The Head Trip Jeff Warren, 2009-03-18 A world at once familiar and unimaginably strange exists all around us, and within us – it is the vast realm of consciousness. In The Head Trip, science journalist Jeff Warren explores twelve distinct, natural states of consciousness available to us in a twenty-four-hour day, each state offering its own kind of knowledge and insight – its own adventure. The hypnagogic state, when our minds hover between waking and sleeping, can be a rich source of creativity and even compassion. Then there's the Watch, an almost magical waking experience in the middle of the night that has been all but lost to electric light and modern sleep patterns. Daydreaming and trance, lucid dreaming, the Zone, and the Pure Conscious Event – from sleep laboratory to remote northern cabin, neurofeedback clinic to Buddhist retreat, Warren visits them all. Along the way, he talks to neuroscientists, chronobiologists, anthropologists, monks, and many others who illuminate his stories with cutting-edge science and age-old wisdom. On this trip, all are welcome and no drugs are required: all you need to pack are a functioning cerebrum and an open mind. Replete with stylish graphics and brightened by comic panels conceived and drawn by the author, The Head Trip is an instant classic, a brilliant and original description of the shifting experience of consciousness that's also a practical guide to enhancing creativity and mental health. This book does not just inform and entertain – it shows how every one of us can expand upon the ways we experience being alive.

**Stop Hitting Snooze** Alex Mihailoff, 2006-02 If you're anything like me, you hit the snooze on your alarm at least once every morning. You may even set your alarm so you can hit snooze a few times before you really need to get up. I know I do. Why do we do this? Why do we consistently hit snooze and stay in bed? The reason is that the bed is comfortable. Granted, there are times when we really don't need to get up and forgot to turn off the alarm, but this is not often. We like to stay in our beds because it's warm and safe. We eventually do have to get out of bed. Whether it's work, school, or maybe just to play some video games, we always get out of bed. I want you to ponder this question as you read: What if you never got out of bed? This is what happens far too often with our faith. We wake up long enough to receive salvation, and then hit the button again, now feeling safe knowing where we're going when we die. It is finally time for you to get up, get out of bed, and see the world.

**Addiction and Responsibility** Jeffrey Poland, George Graham, 2011-05-13 The intertwining of addiction and responsibility in personal, philosophical, legal, research, and clinical contexts. Addictive behavior threatens not just the addict's happiness and health but also the welfare and well-being of others. It represents a loss of self-control and a variety of other cognitive impairments and behavioral deficits. An addict may say, I couldn't help myself. But questions arise: are we responsible for our addictions? And what responsibilities do others have to help us? This volume offers a range of perspectives on addiction and responsibility and how the two are bound together. Distinguished contributors—from theorists to clinicians, from neuroscientists and psychologists to philosophers and legal scholars—discuss these questions in essays using a variety of conceptual and investigative tools. Some contributors offer models of addiction-related phenomena, including theories of incentive sensitization, ego-depletion, and pathological affect; others address such traditional philosophical questions as free will and agency, mind-body, and other minds. Two essays, written by scholars who were themselves addicts, attempt to integrate first-person phenomenological accounts with the third-person perspective of the sciences. Contributors distinguish among moral responsibility, legal responsibility, and the ethical responsibility of clinicians and researchers. Taken together, the essays offer a forceful argument that we cannot fully understand addiction if we do not also understand responsibility.

**12 Days of Christmas** Paul Michael Toth, 2022-08-01 Twelve days before Christmas, the angel Gabriel is sent to a family, the Hopewells, who live at 1222 Baker Street. And after he touches the lights of their Christmas tree, this family of six—Paul, Julia, Alexander, Brandon, Catherine, and little Dasha—experience a season that none of them could have ever imagined. In the following eleven days prior to Christmas, they and their friends—Carter and Carrie Covington, Samantha and Vic Welhausen, David Livingston, Aubrey Murphy, and Jack Winter—are amazed and entertained as the ornaments on the Hopewell tree become animated. What first begins as entertainment eventually educates them to the fact they have been called to a heavenly mission: a mission in which Lucifer will try his very best to thwart. Come along with the Hopewell family and their friends as they learn what it means to encounter the forces of hell and watch how the heaven's army protects this tiny group. Though Satan tries his best to keep this group cloaked in darkness, the light of understanding slowly ascends on Paul, his family, and his friends. All the darkness they experience (being trapped in a burning house, buried in the snow along a lonely highway, immersed in a volcanic cloud of ash and more) will only serve as background to the light that is slowly

dawning. Light will win out. While 12 Days of Christmas: Light Ascending is fiction, it forces you to think about the reality that you live in today.
