night by alarms, flashing lights, and dire messages to abandon ship. The petite blonde pulls on some clothes and races through the spaceship in a desperate search for an available life pod-- but it appears all have already departed. So begins the epic story of Jenetta Carver. Get a tight grip on your book and prepare for an exciting adventure like few others because Jenetta is ready to take names and kick butts from one end of the galaxy to the other. She may be small, but she has an intellect as large as Colossus of Rhodes and makes General Sun-Tzu look like an amateur military enthusiast.

Faster Than Light Om Gupta, 2020-02-28 On a voyage through the galaxy to find extraterrestrial life, Dave and James have spent 6 months travelling faster than light, searching frantically in every corner, but being unsuccessful every time. You, the reader, join them just as they receive a signal from an unlikely system, which unknown to them is to set the course of human history in a most unlikely way. Word count: 5431

Conquest Aaron Hodges, 2022 The reign of the Alfur has ended. Talamh has been liberated. For once, humanity are the conquerors. So why does Rydian Holt feel like they lost? With the destruction of the Haze, Talamh has been revealed

to the universe. But the realm beyond their world is not what Rydian and his fellows were told. The Alfur lied. It is not they who rule the galaxy, but humanity. Led by the autocratic Federation, their empire spans galaxies. Returning to Talamh after six months training his powers, Rydian finds his former masters enslaved. Condemned to fight and die in the arena, few of the Alfur remain. Conquerors they might have been, but Rydian can't help but wonder if this was the fate they deserved. Afterall, some had helped him. Some had saved him. He can't fight the Federation. Not alone. But there are still mysteries on his home world, powers that even the Federation fear. Can Rydian Holt unlock the secret of their species' shared past and finally bring peace between human and Alfur? Or will his desperate gamble lead to the destruction of everyone and everything he has ever known?

The Elohoic Verses Book One ' ' Mythos of Elohim' Patrick L. Lysons, 2000-03-13 What is a mythos?: a story, speech, or song that celebrates a sacred narrative. A mythos can be a play, a film, an opera, a narrative within a narrative; above all, a mythopoeic vehicle. A musical coda. A mythologem. A poem. A song that won't go away you hum on your way to somewhere else. Or simply a dream narrative where certain sacred themes repeat themselves throughout human history. The poems in this first book of the Elohoic trilogy verses were written during a ten year period (1989-99) in rural areas throughout the American Southwest. The narrative begins with an invitation, an invocation, to step into poetic light and concludes with the seeming death of the poetic/philosopher persona; along the way, the persona encounters the character of Jesus and his opposite: the Maker of the World-Iaoldaboath-but the poetic character in the mythos haunts certain mystic types: the Lost Pilgrim still stuck on

Eckhart's prayer encountering Dante in Purgatory; a lover, friend, priest, and shaman. In an enigmatic style, the brevity is as sharp as a Zen master's silence where existence is seen as a poetic experiment in negation, a mimetic deconstruction--thus, in the facing of death an acceptance of death; the stirring of another kind of experience and Being in heart and mind. The poems at times elevate a prophetic and hortatory Voice--its language firmly grounded in an ancient and sacred poetic tradition. But the poetry itself, as poetry, remains informed by an Other; inspired by Kierkegaard's essay *The God as Teacher and Savior* (from which the excerpt is quoted) the poems proceed in a loose narrative form. It tells the story of a poetic risk-taker who is near death from a mountain climbing accident. He is remembering a dream he dreamt at a point from which his life has already ended. That essential material--the emptying of the contents of the dream--becomes the mythos of the poetry. Humphrey Bogart (as Sam Spade) best addresses the mysterious nature of the mythos in the last lines of the film *The Maltese Falcon*. When asked *What is it?* Spade responds: *It's the stuff dreams are made of.* Note: The name Elohim honors the Elohoic tradition of poetry and songs found in the Bible whose Hebrew name took the form *El-o-him* (as one of the Names for God) in the Psalms, for example, and in *Ecclesiastes*, among 9 other books classified as *The Writings*, including *Proverbs*. For a list of literary sources alluded to in this book, please E-mail the author.

