How to get European Citizenship and Nationality? Heinz Duthel,2014-04-14 Hello to all, Does anyone have any knowledge and/or experience concerning which European Country would be the best bet for a U.S. Citizen to attempt to obtain citizenship for the sole purpose of being able to move about in the EU? I would like to move to France, but do not want to be hiding out playing the expired visa game. Because of this question I started to research and investigate : 'How to obtain EU Citizenship'. I contacted legal advisors, the EU Parliament, National EU Embassies and immigration officers. Each EU Nation has different regulation. There is nothing like a kind of EU Law, to obtain citizenship. The EU is still a kind of large economic area of many nation many common EU Commercial Laws, the Euro Currency, but the EU is not a Nation like the United States of America if you take in consideration the nationality of each member nation. If you're an American or from a Commonwealth country, perhaps the U.K. is more lenient. Europe is not like the US. It has nothing to do with where you are born, only who your born from. The UK for example requires that one of the parents be settled in the UK at the time of birth (i.e. right of abode, indefinite leave to remain...). That does not mean they have to be European citizens, just legally allowed to be there indefinitely (equivalent to US legal permanent residency). A person born in Belgium whose parents have lived there for at least 10 years by the child 12 birthday can request the child be registered as a Belgian citizen. France is similar, except it's age 13 if requested by the parents and 16 if requested by the person themselves.

The Civic Citizens of Europe Moritz Jesse,2016-10-27 In this work Moritz Jesse analyses the legal framework within which inclusion of immigrants into the receiving societies can take place. The inclusion of immigrants cannot be enforced by law. However, legislation must provide the room within which integration can take place legally. By studying residence titles, procedures and other sources in a comparative and critical way, Jesse wants to discover whether the legal potential for integration in the EU and the three Member States is sufficient for the inclusion of immigrants.

The EU Citizenship Directive: A Commentary Elspeth Guild,Steve Peers,Jonathan Tomkin,2019-10-16 The EU Citizenship Directive defines the right of free movement for citizens of the European Economic Area. It applies to EU citizens and their family members who move to another Member State. This might at first seem like a straightforward definition, but immediately questions arise. Who determines if a person is an EU citizen at all? What about dual citizens of two Member States, or of one Member State and a non-Member State (a 'third State')? What is the position of EU citizens who move to one Member State, and then return to their home Member State? This book provides a comprehensive commentary of the EU's Citizens' Directive tracing the evolution of the Directive's provisions, placing each article in its historical and legislative context. Special emphasis is placed on highlighting the connections and interactions between the Directive's constituent provisions so as to permit a global appreciation of the system of free movement rights to which the Directive gives effect. Each provision is annotated containing a detailed analysis of the case-law of the Court of Justice as well as of related measures impacting upon the Directive's interpretation including European Commission reports and guidelines on the Directive's implementation. This fully-updated new edition includes dscussion of relevant case law since the first edition, and has been expanded to include detailed discussion of rights of EU and UK citizens after Brexit in the withdrawal agreement.

The Long-Term Residence Status as a Subsidiary Form of EU Citizenship Diego Acosta Arcarazo,2011-05-23 This book analyses the potential of the Long-term Residence Directive to become a subsidiary form of EU citizenship which escapes direct control by Member States, by looking at its implementation and at its possible interpretation by the Court of Justice.

Citizenship, Nationality and Migration in Europe David Cesarani,Mary Fulbrook,2002-11-01 Throughout Europe longstanding ideas of what it means to be a citizen are being challenged. The sense of belonging to a nation has never been more in flux. Simultaneously, nationalistic and racist movements are gaining ground and barriers are being erected against immigration. This volume examines how concepts of citizenship have evolved in different countries and varying contexts. It explores the interconnection between ideas of the nation, modes of citizenship and the treatment of migrants. Adopting a multi-disciplinary and international approach, this collection brings together experts from several fields including political studies, history, law and sociology. By juxtaposing four European countries - Britain, France, Germany and Italy - and setting current trends against a historical background, it highlights important differences and exposes similarities in the urgent questions surrounding citizenship and the treatment of minorities in Europe today.

