SIMPO-I General Entity Simulator (GES) Kenneth W. Haynam, 1973 The report describes the development and preliminary testing of a generalized personnel entity modeling system. A research project was undertaken to develop a computerized modeling capability which could be used to simulate and evaluate many different Army manpower systems without reprogramming. The general entity simulator (GES) was developed to provide users of the SIMPO-I simulation package analyses usually not possible with more general mass flow models. (Modified author abstract).

The Zoological Record ,1913 Indexes the world's zoological and animal science literature, covering all research from biochemistry to veterinary medicine. The database provides a collection of references from over 4,500 international serial publications, plus books, meetings, reviews and other non-serial literature from over 100 countries. It is the oldest continuing database of animal biology, indexing literature published from 1864 to the present. Zoological Record has long been recognized as the unofficial register for taxonomy and systematics, but other topics in animal biology are also covered.
