Ghosts in Photographs : the Extraordinary Story of Spirit Photography Fred Gettings,1978

A Field Guide to Spirit Photography Dale Kaczmarek,2002 The second book in the Haunted Field Guide Series explains how to capture ghosts on film. Includes a history of the evolution of spirit photography with many examples.

The Strange Case of William Mumler, Spirit Photographer Louis Kaplan,2008 In the 1860s, William Mumler photographed ghostsa or so he claimed. Faint images of the dearly departed lurked in the background with the living, like his well-known photo of the recently assassinated Abraham Lincoln comforting Mary Todd. The practice came to be known as spirit photography, and some believed Mumler was channeling the dead. Skeptics, however, called it a fraudulent trick on the gullible, taking advantage of the grieving at a time of suffering and loss. Mumlera s insistence that his work brought back the dead led to a sensational trial in 1869 that was the talk of the nation.

The Veil Lifted. Modern Developments of Spirit Photography John Traill Taylor,1894

Photographing the Invisible James Coates,1911 In this 100 year old book the mechanics of spirit photography are explained by apparent spirits communicating through mediums. It has to do with ether and semi-materialization apparently. However, the presence of a medium before the taking of the photograph is essential, reportedly. In addition, the medium should be morally and physically healthy and able to maintain a passive mental state. Anxiety is reportedly a great hindrance. That way, the subconscious thought forms are liberated. There's a photo of Alfred Russel Wallace and his deceased mother. Wallace states, The facts were too many for me. Photos of people's doubles were apparently also possible, such as the photo taken of medium Stainton Moses and his double. Mr. Coates includes a photo of himself and his dead wife. Thought photography is discussed towards the end of the book, which apparently dates from 1876. Images of objects enter and fix themselves in our brains through the retina, and then they can leave our brains by the same route, reportedly. Coates includes a letter from a correspondent who reportedly received evidence that there is a large band of workers in the spirit world who are helping to convince the Western World that there are things and beings which cannot be cognised by ordinary sense faculty. A good book to generate conversation about

Faces of the Living Dead Martyn Jolly,2006 From the collections of the British Library and other major archives in Britain and America, this includes work from leading spirit photographers from the 1870s to 1930s.

The Case for Spirit Photography Arthur Conan Doyle,1923 The publicity given to the recent attacks on Psychic Photography has been out of all proportion to their scientific value as evidence. When Sir Arthur Conan Doyle returned to Great Britain, after his successful tour in America, the controversy was in full swing. With characteristic promptitude he immediately decided to meet these negative attacks by a positive counter-attack, and this volume is the outcome of that decision. We have used the term Spirit Photography on the title-page as being the popular name by which these phenomena are known. This does not imply that either Sir Arthur or I imagine that everything supernormal must be of spirit origin. There is, undoubtedly, a broad borderland where these photographic effects may be produced from forces contained within ourselves. This merges into those higher phenomena of which many cases are here described. Those desiring fuller information on this subject are referred to Photo graphing the Invisible, by James Coates.

Phantoms on Film – Real Ghosts Caught on Camera Craig Hamilton-Parker,2015-03-31 Phantoms on Film is an intriguing collection of real ghost photographs and paranormal phenomena captured on camera. Bestselling author Craig Hamilton-Parker is an internationally recognized medium with TV shows on the BBC and programs around the world. With 40 years experiences as a medium communicating with the dead and an expert on photography and image analysis Craig uses his skills to sort the phantoms from the fakes. In this book he covers everything from never-before-seen Edwardian seance photographs, unfathomable ghost encounters, and some impossible to explain phenomena. He analyses orbs, strange lights, spirit extras, photos that predict the future, spirit lights and pictures of dead family appearing in images. Never before has there been such an extraordinary collection of unique pictures brought together in one book. These strange images are accompanied by the back story and an illuminating commentary by the world's leading expert on spirit photography.

Ghosts on Film Troy Taylor,2005-09-01 Author and ghost researcher Troy Taylor once again delves into the supernatural with a guide to the history and mystery of spirit photography. In this latest installment in the popular Haunted Field Guide series, the author takes an in-depth look at the controversial and mysterious history of spirit photography, including a look at the mediums and scientists who pioneered the field and the most famous pictures that allege to be ghosts captured on film. The book also includes a detailed exploration of the way that cameras have impacted the field of paranormal research and a recounting of some of the best-known cases where cameras played a crucial role, as well as a detailed guide for using your own camera in ghost investigations. Other sections of the book feature an examination of how cameras capture ghostly images, the

forms that paranormal energy takes, hints and tips on using cameras in ghost research, step by step guides to photographic investigations and chapters on analyzing photos, detecting photographic trickery, accidental photos, camera operations and much more! This is a must-have book for any ghost hunter's collection!

The Veil Lifted Andrew Glendinning (of London),1894

Modern Developments of Spirit Photography Andrew Glendinning,2019-05-07 The publication in the British Journal of Photography of Mr. Taylor's Paper, with the proceedings of the meeting at which it was read, has aroused a wide-spread and deep interest in the subject. The principal portions of it, and, in some instances the whole of the Paper, together with editorial comments, have subsequently appeared in newspapers and journals in Canada, Australia, India, America, and other countries. As his experiments will be a matter of historical interest, many scientific men will be pleased to have his Paper in this book form, with the reproductions of two of the psychic pictures which he obtained on his photographic plates. The term spirit photographs is generally used to describe photographs of psychic entities who cannot be seen by ordinary persons, but can be photographed by a medium, or with the help of a medium, and with the co-operation of these unseen entities. Such portraits are obtained both indoors and in the open air, with and without a background, by natural light and by artificial light; and, in the case of materialised forms at séances, which are visible to every person present, the portraits have sometimes been taken by light produced by the spirits, the exact nature of which is unknown. The following may serve as a rough classification of what are called spirit photographs: -1. Portraits of psychical entities not seen by normal vision. 2. Pictures of objects not seen nor thought of by the sitter or by the medium or operator; such as flowers, words, crosses, crowns, lights, and various emblematic objects. 3. Pictures which have the appearance of being copied from statues, paintings, or drawings. Sometimes these are busts or heads only. The flatness in some photographs of this class is supposed, by persons who have not investigated the subject, to be proof that the photographs are produced in a fraudulent manner. 4. Pictures of what are called materialised forms visible to normal sight. 5. Pictures of the wraith or double of persons still in the body. 6. Portraits on plates which developers have failed to bring into view, but that can be seen and described by clairvoyants and by mediums when in trance and whose descriptions agree, though made independently.
