Richard Riemerschmid's Extraordinary Living Things Freyja

Hartzell, 2022-11-01 How Richard Riemerschmid's designs of everyday-but "extraordinary"-objects recalibrate our understanding of modernism. At the beginning of the twentieth century, German artist Richard Riemerschmid (1868-1957) was known as a symbolist painter and, by the advent of World War I, had become an important modern architect. This, however, the first English-language book on Riemerschmid, celebrates his understudied legacy as a designer of everyday objects-furniture, tableware, clothing-that were imbued with an extraordinary sense of vitality and even personality. Freyja Hartzell makes a case for the importance of Riemerschmid's designed objects in the development of modern design-and for the power of everyday things to

change the way we live our lives, understand history, and design our future. Hartzell offers for the first time an interpretive history of Riemerschmid's design practice embedded in a fresh examination of modernism told by the objects themselves. Hartzell explores Riemerschmid's early drawings, paintings, and prints; his interiors and housewares, which represent a modernist shift from exclusive image to accessible object; his designs for women's clothing; his immensely popular wooden furniture; his serially produced ceramics and their appeal to German nationalism of the period; and his complex and compelling pattern designs for textiles and wallpapers, the only part of his creative practice that spanned his entire career. Riemerschmid, Hartzell writes, was at his most inventive, playful, and free when designing things for everyday use. His uniquely designed forms allow us to recognize the utilitarian object not just as a tool but as an individual being—a thing with a soul.

The Game of Life (and How to Play It) by Florence Scovel Shinn Richard Lode, Florence Scovel Shinn, 2017-03-08 Most people consider life a battle, but it is not a battle, it is a game. It is a game, however, which cannot be played successfully without the knowledge of spiritual law, and the Old and the New Testaments give the rules of the game with wonderful clearness. Jesus the Christ taught that it was a great game of Giving and Receiving. If we give hate, we will receive hate; if we give love, we will receive love; if we give criticism, we will receive criticism; if we lie we will be lied to; if we cheat we will be cheated. We are taught also, that the imaging faculty plays a leading part in the game of life. Keep thy heart (or imagination) with all diligence, for out of it are the issues of life. (Prov. 4:23.)

Rethinking Campus Life Christine A. Ogren, Marc A. VanOverbeke, 2018-07-19 This edited volume explores the history of student life throughout the nineteenth and twentieth centuries. Chapter authors examine the expanding reach of scholarship on the history of college students; the history of underrepresented students, including black, Latino, and LGBTQ students; and student life at state normal schools and their successors, regional colleges and universities, and at community colleges and evangelical institutions. The book also includes research on drag and gender and on student labor activism,