Castle Vroman Thomas J DePrima, 2015-05-28 From inside a giant asteroid, hundreds of light years from Earth, Admiral Jenetta Carver is beginning to look forward to a trip home, and finally receiving command of her own ship. Her five-year tour of duty as the Base Commander of the Stewart SC Base is nearing an end, and the ship carrying her

replacement has been underway for more than a year. However, when the GSC destroyer carrying Admiral Vroman is attacked just a few light years from the base, her plans are quickly forgotten. Rescue ships arriving at the site the next day find only corpses aboard the Lisbon, while a severely damaged freighter with a dead Tsgardi crew floats nearby. There's no sign of the admiral, and most of the SC crew is missing. The Milori Military Forces, unsuccessful in their first attempt to defeat the Galactic Alliance and annex its territory, are preparing for a second assault. Emperor Maxxilothe has decided he won't be embarrassed a second time and sends every ship available in his empire as part of the new invasion force. Months later, a shuttle touches down on a primeval world far inside the Frontier Zone, where Admiral Vroman and the senior officers from the GSC destroyer Lisbon are to be marooned by their Milori captors. As the rest of the crew is being shuttled down to the surface, the officers quickly draw up a plan of survival. Left with only the most basic of supplies and equipment, the spaceship crew must learn how to exist in a hostile, planetary environment. While the forces at Stewart are preparing for an imminent attack by the Milori, the crew of the Lisbon is learning that they have some rather large and particularly nasty neighbors with voracious appetites and predacious habits.

Star Span Daryl Fisher, 2008-02 As the Galactic Confederacy finishes its recovery from the deadliest war since its young establishment, Tzi, a young Starling, is sent off to his first assignment. As the Starlings go into hiding after being disbanded by the Galactic Congress, the message reaches a few of the units too late. Tzi is left at the edge of the galaxy with new abilities resembling those of Mneph, the missing light bringer. Jaron, Tzias bond brother, is

captured by the highly feared Ozark and has to fight his way to freedom. Tahny, Tzias girlfriend, is recruited by the great Sage Jakkenue Byth to search out the one object that the missing light bringer can use to defend the galaxy. Unknown to those in the galaxy, the birth of a light bringer has begun. Will Tzias new powers of light be enough to protect what he holds dear from the impending war?

The Darkness Beyond the Light Frank W.

Zammetti, 2019-01-29 When light gives way to darkness, only terror remains! An unfathomably advanced alien technology slowly gains sentience over thousands of years roaming the galaxy on a secret, ancient and malevolent mission. The first test of a new military hyperstealth system, based on technology and physics theories far beyond anything previously dreamed of, irrevocably changes the course of humanity's future, opening doors that would better remain closed. And at the intersection of these events is husband and wife team Alex and Melissa Wakeman, the very definition of a power couple: Alex a veteran special military operator turned Air Force test pilot who likes to keep things light with humor but who is highly capable in any situation; Melissa a world-class scientific mind, perhaps the smartest person on Earth in fact, specializing in advanced military aircraft design. They, along with their superior and friend Brendan Alcheck, wage an apocalyptic battle against a horrific alien hybrid, born of death and decidedly deadlier than any creature on Earth. Together, they must race against time to stop the creature from completing its mission: the return of the hyperstealth technology to its masters, a highly advanced malevolent race who, unbeknownst to the human race, sow death and destruction throughout the galaxy. Unimaginable sacrifices are made and a final, impossible battle fought on multiple fronts will determine the fate

of the human race, and that of thousands of as yet unknown species. The Darkness Beyond the Light, book I of the Infinite Universe Saga, is a tense, action-packed sci-fi thriller, an adventure you will not want to miss!

