Your Opinion Counts Britton Alexander, 2011-04-20
My name is Britton Alexander and chances are good that in 2009, I was just like you are today. I was working full time, making a huge house payment, and struggling to find ways to get from paycheck to paycheck. On average, from 2006 thru 2010, I spent \$2800 a year on bounced check fees. Life is miserable when you feel like you have so much, yet struggle to get by. I decided I was fed up with not being in control of my finances, so I decided to do something about it. No, I didn't find a get rich quick scheme or anything close to it. I found a bunch of little things that I could do online that gradually added up to enough money to quit worrying about bounced checks and late fees. I got my mortgage caught up, completely funded my IRA contribution for the year, and started paying down all my credit card debt. Today I'm on a more financially sound footing than ever before and I want to show you how I did it. One of the things I started doing to earn extra cash was taking online surveys. They were easy, fun, and I GOT PAID. I will take you through the entire process of how to find survey companies that will pay you to take surveys. I'll give you a list of places you can go to get surveys as well as show you how to do it... step-by-step. This book covers everything you need to know to get started, get organized, and start making a decent amount of money in the world on online surveys. HERE IS WHAT I WILL SHOW YOU
INSIDE -Why companies will pay for your opinion -

Tips to make your survey taking experience a success -How to find the best paid survey sites - How much money you can make participating in paid surveys -And a lot more!

Paid Surveys Frank Kern, 2019-07-05 Get Paid Taking Surveys in Your Spare Time You just created a survey for your customers, members, employees, or students - that's great! Now comes the hard part: trying to get a lot of people to fill it out and give meaningful comments so you have valid and useful results. But since most people ignore surveys and those that bother filling them out often skip over important instructions, make rating errors, and write vague and unhelpful comments, what meaningful decisions can you really make from these misleading results? Where do you go for answers? If you have a LOT of time or a LOT of money, you can do what most people do: 1. Search the Internet. Spend hours and days reading what works for other people - which leads to conflicting opinions and misleading answers. 2. Ask your colleagues. Everyone has an opinion, right? Ask enough people and you'll end up with many situation-specific answers that don't work for you and a lengthy survey that few people will fill out. 3. Call in the experts. Pay someone else to improve your survey - which costs \$ and eats up your time. Frustrating because you know you could have done it yourself! * Let me offer a far better alternative: Enroll in this course to get expert advice you can quickly apply yourself. The Survey Doctor is here to give your survey a quick tune-

up! Get out the survey you are working on and let me share research-tested solutions and insights that you can immediately apply to your survey items, scales, and instructions that will yield interpretable results to take correct action. In fact, these are the same tactics that I have used to improve surveys and evaluation forms created at 650 colleges, training organizations and Fortune 500 companies. But once you join the Udemy community you won't have to pay my fees or travel expenses! :) Within a couple hours you will be able to: * Ask the RIGHT questions in the RIGHT way to get interpretable results * Dramatically boost response rates (without paying anyone!) * Get relevant and actionable written comments from respondents you can use * Engage people to WANT to fill out your survey * Eliminate costly incentives and survey fatigue * Smile with confidence and satisfaction knowing that all the efforts you put into creating your survey will now yield huge returns and valid results and much, much more... The White Coat Investor James M. Dahle, 2014-01
Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested

Financial Freedom Grant Sabatier, 2020-04-07 The International Bestseller New York Public Library's Top 10 Think Thrifty Reads of 2023 This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover. -Lifehacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him the Millennial Millionaire. By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time,

so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to:

- * Create profitable side hustles that you can turn into passive income streams or full-time businesses
- * Save money without giving up what makes you happy
- * Negotiate more out of your employer than you thought possible
- * Travel the world for less
- * Live for free--or better yet, make money on your living situation
- * Create a simple, money-making portfolio that only needs minor adjustments
- * Think creatively--there are so many ways to make money, but we don't see them.

But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to retire at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.
