One ill-fated evening, Star jeopardizes her family's business, her relationship with her boyfriend, and her future career. To redeem herself, she agrees to participate in a national craft competition, teaming up with her best friend, Ofelia—a secretly troubled mother whose love for crafting borders on obsession—and local celebrity Chloe Chavez—a determined television personality with more than one skeleton in her professional closet. If these unlikely allies can set aside their differences, they'll find strength they never knew they had, and learn that friendship, like crafting, is truly an art form.

**Sparkle: God and the Science of a Compassionate Universe** Alvin Conway, 2013-12-20 Our world is mired in chaos, disorder, and endless conflict. We have depleted the planet's natural resources to a point of scarcity. Wars now threaten to erupt over Earth's last dwindling natural resources: fossil fuel, water, arable land, and rare-earth minerals. We have used the fear of mutual assured annihilation by destructive weapons to achieve a tenuous and shaky peace in the world. Our financial institutions are imploding, as nations sink beneath oceans of debt. It is becoming clear that the entire model human civilization was built upon is flawed and destined to soon catastrophically unravel. Is this humanity's destiny or did we lose our way in a maze of material distractions? We needn't languish in the shadows of despair, failure, and mediocrity. We can achieve greatness, and bring harmony back to the world by emulating the patterns God has woven into nature. Nature's patterns are rooted in the science of compassion. We can triumph in life's darkest and most trying hour. We, too, can sparkle.

There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

**Grandparents** Isabelle Meier, 2016-10-04 Isabelle Meier presents a unique examination of the relationship between grandparents and grandchildren, viewed through the lens of analytical psychology. This relationship can have a huge impact on psychological development, yet it has been largely neglected in studies of the family. Meier explores both clinical and theoretical material throughout the book. In the first part she dissects archetypal images in the intergenerational relationship, particularly as shown in fairy tales, myths and legends. From the 'wise old woman/man' to the 'wicked witch' or the 'old wizard', memories and experiences of these archetypes can be stored in the implicit memory and activated later in life. The second part looks at the processes and functions of implicit memory and examines the concept of the complex as it applies to grandparents, using Stern's studies on the present moment and intersubjective phenomena. Finally, in part three, Meier presents case studies from her own practice. Grandparents will be essential reading for Jungian analysts and psychotherapists, analytical psychologists and those in training. It will also be of interest to academics and students of Jungian studies, myth and anthropology, and readers looking to explore intergenerational family relationships.