Family Reunification in the EU Chiara Berneri,2017-05-18 This monograph examines the intricate legislative and jurisprudential scenario of family reunification between EU citizens and third country nationals that has developed in the European Union over the last 50 years. Focusing on family residence rights granted to third country national family members of EU citizens, it examines one of the largest sectors affected with over two hundred thousand permits granted each year. In addition to its practical significance, the field has been the object of a lively debate, which has yet to be systematically analysed. Using a historical approach, it illustrates the development of the legislation and of the case law on the issue considering the factors that influenced the choices of the EU Legislator and of the Court over the years. It also suggests what future path the Court could take when deciding on cases in the field in order to reinforce the protection of families. This important research ensures full understanding of the EU legislation and of the Court's jurisprudence and allows for its correct application by Member States.

Debating European Citizenship Rainer Bauböck,2018-09-12 This open access book raises crucial questions about the citizenship of the European Union. Is it a new citizenship beyond the nation-state although it is derived from Member State nationality? Who should get it? What rights and duties does it entail? Should EU citizens living in other Member States be able to vote there in national elections? If there are tensions between free movement and social rights, which should take priority? And should the European Court of Justice determine what European citizenship is about or the legislative institutions of the EU or national parliaments? This book collects a wide range of answers to these questions from legal scholars, political scientists, and political practitioners. It is structured as a series of three conversations in which authors respond to each other. This exchange of arguments provides unique depth to the debate.

The Legal Elements of European Identity Elspeth Guild,2004-01-01 The individual has become visible throughout Europe and within its institutions as a potential or actual rights holder. He or she is no longer defined as visible or invisible in law by the nation state alone. In today's Europe, he or she establishes identity'that is, the rights to entry, residence, work, family life, and protection from expulsion'through a multilayered legal structure involving the nation state, the EU, and the Council of Europe and all their political, administrative, and judicial arenas. In this remarkable study Elspeth Guild examines the ways in which law in Europe defines the status of the individual and his or her entitlements as regards identity. Among her enlightening approaches to this complex subject the following may be listed: the right to move across borders;the limitations of citizenship of the Union as currently construed;social

benefits of citizenship; residence; immigration; family reunification; human rights of foreigners; asylum; expulsion and readmission; racial discrimination; and long-resident third-country nationals. The analysis includes extensive reference to relevant cases, especially European Court of Justice and European Court of Human Rights decisions. This is a work of great value and insight. As more and more legislation is adopted in the area of European citizenship, courts will increasingly be called upon to articulate the relationship of individuals to the territory and society in which they find themselves. And as this inevitable development is defined, all jurists and legal academics who care for civil society in Europe will discover this deeply considered book afresh.

In Search of the Perfect Citizen? Sergio Carrera, 2009-05-20 This book studies the normative intersection between integration, immigration and nationality in the European Union (EU). It examines the relationship between integration and the legal frameworks of admission, stay and access to nationality by third country nationals at national and European levels. Integration is being subject to multifaceted processes transforming its traditional policy and legal settings, as well as its classical theoretical premises and approaches. The Europeanisation of immigration policy has provoked the emergence of distinctive European approaches on integration. The legal elements of integration are being developed through two parallel settings: the EU Framework on Integration and European immigration law. These venues constitute two of the main pillars upon which the common EU immigration policy is being constructed, and their nexus raises several elements in need of reflection and study. This book examines the processes through which integration becomes a norm in nationality and immigration law and policy at the national and EU levels, and the implications of these processes for the legal status of third country nationals and the overall coherency of the common EU immigration policy.

European Citizenship under Stress Nathan Cambien, Dimitry Kochenov, Elise Muir, 2020-09-07 European citizenship is facing numerous challenges, including fundamental rights and social justice considerations. These get amplified in the context of Brexit and the general rise of populism in Europe today. This book takes a representative selection of these challenges, which raise a multitude of highly complex issues, as an invitation to provide a critical appraisal of the current state of the EU legal framework surrounding EU citizenship. The contributions are grouped in four parts, dealing with constitutional developments posing challenges to EU citizenship; the limits of the free movement paradigm in the context of EU citizenship; EU citizenship beyond free movement; and, lastly, EU citizenship in the context of the outside world, including Brexit, the EEA and Eurasian Economic Union.

EU Citizenship Law and Policy Dora Kostakopoulou, 2020-09-25 This theoretically ambitious work combines analytical, institutional and critical approaches in order to provide an in-depth, panoramic and contextual account of European Union citizenship law and policy.

Research Handbook on European Union Citizenship Law and Policy Kostakopoulou, Dora, Thym, Daniel, 2022-03-17 This Research Handbook provides a panoramic guide to the study and research of EU citizenship and its development within a challenging environment characterised by restrictive access to social benefits, Brexit, Euroscepticism and Covid-19. It combines theoretical perspectives with analyses of both the existing and future rights, duties and social protection that EU citizens ought to enjoy in a democratic and principled European Union.

