**Leaf Your Troubles Behind** Karen Hugg, 2022-07-15  
Have you ever felt happier after a walk in the woods or fiddling with houseplants but your hectic life stressed you out again? In our rushed, tech-based, indoor society, we may yearn for a break but only manage to get through a noisy day and collapse in bed. Regaining a peaceful mind seems beyond reach. But what if there were easy, low-cost activities to heal the soul? What if we could regularly access tranquility? How would we do that? The answer may be in the simplest, most abundant thing all around us: plants. Plants are like a magic pill for our mental health. Growing science tells us they lower heart rates, make us more relaxed and productive, boost our immune system, help us live longer, and provide air, food, fragrance, and beauty. In *Leaf Your Troubles Behind: How to Destress and Grow Happiness Through Plants*, horticulturalist Karen Hugg draws on the science and two decades of professional gardening experience to help readers reduce stress and increase happiness. Through her original, approachable system of "Green Leisure," you will: -discover nature's scientifically proven power to heal us from stress -explore what "green leisure" activities are right for you -create a soothing green lounge at home, either via plants or just photos and décor -gain confidence in growing low-maintenance but rewarding plants, indoors and out -develop "green leisure" habits to ensure care for

your soul any time of year With personal stories, the latest research, and fun easy-to-do activities, Karen guides readers in delving into the wonders of plants while “leafing” their daily stress behind and growing joy.

*The Psychological Appeal of Gardens* Clive R. R.

Hollin,2023-10-10 This insightful book explores the relationship we have with gardens and with the act of gardening, considering in detail the psychological, social and health benefits. From the Garden of Eden and the Hanging Gardens of Babylon to Kew Gardens and the humble suburban plot, it is self-evident that gardens and gardening have an ever-present attraction. This book addresses the appeal of gardens from a psychological perspective: Why do we spend our cash on plants and gardening paraphernalia and give hours of our time to tending our annuals, bulbs and shrubs? Why do we travel to see gardens in our own and other countries? The theme of this book lies in identifying the individual and social rewards to be found in gardens and gardening, particularly within our own private gardens. The Psychological Appeal of Gardens will be of great interest to students and scholars of applied psychology, as well those taking horticultural courses of various levels, from professional horticulturalists to enthusiastic amateurs.
