Blackjack: How To Play Blackjack: A Beginner to Expert Guide Steven Hartman,2017-11-01 After pumping dollars into the slot machine and staring at a screen, you get up and notice the table games section of the casino. Brightly lit from can lights shining downward and the crisp green felt of the line of games making you think of the cash in your wallet or purse. There is a row of blackjack tables. Some have a dealer standing with their hands clasped idly in front of them or pressed along the cushion running along the felt. They stare at the gamblers roaming the casino eagerly awaiting the next person to place a chip and test their luck. Other tables are crammed with players, the people behind them shifting to look over their shoulder, and you hear the loud clasp of a hand and the cheer of the table, "Blackjack!" Some tables are hot, some are just warming up, and some are presided over by a cruel dealer who seems to have the luck that any player would crave. The truth is it is all in the cards' each one shuffled meticulously by man or machine and dealt out randomly. The dealer has the same luck you do. That's the fun of it though. What This Book

Cartomancy Julian Moore,2012-09-21 Get this book, learn the system, do cool readings. - David Numen Julian's work is the best of the bunch in these genres. I have scoured book stores. I only learn from his books and ideas. - John Cesta My latest ebook which teaches the fundamentals of cartomancy is now ready for release. It's similar to my other books in that it's aimed at complete beginners as well as people who've started learning this particular reading discipline but then given up for one reason or another. Like my other books I use a no nonsense approach with lots of memory tips, insights, reviews and exercises over ninety pages to help you get up to speed as quickly as possible and the whole experience is extremely 'hands on'. In fact part of the process involves scribbling on the cards a lot to make sure the basics are implanted in your mind as you go. I'm really hoping that this new book gets some of you on the road to giving proper and interesting readings with cards instead of just thinking about it. There's a lot more information hidden in those fifty-two bits of paper than you probably realise! REVIEWS I got this yesterday and have started the study and have to say it's quite brilliant. I've read cards of one form or another for 20 years after learning initially from the Joe Riding course but for various reasons I was looking for something to help me sharpen my skills - and this more than does the trick. For anyone who might feel that they'd rather this was on tarot I think it's worth pointing out that when I started doing readings many moons ago a number of clients would tell me of this mystical sounding old man who read from ordinary cards. It was clear that the impression given to these women was that reading ordinary cards was somehow more skillful and impressive than tarot cards (I guess the pictures on the cards might make it obvious to some astute clients that there are highly visible cues on the cards). Playing card readings rock - and playing cards predate tarot and are thus, in my book, purer and more mysterious than tarot. - David Numen I purchased this ebook. What a great system. Always in the easily understood clear writing format you'd expect from Julian. This is of a quality you would expect to find in a book store. I have in the past purchased Julian's James Bond Cold Reading book and his Palm Reading book. For me this is one of the best. I find I am more in tune with numbers than the others. I always have a deck of cards and certainly the places I frequent there are cards as well. The fact that you can use a few cards, a few more to create a simple or more complex reading is terrific. Make it as long or short as you'd like. Julian's audio book (available for free from his site) is also top notch! Lots of valuable audio files to use while driving or sitting in a Doctor's office. Certainly worth the asking price. If you have any of Julian's other offerings you know what I mean. If you don't have any of Julian's other offerings don't hesitate. His metaphors and memory links make sense and they work. - John Cesta OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning: Graphology - The Art Of Handwriting Analysis Speed Learning: The James Bond Cold Reading Speed Learning: Palmistry - Palm Readings In Your Own Words

How to Use Your Business Cards for Success G. Lee Mikules,2003 Your business card is usually the first tangible thing a customer/client will take with him or her after meeting you. Does it communicate the message you want it to? G. Lee Mikules offers guidelines on how to get the most from your card- from design to distribution.Everyone is concerned about what is important to them before they are concerned about anything else. And you, as the one who hands them out, must realize that your ego will clash with that of the person who receives your card...The person you hand your card to does not care about your name or the fact that you have been in business for 25 years, or that you have every credential possible, and so forth. The only thing he is interested in is what your business, product, or service can do for him. Will it save or make him money? Will it feed his ego? You have to distill the essence of what your business is, and, most importantly, what it can do for your customer into a concise, benefit-oriented, hard-hitting sales message. Then put that message front and centre on your card!