EU Citizenship at the Edges of Freedom of Movement Katarina Hyllén-Cavallius, 2020-11-26 This book critically analyses the case law on EU citizenship in relation to its personal free movement rights, its status on the primary law level, and EU fundamental rights protection. The book exposes the legal space where EU citizenship variably loses or gains legal relevance, and questions how this space can be overcome. Through a thorough analysis of the core personal free movement rights of residence, family reunification, equal treatment and equal political participation, the book demonstrates how the development of the case law of the Court of Justice of the European Union has generated a two-tiered legal concept of EU citizenship. Depending on the nature of the legal claim at hand, EU citizenship may appear as a poor legal personhood for exercising free movement rights; sometimes pushing the individual who is in a factual cross-border situation out of the scope of Union law. Contrastingly, in other strands of the jurisprudence, we see EU citizenship and its primary law levelled-rights stretch the jurisdictional scope of Union law, triggering the EU's Charter of Fundamental Rights for review of the individual case. The book enhances the understanding of the legal concept of EU citizenship in Union law and contributes to the debate on the future development of EU citizenship, its relationship to the Charter, and the strength of its legal position for the person who exercises freedom of movement.

Citizenship Rights and Freedom of Movement in the European Union Francesco Rossi dal Pozzo, 2013-07-11 Although EU citizenship may appear to be a straightforward and unproblematic matter – each citizen of a Member State is a citizen of the Union – there are in fact situations in which EU citizenship status can become a thorny issue, at times even determining the outcome of a case. Because the rights automatically recognized with nationality most clearly involve the fundamental right of moving and residing freely, the case law relating freedom of movement with EU citizenship status is extensive and reaches into many areas of practice at every level. Prompted by the declaration of 2013 as the ‘Year of Citizens’, the author of this book offers a detailed analysis of the rationales underlying the development of the EU citizenship concept, the directives and regulations that define citizen status, and the cases that have so far worked to clarify the meaning and limits of such status, all with particular attention to the obstacles that still come between the actual exercise of rights in everyday life. The multifarious issues raised include the following: the Charter of Fundamental Rights and the EU citizen’s status; changes introduced by the Treaty of Lisbon; limitations on Member States with regard to granting and revoking nationality; participation of EU citizens in the decision making processes governing the EU; right to recourse to the European Ombudsman; right of access to documents; registration at a host Member State’s competent public offices; limitations of entry due to reasons of public policy, public security, and public health; procedural safeguards in the case of measures limiting freedom of movement; the condition of migrant workers; restrictions to freedom of movement for ‘employment in the public sector’; and the condition of family members of EU citizens. An appendix gathers legislative documents most often cited in the case law. Closely examining the various institutions concerned, case law (Member State as well as Court of Justice), and legislative innovations, the author concentrates on identifying and overcoming those obstacles that still prevent full enjoyment of EU citizenship rights. While the clear demarcation of issues will be of especial practical value in anti-discrimination cases, legal academics and jurists will appreciate the book’s signal new contribution to a classic theme of the European Union.

Rights of Third-Country Nationals under EU Association Agreements Daniel Thym, LL.M., Margarite Zoetewij-Turhan, 2015-08-07 Rights of Third-Country Nationals under EU Association Agreements identifies overarching themes and discusses the practical impact of the legal rules on the free movement of persons in association agreements between the EU and neighbouring countries, in particular Turkey.

A Re-definition of Belonging? Ricky Van Oers, Eva Ersbøll, Theodora Kostakopoulou, The introduction of language and integration tests as a condition for naturalisation and other types of legal residence permits reflects an important recent change in citizenship policies in European countries. In this book, experts from nine countries reflect on the redefinition of political belonging by examining the policies concerning immigrant integration.

EU Citizenship and Federalism Dimitry Kochenov,2017-04-13 Kochenov's definitive collection examines the under-utilised potential of EU citizenship, proposing and defending its position as a systemic element of EU law endowed with foundational importance. Leading experts in EU constitutional law scrutinise the internal dynamics in the triad of EU citizenship, citizenship rights and the resulting vertical delimitation of powers in Europe, analysing the far-reaching constitutional implications. Linking the constitutional question of federalism and citizenship, the volume establishes an innovative new framework where these rights become agents and rationales of European integration and legal change, located beyond the context of the internal market and free movement. It maps the role of citizenship in this shifting landscape, outlining key options for a Europe of the future.
