Getting the Most from Your Yellow Pages Advertising Barry Maher,2006-07-25 The completely revised and updated third edition of the classic bible on how to advertise in the Yellow Pages. The best and latest answers to all the questions telephone directory advertisers ask; and to those they never ask but should. As TIME said, Barry Maher has helped thousands of small businesses get the most effective and cost-effective yellow pages advertising possible. How much should you be spending? In which directories? What kind of ads should you have and how big should those ads be? In what headings? How can you save money without hurting response? How important are Internet Yellow Pages and local search engines? Plus Maher provides a step by step program for designing ads that get the call. Even when surrounded by pages of other ads all selling the same thing.

The New Gay Wedding Steven Petrow, 2011-08-26
 Times have changed—and with them, so have the rules. Introducing a mini ebook for today's gay and lesbian weddings and commitment ceremonies, covering what to call the event, who pays for what, and the right way to word a same-sex wedding invitation. From the nitty-gritty

(what are your state's requirements for making it legal?) to the fun-and-pretty (what to wear!), **THE NEW GAY WEDDING** is a handy one-stop shop for gay couples planning their big day. Packed with Q&As from brides- and grooms-to-be and their families and friends, this adaptation from **STEVEN PETROW'S COMPLETE GAY & LESBIAN MANNERS** covers what's unique about gay weddings (how to find LGBT-friendly wedding vendors, the roles of family members), but also provides a practical overview of the parts that aren't: how to save money on the venue, the purpose of rehearsal dinner, and the art and timing of the thank-you note. Steven Petrow, former president of the National Gay & Lesbian Journalists Association, is a syndicated writer on LGBT manners for The Huffington Post, Yahoo! Shine, LOGO, and the "Q" Syndicate. The same-sex wedding expert for The New York Times, he has also written for The Advocate, The Los Angeles Times, Salon, The Daily Beast, and Out.com. His previous books include *The Essential Book of Gay Manners & Etiquette* and *When Someone You Know Has AIDS*. He lives in Chapel Hill, North Carolina. About this ebook: Workman Shorts is a line of bite-size, subject-specific ebooks curated from our library of trusted books and authors.

Steven Petrow's Complete Gay & Lesbian Manners Steven Petrow, 2011-06-01 A big book of manners for the more than 15 million lesbian, gay, bisexual, and transgender people in the United States and Canada and the people who love them, work with them, and live with them. Written by Steven Petrow, the go-to authority on the subject—he's the same-sex wedding expert at The New York Times and a columnist for The Huffington Post, Yahoo's Shine, GayWeddings.com, and the "Q" Syndicate (with distribution to more than 100 LGBT newspapers and websites)—this is the definitive book

of LGBT etiquette. Encyclopedic in its approach, filled with practical wisdom, lively wit, and much insight, Steven Petrow's *Complete Gay & Lesbian Manners* covers everything: from coming out to being out in the workplace; from dealing with the joy and complexity of same-sex weddings and commitment ceremonies (including how to propose and write meaningful vows) to handling the legal paperwork every couple needs. There's a chapter on sex etiquette, and another on the challenges and opportunities of raising a family, plus sections on travel, bullying, entertaining, meeting new friends, introducing your partner to your family, a primer on gay pride, and so much more. Throughout there are hundreds of questions—some posed by LGBT folk, and others by straight people: What do the mothers of two brides wear to a lesbian wedding? What do you say to an anti-gay joke? How do you answer “Who's the father?” when there are two mothers? *Manners*, yes, but with a twist. **In recognition of Quality, Excellence, and Design, this ebook has been granted a QED seal of approval from Digital Book World.**

Queerying Planning Petra L. Doan, 2016-05-23 Current planning practices have largely neglected the needs of the Lesbian, Gay, Bisexual, and Transgender (LGBT) community for safe urban spaces in which to live, work, and play. This volume fills the gap in the literature on the planning and development of queer spaces, and highlights some of the resistance within the planning profession to incorporate gay and lesbian concerns into the planning mainstream. Planning lags behind other disciplines concerned with queer urban

issues. In contrast, the field of geography has developed a rich sub-specialty in the geographies of sex and gender that examines spaces and the variety of non-heteronormative populations that inhabit them. This volume brings together both planners and geographers with experience in planning to examine some of the fundamental assumptions of urban planning as they relate to the LGBT community. The first few chapters are substantial revisions and expansions of earlier influential work on planning for non-conformist populations and the preservation of LGBT neighborhoods. Subsequent chapters comprise original contributions that draw on the rich literature from queer theory, planning theory and the geography of sexualities to explore the ways that nonconformist populations struggle with heteronormative expectations embedded in planning theory and procedures. These chapters consider the intersection of planning and a range of populations including transgendered and gender variant individuals. Subsequent chapters examine the ways that variations in the scale of urban and regional governance influence local politics around the implementation of more equitable policies at the city level. In addition, several chapters critically examine the implications of using the tolerance component of Richard Florida's creative cities arguments. The final section consists of two chapters that explore the ways that urban planning regimes have been used to regulate sexually-oriented businesses and the way this regulation of sexualized spaces has implications on the heteronormativity of plans and planners. In summary, these chapters interrogate planning practice and pose questions for academic and professional planners about the ways that the queer community and its needs for spaces have shifted. What do those changes mean for the practice of planning 40 years after the North American Stonewall rebellion and looking forward to the next

40 years? To what extent does existing planning practice constrain the evolution of queer communities or seek to commercialize such spaces to the benefit of large developers and the detriment of marginalized members of the community? How might planning practice change to provide more direct support to the evolution of queer people and the spaces in which they live? This volume draws on these insights as well as the experiences of the various authors to lay out possible future directions for the field of planning to create truly inclusive urban areas.

Homosexualities Stephen O. Murray, 2002-06 Breathtaking in its historical and geographical scope, this book provides a sweeping examination of the construction of male and female homosexualities, stressing both the variability of the forms same-sex desire can take and the key recurring patterns it has formed throughout history. [An] indispensable resource on same-sex sexual relationships and their social contexts. . . . Essential reading. —Choice [P]romises to deliver a lot, and even more extraordinarily succeeds in its lofty aims. . . . [O]riginal and refreshing. . . . [A] sensational book, part of what I see emerging as a new commonsense revolution within academe. —Kevin White, International Gay and Lesbian Review