Light Jump Nathan Pennington, 2011-10-29 Far into the future . . . Jude Anderson, orphaned at 16, continues his parent's controversial research into the little understood power of magnets. He discovers how to bend light around something making it completely invisible. At the same time, aliens land for the first time on Earth, but they aren't alien. They are human, only from faraway. The suspicious Hong Kong government presses Jude into service after learning of his invention. His task: invisibly sneak aboard the alien-human's ship and travel 500 light-years to their unknown planet. Alone, in deep space he has to survive, if he can, and return somehow to report his finding to the government officials. However, the alien-human has an agenda of his own, and no one, not even the suspicious governments on Earth have the slightest idea what he is planning.

Metaphysical Poetry Colin Burrow, 2013-07-04 A key anthology for students of English literature, *Metaphysical Poetry* is a collection whose unique philosophical insights are some of the crowning achievements of Renaissance verse, edited with an introduction and notes by Colin Burrow in Penguin Classics. Spanning the Elizabethan age to the Restoration and beyond, *Metaphysical poetry* sought to describe a time of startling progress, scientific discovery, unrivalled exploration and deep religious uncertainty. This compelling collection of the best and most enjoyable poems from the era includes tightly argued lyrics, erotic and libertine considerations of love, divine poems and elegies of lament by such great figures as John Donne, George Herbert, Andrew Marvell and John Milton, alongside pieces from

many other less well known but equally fascinating poets of the age, such as Anne Bradstreet, Katherine Philips and Thomas Traherne. Widely varied in theme, all are characterized by their use of startling metaphors, imagery and language to express the uncertainty of an age, and a profound desire for originality that was to prove deeply influential on later poets and in particular poets of the Modernist movement such as T. S. Eliot. In his introduction, Colin Burrow explores the nature of Metaphysical poetry, its development across the seventeenth century and its influence on later poets and includes *A Very Short History of Metaphysical Poetry* from Donne to Rochester. This edition also includes detailed notes, a chronology and further reading. Colin Burrow is Reader in Renaissance and Comparative Literature at Gonville and Caius College, Cambridge. He has edited *Shakespeare's Sonnets* for OUP and *The Complete Works of Ben Jonson*, and is working on the Elizabethan volume of the *Oxford English Literary History*. If you enjoyed *Metaphysical Poetry*, you might like *John Donne's Selected Poems*, also available in Penguin Classics.

What Is Pastoral? Paul Alpers, 2011-03-15 One of the enduring traditions of Western literary history, pastoral is often mischaracterized as a catchall for literature about rural themes and nature in general. In *What Is Pastoral?*, distinguished literary historian Paul Alpers argues that pastoral is based upon a fundamental fiction—that the lives of shepherds or other socially humble figures represent the lives of human beings in general. Ranging from Virgil's *Eclogues* to Sarah Orne Jewett's *The Country of the Pointed Firs*, from Shakespeare and Cervantes to Hardy and Frost, this work brings the story of the pastoral tradition, previously limited to classical and Renaissance literature, into the

twentieth century. Pastoral reemerges in this account not as a vehicle of nostalgia for some Golden Age, nor of escape to idyllic landscapes, but as a mode bearing witness to the possibilities and problems of human community and shared experience in the real world. A rich and engrossing book, *What Is Pastoral?* will soon take its place as the definitive study of pastoral literature. Alpers succeeds brilliantly. . . . [He] offers . . . a wealth of new insight into the origins, development, and flowering of the pastoral.—Ann-Maria Contarino, *Renaissance Quarterly*

50 Reasons Why You Are Extraordinary Valorie Maya, 2016-06-20 This is not an ordinary story - its a piece from Valories life that changed her vision for her future and her understanding of the animal world. Like a powerful heart activation it is still working on her. Valorie hopes that sharing the books message will benefit others in the same way. It took a Buddha dog a life time and a half to get the message through to Valorie that she is an extraordinary person living on a beautiful, loving planet in a time of exciting vibratory growth. It started out as an exercise meant to wake Valorie up, and now its a gift for those who need a wake up call of their own, whether they live with a companion animal or not. It will definitely make you think about what your pets are really doing with you. The planetary vibration is shifting into higher frequencies - we are moving forward to change our DNA and improve as human beings. To do this its important to remember who we are and how to appreciate, understand, and be kind to ourselves, because this is how we open our hearts to grow with our Mother Earth. Dont let another day go by without opening your heart to the realization that you are extraordinary, too.

