**G.E.M.S.** Daphne Valcourt,2022-11-08 In the ancient traditions, inspirational life lessons and words of wisdom were passed on from one generation to the next through the oral tradition; modern technology (television, electronic games, gizmos, and social media) however has replaced these oral traditions resulting in important life lessons and impactful stories that help to strengthen character and build resilience not being passed on. This book was written as a legacy to my daughter to help preserve these life lessons for generations to come; in so doing, these lessons will not be lost or forgotten. In times of crisis or distress, most people tend to revert to a more primitive form of existence to seek for strength, but conceivably, if the life lessons were never learned then there would be nothing to revert to; it is then that they give up in defeat. This book has valuable life lessons, impactful stories and research discoveries, which are called "G.E.M.S" and is shared to encourage and strengthen you in your personal journey. Enjoy the Journey! Preschool Gems Leslie McCollom, 2012-08-07 When preschool teacher Leslie McCollom created the Preschool Gems Twitter feed, it was because precious jewels were slipping through her fingers every day. Jewels like, My mom lived in the 90's, "I'm feeling poisonous, baby kitty," and "OK, but I'm still a dragon." Although she swore she'd remember these gems forever, in five minutes they would vanish, never to be heard by human ears again. So she became a covert anthropologist in the underground world of children, and started carefully cataloging them, and has been gracing the Twitterverse with her findings ever since—such as: "When I went to the chainsaw store I saw someone with REAL bubble gum." "There's a wolf in my tummy and a porcupine in my bum." I don't care about time outs. I only care about my life. Who are me?" "I love David Bowie. I'm going to marry David Bowie." Preschool Gems is a collection of the most bizarre, hilarious, jaw-dropping things overheard at Leslie's school. By turns sweet, sinister, and naively sincere, these treasures prove that kids are really just miniature people who are weirder and a lot less inhibited than their adult counterparts.
