📖 **ANCIENT ENEMIES FUTURE HEROES** KURT SMOLEK, 2017-09-07 What if Earth's history as we know it is only a fragment of the actual truth? What if it started thousands of years before we ever thought? Could it be possible that an advanced society and civilization thrived here on Earth, but due to a worldwide flood, their existence was nearly wiped away from history? With melting glaciers at the end of the last ice age then combined with a comet colliding with the Earth, it caused global rainstorms and increased volcanic activity resulting in the rapid melting of Earth's ice. It quickly flooded Earth's entire surface. After over a month of flooding, only a small fragment of Earth's inhabitants survived. Many civilizations and creatures were totally wiped away. Many great cities were buried or sent to the bottom of seas. Animals and humans had to start over with repopulating the Earth. Over time, some evidence of this time has been found. Some of these items found are more advanced than we are today. Some items are even questionable if they are even from Earth. Only a few left today really know the truth about our planet. An alien race came to Earth to escape their dying world. They tried taking over and ruling our world and all its inhabitants. After many hundreds of years, a civil war broke out among them with the human race getting caught in the middle. After a last-attempt battle to end the war, both sides were sent into hiding and waiting. Now in today's world, the aliens are once again planning their takeover of our world with their extinction agenda. They have already started influencing our society. A small group of individuals have been tragically brought together after their ancestors were eliminated by the aliens because they were being seen as threats. Now this small group is the only one in the aliens' way of global domination.

📖 **A GALAXY NOT SO FAR AWAY** GLENN KENNY, 2015-03-24 A dazzling collection of original essays by some of America's most notable young writers on the cultural impact of the Star Wars films. A Galaxy Not So Far Away is the first ever exploration of the innumerable ways the Star Wars films have forever altered our cultural and artistic landscape. Edited by Glenn Kenny, a senior editor and critic at Premiere magazine, this singular collection allows some of the nation's most acclaimed writers to anatomize, criticize, celebrate, and sometimes simply riff on the prismatic aftereffects of an unparalleled American phenomenon. Jonathan Lethem writes of the summer he saw Star Wars twenty-one times as his mother lay dying of cancer. Neal Pollack chips in with the putative memoir of a certain young man having problems with his father, written in the voice of Holden Caulfield. Erika Krouse ponders the code of the Jedi knight and its relation to her own pursuit of the martial arts. New York Times film critic Elvis Mitchell meditates upon the mysterious figure Lando Calrissian. A classic assemblage of pop writing at its best, A Galaxy Not So Far Away is a book for everyone who loves Star Wars films and seeks to understand just what it is about these films that has so enchanted an entire generation of filmgoers.

📖 **GALAXY'S EDGE: BLACK SPIRE (STAR WARS)** DELILAH S. DAWSON, 2019-08-27 Walk the ancient streets, meet the colorful characters, and uncover the secret history of Star Wars: Galaxy's Edge, the new expansion to the Disney Parks experience! After devastating losses at the hands of the First Order, General Leia Organa has dispatched her agents across the galaxy in search of allies, sanctuary, and firepower—and her top spy, Vi Moradi, may have just found all three, on a secluded world at the Galaxy's Edge. A planet of lush forests, precarious mountains, and towering, petrified trees, Batuu is on the furthest possible frontier of the galactic map, the last settled world before the mysterious expanse of Wild Space. The rogues, smugglers, and adventurers who eke out a living on the largest settlement on the planet, Black Spire Outpost, are here to avoid prying eyes and unnecessary complications. Vi, a Resistance spy on the run from the First Order, is hardly a welcome guest. And when a shuttle full of stormtroopers lands in her wake, determined to root her out, she has no idea where to find help. To survive, Vi will have to seek out the good-hearted heroes hiding in a world that redefines scum and villainy. With the help of a traitorous trooper and her acerbic droid, she begins to gather a colorful band of outcasts and misfits, and embarks on a mission to spark the fire of resistance on Batuu—before the First Order snuffs it out entirely.
