**World Englishes** Elena Seoane, Cristina Suárez-Gómez, 2016-05-25 This book provides a collection of articles that reflect the current state of affairs in the blossoming field of World Englishes by bringing together several innovative synchronic and diachronic approaches. It contributes to the ongoing theoretical discussion concerning the criteria that make a low-frequency item represent an incipient change and examines the suitability of the sociolinguistics of globalisation theory for the study of non-traditional avenues for the spread of vernacular varieties of English (recent migrations, the entertainment industry, the web). It explores crucial aspects of language change and dialect evolution through the study of grammatical phenomena and the particular linguistic and socio-historical factors conditioning them. Together with theoretical questions, the volume shows a concern for methodological issues, such as sociolinguistic interviews, map-task experiments, metalinguistic comments, acceptability judgments and corpus-based methods. This volume represents the latest trends in the field and will undoubtedly set the agenda for the years ahead.

**Radio in the Global Age** David Hendy, 2013-04-24 Radio in the Global Age offers a fresh, up-to-date, and wide-ranging introduction to the role of radio in contemporary society. It places radio, for the first time, in a global context, and pays special attention to the impact of the Internet, digitalization and globalization on the political-economy of radio. It also provides a new emphasis on the links between music and radio, the impact of formatting, and the broader cultural roles the medium plays in constructing identities and nurturing musical tastes. Individual chapters explore the changing structures of the radio industry, the way programmes are produced, the act of listening and the construction of audiences, the different meanings attached to programmes, and the cultural impact of radio across the globe. David Hendy portrays a medium of extraordinary contradictions: a cheap and accessible means of communication, but also one increasingly dominated by rigid formats and multinational companies; a highly 'intimate' medium, but one capable of building large communities of listeners scattered across huge spaces; a force for nourishing regional identity, but also a pervasive broadcaster of globalized music products; a 'stimulus to the imagination', but a purveyor of the banal and of the routine. Drawing on recent research from as far afield as Africa, Australasia and Latin America, as well as from the UK and US, the book aims to explore and to explain these paradoxes - and, in the process, to offer an imaginative reworking of Marshall McLuhan's famous dictum that radio is one of the world's 'hot' media. Radio in the Global Age is an invaluable text for undergraduates and researchers in media studies, communication studies, journalism, cultural studies, and musicology. It will also be of interest to practitioners and policy-makers in the radio industry.

**Paris Fashion and World War Two** Lou Taylor, Marie McLoughlin, 2020-01-09 Winner of the Association of Dress Historians Book of the Year Award, 2021 In 1939, fashion became an economic and symbolic sphere of great importance in France. Invasive textile legislation, rationing and threats from German and American couturiers were pushing the design and trade of Parisian style to its limits. It is widely accepted that French fashion was severely curtailed as a result, isolated from former foreign clients and deposed of its crown as global queen of fashion. This pioneering book offers a different story. Arguing that Paris retained its hold on the international haute couture industry right throughout WWII, eminent dress historians and curators come together to show that, amid political, economic and cultural traumas, Paris fashion remained very much alive under the Nazi occupation - and on an international level. Bringing exciting perspectives to challenge a familiar story and introducing new overseas trade links out of occupied France, this book takes us from the salons of renowned couturiers such as Edward Molyneux and Robert Piguet, French Vogue and Le Jardin des Modes and luxury Lyon silk factories, to Rio de Janeiro, Denmark and Switzerland, and the great American department stores of New York. Also comparing extravagant Paris occupation styles to austerity fashions of the UK and USA, parallel industrial and design developments highlight the unresolvable tension between luxury fashion and the everyday realities of wartime life. Showing that Paris strove to maintain world dominance as leader of couture through fashion journalism, photography and exported fashion forecasting, Paris Fashion and World War Two makes a significant contribution to the cultural history of fashion.

**Community Radio in a Global Context** Eryl Price-Davies, Community Media Association, Jo Tacchi, 2001

**Politics at the Edge** Chris Pierson, S. Tormey, 2016-02-16 Politics at the Edge was the theme of the 1999 PSA Annual Conference. This volume brings together nearly twenty of the liveliest, most thoughtful and original papers from some two hundred presented at the conference. The major traditional strengths of British political science are well represented - with papers on parties, political theory and the history of political thought - but so too are less familiar areas such as the politics of Latin America and the politics of poststructuralism. Distinguished contributors include Agnes Heller, David Held, Mahdi Elmandjra, Andrew Dobson, Andrew Vincent and Richard Sakwa.

**Radio's Second Century** John Allen Hendricks, 2020-03-13 Winner of the 2022 Broadcast Education Association Book Award One of the first books to examine the status of broadcasting on its one hundredth anniversary, Radio's Second Century investigates both vanguard and perennial topics relevant to radio's past, present, and future. As the radio industry enters its second century of existence, it continues to be a dominant mass medium with almost total listenership saturation despite rapid

technological advancements that provide alternatives for consumers. Lasting influences such as on-air personalities, audience behavior, fan relationships, and localism are analyzed as well as contemporary issues including social and digital media. Other essays examine the regulatory concerns that continue to exist for public radio, commercial radio, and community radio, and discuss the hindrances and challenges posed by government regulation with an emphasis on both American and international perspectives. Radio's impact on cultural hegemony through creative programming content in the areas of religion, ethnic inclusivity, and gender parity is also explored. Taken together, this volume compromises a meaningful insight into the broadcast industry's continuing power to inform and entertain listeners around the world via its oldest mass medium--radio.

**Victory Through Harmony** Christina L. Baade,2013-10 This book tells the fascinating story of the BBC's participation in the events of World War II through popular music and jazz broadcasting. Author Christina Baade argues that rather than providing the soundtrack for a unified People's War as its popular broadcast Victory through Harmony promised to do, the BBC's popular music broadcasting efforts exposed the divergent ideologies, tastes, and perspectives of the nation.

**The Radio Station** Michael C. Keith,2004 Updating and expanding a classic text, 'The Radio Station' includes new sections on radio and the Internet, AM stereo, cable and satellite radio, niche formats, mergers and consolidations and provides insight into an ever-changing field.

**Transnationalizing Radio Research** Golo Föllmer,Alexander Badenoch,2018-09-30 Transnationalizing Radio Research presents a theoretical and methodological guide for exploring radio's multiple »global ages«, from its earliest years through its recent digital transformations. It offers radio scholars theoretical tools and concrete case studies for moving beyond national research frames. It gives radio practitioners inspiration for production and archiving, and offers scholars from many disciplines new ways to incorporate radio's vital voices into work on transnational institutions, communities, histories and identities.
