Larry Chiagouris

*Getting a Job* Mark Granovetter, 2018-06-29 This classic study of how 282 men in the United States found their jobs not only proves it's not what you know but who you know, but also demonstrates how social activity influences labor markets. Examining the link between job contacts and social structure, Granovetter recognizes networking as the crucial link between economists' studies of labor mobility and more focused studies of an individual's motivation to find work. This second edition is updated with a new Afterword and includes Granovetter's influential article *Economic Action and Social Structure: The Problems of Embeddedness*. Who would imagine that a book with such a prosaic title as 'getting a job' could pose such provocative questions about social structure and even social policy? In a remarkably ingenious and deceptively simple analysis of data gathered from a carefully designed sample of professional, technical, and managerial employees . . . Granovetter manages to raise a number of critical issues for the economic theory of labor markets as well as for theories of social structure by exploiting the emerging 'social network' perspective.—Edward O. Laumann, *American Journal of Sociology* This short volume has much to offer readers of many disciplines. . . . Granovetter demonstrates ingenuity in his design and collection of data.—Jacob Siegel, *Monthly Labor Review* A fascinating exploration, for Granovetter's principal interest lies in utilizing sociological theory and method to ascertain the nature of the linkages through which labor market information is transmitted by 'friends and relatives.'—Herbert Parnes, *Industrial and Labor Relations Review*

**50 Ways to Get a Job** Dev Aujla, 2018-04-03 A new personalized way to find the perfect job—while staying calm during the process. You need to learn to ask the right questions, stop using job sites, and start doing the work that actually counts. Based on information gained from over 400,000 individuals who have used these exercises, this book reveals career expert Dev Aujla's tried-and-tested method for job seekers at every stage of their career. Filled with anecdotes and advice from professionals ranging from a wilderness guide to an architect, it includes quick-step exercises that help you avoid the common pitfalls of navigating a modern career. Whether you've just decided to start the hunt or you're gearing up for a big interview, *50 Ways to Get a Job* will keep you poised, on-track, and motivated right up to landing your dream career.

*Get a Job!* Dan Quillen, 2013-10-08 Unique job hunting advice for the new economy, told with personal anecdotes and real stories: more like chicken soup for the job-seeker than a dry reference manual! *Get a Job!* shows people at any point in their career how to find a job, and how to keep that job once they have it. The new economy of real 16% unemployment requires job hunters to think like a hiring manager. Quillen's book alone teaches readers how to do that, by providing insights into the thought process of hiring managers and HR Directors -- because he has been one most of his career! Using stories and anecdotes throughout, all from his 20+ years of personal experience and as a very recent job seeker himself, his credentials are better than anyone else writing on this subject. Ten or fifteen years ago, a well-crafted resume got you interviews and a job. But now, in the horrific New Normal economy where real unemployment is more than 16%, you absolutely have to tailor your

resume specifically to each job for which you are applying. If you don't, less-qualified candidates will get the interviews, and you'll be left out in the cold. This is just one part of the new job-seeking world that author Dan Quillen reveals from personal experience. Laid off in 2011, Dan was part of two networking groups...their average interviews per resume submitted was something like 5% -- one in twenty. Dan's was 24% -- nearly one in four. Dan got a job in record time, and now he shows readers how to do the same in *Get a Job!* Rather than a cold impersonal litany of things to do, *Get a Job!* is more like sitting down with an old friend who has taken a personal interest in the job seeker's dilemma. Quillen takes his readers by the hand and guides them through all the critical steps necessary for finding a job today -- not twenty years ago. Along the way, Quillen shares his own personal experiences in finding work in today's difficult economy, seen through the lens of his decades of HR experience as a hiring manager and HR director. The use of the Internet and social media is an important component of this book, which is filled with examples from Dan's own job hunt. Featured are copies of his resume (reviewed and discussed section-by-section), the job boards he used in his search and how best to use them, first steps to take after being laid off, the importance of resumes and cover letters, overcoming gatekeepers, preparing for the interview and how to excel at one, temp agencies, age-related questions, and much more. Dan also provides great strategies on how to keep a job once you've landed it, how to prepare to leave if the job appears to be ending, and how to stay positive in a very negative time. Real examples from Dan's search are the hallmark of every chapter, every strategy offered to readers.

Why Don't They Just Get a Job? Liane Phillips, Echo Montgomery Garrett, 2010  
*WHY DON'T THEY JUST GET A JOB?* describes the journey and the incredible results of Dave and Liane Phillips efforts to help those in poverty find their way to self sufficiency. Under the premise that existing job-readiness programs only focus on job placement and not retention to help the unemployed and underemployed, Dave and Liane Phillips created a poverty to economic self-sufficiency program with an 80% one-year employment retention rate. In the past three years this organization, Cincinnati Works, has brought \$25 million in wages locally to over 1500 families. The not-for-profit offers a complete spectrum of free, lifetime employment services for the entry-level job-seeker to sustain and advance in today's work climate. The model is a winner of the 2009 Manhattan Institute Social Entrepreneur Award. Following its success, Dave Phillips is now volunteering as a consultant for similar programs in other cities.

How to Get Any Job, Second Edition Donald Asher, 2009-10-20 Donald Asher, America's career guru, believes that success comes from an alignment of passion and preparation. First tip: Your college major has very little to do with your job options. In fact, you can get to virtually any life-goal destination from virtually any starting point. Stephen Colbert was a philosophy major. Chad Hurley, billionaire founder of YouTube, was an art major. And while we're at it, Albert Einstein was a high-school drop-out. Still think your college major will determine your life path? Think again. *HOW TO GET ANY JOB* is the first book that definitively answers the following questions, and many more: • What is life launch and how is it different from

getting a job? • Why do employers hire people like you? • Which skills do employers value most? (They're not what you think!) • How do non-tech people get hired and thrive in tech companies? • How do you set yourself up to get promoted? • How do you prove you have skills that don't show up on your transcripts? • How do you get experience if you can't get a job, or have the wrong major? • How can you get famous and influential people to help you? • How do you hit restart if you get stuck in a dead-end job out of college? • What should you do if you're a graduate and living in your parents' basement? • What should you do if you're a junior to make sure you don't end up in that basement? Whether you're twenty and still in college or twenty-nine and still wondering how to start your life, HOW TO GET ANY JOB offers the most creative and innovative thinking on life launch to date. It is used by college career centers nationwide.
