Global Hotel Alliance Peter Zámorský,Michael A. Kruesi,2018 The Global Hotel Alliance (GHA) is the largest hotel alliance in the world; however, their presence is currently the strongest in their traditional markets in Europe. With the increasing growth of tourism in the East - that is, the Middle East, Asia and Australasia - the GHA is now planning to intensify their presence and strengthen their position in these markets. Initially the decision point of this case is outlined, highlighting the aim of the GHA of intensifying their presence in the East. Next, the background of GHA, including its history and development, outlining the company brands and their global distribution is presented, before highlighting the GHA business structure. The DISCOVERY rewards program is then explained by providing an overview of the program, explaining how it works, and how it differs from the rewards programs of other hotels and hotel alliances. A competitor analysis is then presented, which highlights the similarities and differences between the GHA and its competitors, in particular other alliances in the luxury hotel segment. Finally, two strategic challenges that the GHA has faced are presented, outlining the nature of the challenge, the solution to the challenge, and finally the benefits that have arisen from taking action before concluding the case. The future strategy of GHA will require careful decisions about its positioning in the global luxury hotel industry. To what extent and how should it refocus on growth in the East?

Impact of Globalization on Hospitality Anderson Brians, 2013-04-10 Seminar paper from the year 2011 in the subject Business economics - Miscellaneous, grade: B, University of Cambridge, language: English, abstract: The rapid development of international economic integration and globalization has led to significant changes in hospitality industry. Therefore, it is necessary to dwell on various aspects of globalization as the process influencing the current and future developments in hospitality industry. This research will be based on the assumption of a generally beneficial impact of globalization on the industry's development, and the analysis presented here will seek to substantiate this claim. For the purposes of this discussion, globalization shall be defined as the "ever-tightening network of connections which cut across national boundaries, integrating communities in new space-time

combinations” (Hall 1992, p.299). While this definition may seem excessively broad, it is likely to better encapsulate the essence of globalization than the explicitly economy-oriented ones. This paper shall deal with the various expressions of globalization influences in modern hospitality industry. Given the extremely important role of the multinational corporations (MNCs) in contemporary tourism and hotel sectors, a case study of Hilton Hotels Corp. as the paragon of the globalized hotel chain will be integrated in this research. Further, a Business Performance Management (BPM) theoretical model shall be employed to evaluate the comparative performance of the prominent global hotel chains. Proceeding from the latter, a preliminary conclusion on the present state of the market may be formulated. Similarly, the problems of labour market and technological innovations shall be integrated into the study’s research framework. Finally, the issue of business strategies shall be raised, with several examples thereof being subjected to comparative analysis.

The Growth Strategies of Hotel Chains Kaye Sung Chon, 2012-10-02 How did Accor, Cendant, Choice Hotels International, Marriott, and Hilton become the largest hotel chains in the world—and what strategies will they use to continue their growth? This first-of-its-kind textbook presents a balanced overview of the theory and practice of hotel chains’ growth strategies. It explains in-depth how and why the largest worldwide hotel chains achieved dominant international status and shows how to forecast future developments. Authentic international examples in every chapter bring theoretical concepts into sharp focus. *The Growth Strategies of Hotel Chains: Best Practices by Leading Companies* is comprised of thirteen chapters, each divided into two parts. The first part sets forth the theory behind an important aspect of growth strategy. The second part of each chapter brings these theoretical arguments to life with specific case examples. For example, in the chapter on franchising, the ten largest hotel franchise businesses in the world are discussed in detail—including

their actual fees and how they function, with helpful commentary on each. This format, designed with educators' needs in mind, is consistent throughout the text. Charts, tables, and figures make complex information easy to access and understand. The Growth Strategies of Hotel Chains: Best Practices by Leading Companies examines: the question of diversification vs. specialization vertical, horizontal, and diagonal integration acquisitions, mergers, and strategic alliances franchise contracts, management contracts, leaseholds, and ownership branding and globalization why European chains usually expand via property acquisitions and rentals while most American chains prefer management contracts and franchising Packed with information yet written in language that students and hospitality executives can understand, this unique, comprehensive textbook deserves a place in every teaching/training/professional library.
