Drunk Edward Slingerland,2021-06-01 An entertaining and enlightening deep dive into the alcohol-soaked origins of civilization—and the evolutionary roots of humanity's appetite for intoxication (Daniel E. Lieberman, author of *Exercised*). While plenty of entertaining books have been written about the history of alcohol and other intoxicants, none have offered a comprehensive, convincing answer to the basic question of why humans want to get high in the first place. *Drunk* elegantly cuts through the tangle of urban legends and anecdotal impressions that surround our notions of intoxication to provide the first rigorous, scientifically-grounded explanation for our love of alcohol. Drawing on evidence from archaeology, history, cognitive neuroscience, psychopharmacology, social psychology, literature, and genetics, *Drunk* shows that our taste for chemical intoxicants is not an evolutionary mistake, as we are so often told. In fact, intoxication helps solve a number of distinctively human challenges: enhancing creativity, alleviating stress, building trust, and pulling off the miracle of getting fiercely tribal primates to cooperate with

strangers. Our desire to get drunk, along with the individual and social benefits provided by drunkenness, played a crucial role in sparking the rise of the first large-scale societies. We would not have civilization without intoxication. From marauding Vikings and bacchanalian orgies to sex-starved fruit flies, blind cave fish, and problem-solving crows, *Drunk* is packed with fascinating case studies and engaging science, as well as practical takeaways for individuals and communities. The result is a captivating and long overdue investigation into humanity's oldest indulgence—one that explains not only why we want to get drunk, but also how it might actually be good for us to tie one on now and then.

The Complete Book of Beer Drinking Games Andy Griscom, Ben Rand, Scott Johnston, 1999-07-27 The book that has intoxicated a generation—and has sold over 500,000 copies—is back!

Laurel and Thorn Robert J. Higgs, 2014-07-15 To examine the social and cultural significance of the athlete hero in American literature, Robert J. Higgs turns to the works of Ring Lardner, Ernest Hemingway, F. Scott Fitzgerald, Thomas Wolfe, William Faulkner, Robert Penn Warren, Arthur Miller, and Tennessee Williams. Higgs views the athlete in literature not as an artistic creation but as one who reflects the tastes, attainments, beliefs, and ideals of his society. The athletes he describes as Apollonian are the know-it-alls, of whom Lardner's Bushy Keefe is an

example; the Dyonisian, as exemplified by Irwin Shaw's Christian Darling, worships his body as an end in itself. The Adonic seeks knowledge for the sake of self-realization and lives in a world of tension, pain, struggle, and hope. Such a figure is Wolfe's Nebraska Crane. Higgs finds in contemporary American literature a clear rejection of the Apollonian and Dyonisian models and an acceptance of the Adonic.

I Hope They Serve Beer In Hell Tucker Max, 2012-03-01 The “highly entertaining and thoroughly reprehensible” #1 New York Times bestseller—now with sixteen pages of photos and a new introduction (The New York Times). My name is Tucker Max, and I am an asshole. I get excessively drunk at inappropriate times, disregard social norms, indulge every whim, ignore the consequences of my actions, mock idiots and posers, sleep with more women than is safe or reasonable, and just generally act like a raging dickhead. But, I do contribute to humanity in one very important way: I share my adventures with the world. --from the Introduction Actual reader feedback: I find it truly appalling that there are people in the world like you. You are a disgusting, vile, repulsive, repugnant, foul creature. Because of you, I don't believe in God anymore. No just God would allow someone like you to

exist. I'll stay with God as my lord, but you are my savior. I just finished reading your brilliant stories, and I laughed so hard I almost vomited. I want to bring that kind of joy to people. You're an artist of the highest order and a true humanitarian to boot. I'm in both shock and awe at how much I want to be you.

Born and Raised in Space; the Legacy of Two Copper Mining

Towns Samuel O Sanchez,2020-09-23 This book is written as Cuentos, short stories, of my life growing up in small rough mining towns in Arizona and New Mexico. Although I wrote it as a humorous book it was not an enjoyable time for us growing up with

with no English spoken in our homes. We were oftentimes punished for speaking in our native language, Spanish in class or even during playground times. I quickly learned that education was the key for me to enjoy a better life than my parents ever had. I instilled in my sons the value of education for them to succeed in their lives. I wrote this as short stories that will hopefully paint a complete picture of my life as it unfolded over the last seventy years.

Ozark Country W. K. McNeil,1995

Icebreaker A. L. Graziadei,2022-01-18 A. L. Graziadei's Icebreaker is an irresistible YA debut about two hockey players fighting to be the best—and the romance that catches them by surprise along the way. Seventeen-year-old Mickey James III is a college freshman, a brother to five sisters, and a hockey legacy. With a father and a grandfather who have gone down in NHL history, Mickey is almost guaranteed the league's top draft spot. The only person standing in his way is Jaysen Caulfield, a contender for the #1 spot and Mickey's infuriating (and infuriatingly

attractive) teammate. When rivalry turns to something more, Mickey will have to decide what he really wants, and what he's willing to risk for it. This is a story about falling in love, finding your team (on and off the ice), and choosing your own path.

Tris Speaker and the 1920 Indians Gary Webster, 2012-08-16

During the Cleveland Indians' checkered 110-year history, only two of its teams have brought home baseball's ultimate prize. While the 1948 team continues to be revered by Clevelanders, little has been written about the 1920 team that won the city's first pennant and World Series. Few, if any, World Series championship teams faced as much adversity as did the 1920 Indians. Among the obstacles they faced were the death of their star pitcher's wife in May; the shadow of the Chicago Black Sox scandal; and the tragic deadly beaming of shortstop Ray Chapman, the only fatal injury ever sustained by a major league player on the field of play. This chronicle of that extraordinary season highlights an overlooked chapter in the history of one of baseball's most beloved underdogs.

The Coast Artillery Journal , 1924

Lincoln, the Young Rail-splitter ... William Eleazar Barton, 1922

Alcohol Janet Chrzan, 2013 From the publisher. The purpose of this book is to provide a critical examination of human use of

alcohol across cultures and through time, thereby providing a framework for undergraduate students to self-consciously examine their beliefs about and use of alcohol. Almost all books written about alcohol for college students have a problems perspective, either clinically (alcohol as a drug) or societally (as deviance, or a social problem). Many students have problems responding to these approaches. Understanding human use of alcohol anthropologically is a refreshingly different and effective method of harm reduction, which can be used by instructors to teach students how to reduce potential damage to themselves and others, while at the same time conveying the anthropological imagination.
