Paint by Sticker Kids: Zoo Animals Workman Publishing,2016-09-20 Find the sticker, peel the sticker, place the sticker. And sticker by sticker, a koala appears! Or an elephant, frog, red panda, puffin, peacock, snake, giraffe, tiger, or gorilla. (And no mess to clean up!) Designed for children ages 5 and up, Paint by Sticker Kids: Zoo Animals uses low-poly art—a computer style that renders 3-D images out of polygon shapes—and removable color stickers so that kids can create 10 vibrant works of art. Unplugged Play: Preschool Bobbi Conner,2020-08-18 Screen-free. Battery-free. Pure fun. When Unplugged Play was first published as a parent-friendly encyclopedia of games and activities for all ages, Richard Louv, author of Last Child in the Woods, called it "A terrific prescription for much of what ails children and parents today." Now Unplugged Play gets a fresh and appealing new life as three separate, brightly designed books, each targeted to a specific age group. The need, of course, is significantly more pressing than when the book was originally published—screens are far more ubiquitous, causing parents even greater concern about their overuse—and these timeless, imaginative, easy-to-implement games are here to the rescue. Each volume includes games to play alone and games to play with siblings and friends and parents. Games to play indoors and games for outside. There are craft projects, music activities, guessing games—the kinds of truly fun activities designed to stretch the imagination, spark creativity, build strong bodies, forge friendships, and explore the real world. The opposite of hunkering down in front of an addictive screen.

Brain Games for 5 Year Olds Leland Books,2020-03-28 Workbooks for kids have been the same for such a long time. All the titles like for kids ages 5-7 or 3-5 or 5-8 appear too common in the bookstore and can even be best sellers. Nevertheless, it is scientifically proven that every child grows significantly every year and kids of different ages are not alike. A high-quality book can't be for kindergarten kids and third graders at the same time. Forced to learn with an unsuitable book, kids may start to get bored, waste their time and lose their interest in studying. As educators and parents, we care about your kids and understand their characteristics, needs and thinking skills. Unlike other books for a wide range of ages, this book is tailored for 5-year-olds. Our book Brain games for 5 year old: Word search, Crossword & Sudoku is published to foster a positive approach to education for this stage of growth. But why not 1, but 3 contents? This book aims at providing your kids with interesting learning experiences and helping balance and develop two hemispheres of their brain: Word Search and Crossword puzzles: to boost your children's memory power, expand their vocabulary, stimulate their creativity and practice their persistence. Sudoku: to sharpen kids' logical and critical thinking, and enhance problem-solving skills. You can hardly find 3x3 and 4x4 grids that perfectly fit your 5-year-old children anywhere else, except in our book. If you believe your beloved children deserve the opportunity to learn with an age-appropriate book, you have come to the right place! This book is a part of our series, Brain games for kids ages 4 - 8: Word Search, Crossword & Sudoku, each of which suits a particular age, highly recommended by teachers and researchers for comprehensive intellectual development.