The Clones of Mawcett Thomas DePrima,2015-05-28
While digging through the ruins of a long dead civilization on the planet Mawcett, a team of Terran and Nordakian archeologists find an underground tunnel leading to a door in such extraordinary condition that it could have been fabricated as recently as that morning. They labor throughout the day, using every modern device available to them, but are unable to gain entry. Then, in the early hours of the new day, seemingly in response to the screams of a frustrated, over-tired scientist, the door slides noiselessly open. Upon passing through the entranceway, the archeologists are stunned to find an elaborate complex in pristine condition. Summoning the courage to venture further, they enter a large circular chamber lined with strange electronic equipment, and immediately become engrossed in examining strange symbols etched into the floor near the center of the room. Suddenly, they're bathed in a strange light that paralyzes them where they stand. They watch in frozen terror as a clear, circular wall rises up around them. When the enclosed area begins to fill with a dense other gas smelling of persimmons, the dig site laborers, who had witnessed the activity from the periphery, run screaming for the entrance.

The Milky Way and Other Galaxies Megan Kopp,2012
Describes the Milky Way and other galaxies, including what they're made of, shapes, and clusters--

Against All Odds Thomas J DePrima,2015-05-28 War has kept Admiral Jenetta Carver far from home for twelve years. With the advent of peace, she takes a well-deserved vacation and returns to Earth for a visit before her duties as Military Governor and Supreme Military Commandeer of Region Two prevent

such a trip for more years. She picks up her two sisters on the way home and the three women surprise their mom with the unannounced visit. Just a week after arriving home, Jenetta receives word that Region Two has been invaded. No war has been declared, and details are sketchy, but Tsgardi Warriors have landed on at least one planet a hundred light years inside the border and begun rounding up, harassing, and in some cases killing the citizenry. Determined not to let the news interfere with her mother's joy of having her three daughters with her, she doesn't mention the invasion at home, but she's summoned to appear at Space Command Supreme HQ to discuss the situation. As Jenetta begins the trip back to her base, she begins formulating plans and sending orders so that all will be in readiness when she arrives. She's determined to deal with the Tsgardi situation once and for all, and in a manner consistent with the way she dealt with the Milori situation. When an enemy refuses to let you live in peace, the only action you can take is remove their ability to ever wage war against you again. Jenetta doesn't yet know that the Tsgardi thrust into Region Two is just the tip of the lance. Three other interstellar powers have joined the effort to arrogate the new territory before Space Command can move security forces into place. Jenetta's tiny fleet will face an armada a thousand warships strong. It's not just another day at the office.

Encounter A Place Apart Paul Grout, 2018-01-08 If you think that Jesus might have had something significant to say related to the well-being of the human race, this book is for you. If you think that Jesus' purpose was to get people into heaven after they died, this book is not for you. Actually, maybe it is, but you may not like it. Through individual and group encounters and thought-provoking questions, through poetry,

prayers, icons, and meditation exercises, this companion for the warrior mystic monk seeks to guide the reader into an encounter with the life force that holds together and flows through all creation. This guide is intended for those who believe that Jesus began something central to the well-being of humanity and all creation, which has become almost lost within the institution of religion. Many who are embracing this emerging spiritual awakening remain within the church. The church continues to be family. At the same time, one's primary spiritual community is made up of those who are seeking awakening whether they are inside or outside of a religious institution.
