A Minute to Think Juliet Funt, 2021-08-03 "You're going to want to share copies of this book with your overbooked friends and colleagues, but before

you do, take some time to read it yourself. Funt's wisdom around making space is priceless." —Seth Godin, author of *The Practice* Do you wish you could stop the mayhem of work and life and just take a minute? Do you sense you could contribute more if there were a little more room in the day? Does busyness deprive you and your burnt-out team of the oxygen your talents need to catch fire? Many have felt that way, yet taking a pause has seemed impossible—until now. In *A Minute to Think*, Juliet Funt, a globally recognized warrior in the battle against busyness, provides a powerful guide that will give you the permission, framework, and specific direction you need to do the following:

- Regain control of your overloaded, caffeinated, inbox-worshipping workday
- Liberate yourself and your teams from burnout and busywork
- Reclaim creativity and focus despite the chaos around you
- Bring thoughtfulness into designing your next work norms
- Tame the beast of email and escape the mire of meetings
- Find your precious minute to think
- You're not alone in your yearning for freedom from constant reactivity.

The global workforce today is so fried that it belongs in the food court of a county fair. We're relentlessly behind the curve, dousing fires everywhere, and our 3 a.m. insomnia provides the only unscheduled thinking time of the day. What we need reinserted in our lives is the missing element of white space—short periods of open, unscheduled time that, when recaptured, change the very nature of work. White space is the stepping back, the strategic pause, the oxygen that allows the sparks of our efforts to catch fire. White space has the power to radically—and

simply—reinvent the way we approach work in this maxed-out, post-COVID 21st-century world. With Juliet's memorable stories, easy-to-use tools, and razor-sharp instruction, she carves for us an escape route from the overwhelming amount of low-value tasks and the daily avalanche of e-mails, meetings, decks, and reports. Using research, client stories, and a relatable voice, Juliet shows all of us how to reclaim time for thinking and make room for what truly matters. Whether you are an individual trying to build a more sane and humane flow of daily work, a team that wants new levels of efficiency and effectiveness, or an entire organization changing your culture toward thoughtfulness, this book will lead you there.

Unlikely Fighter Greg Stier, 2021-11-09 Some memories are permanently seared into our childhood brains with a hot iron of adrenaline and fear. For five-year-old Greg, it was the memory of his ma walking back to the house after confronting his stepdad with a splintered, bloodied baseball bat in her hand. Greg Stier was raised in a family of bodybuilding, tobacco-chewing, fist-fighting thugs. He never knew his biological father because his mom had met his dad at a party; she got pregnant, and he left town. Though his mom almost aborted him, in a last-minute twist, Greg's life was spared for so much more. *Unlikely Fighter* is the incredible story of how God showed up in Greg's life—and how he can show up in yours as well. This is a memoir of violence and mayhem—and how God can transform everything.

Flamin' Hot Richard Montanez, 2021-06-15 Soon to be a Hulu feature film

directed by Eva Longoria – scheduled release for Summer 2023 Read the story everyone is talking about: how a janitor struggling to put food on the table invented Flamin' Hot Cheetos in a secret test kitchen, breaking barriers and becoming the first Latino frontline worker promoted to executive at Frito-Lay. Richard Montañez is a man who made a science out of walking through closed doors, and his success story is an empowerment manual for anyone stuck in a dead-end job or facing a system stacked against them. Having taken a job mopping floors at Frito-Lay's California factory to support his family, Montañez took his future into his own hands and created the world's hottest snack food: Flamin' Hot Cheetos. This bold move not only disrupted the food industry with some much-needed spice, but also shook up a corporate culture in which everyone stayed in their lane. When a top food scientist at Frito-Lay sent out a memo telling sales and marketing to kill the new product before it made it to the store shelves—jealous that someone with no formal education beyond the sixth grade could do his job—Montañez was forced to go rogue once again to save his idea. Through creative thinking, community building, and a few powerful mindset shifts, he outsmarted the naysayers who tried to get in his way. Flamin' Hot proves that you can break out of your career rut and that your present circumstances don't have to dictate your future.

Not in It to Win It Andy Stanley, 2022-05-10 Is it possible to disagree politically and love unconditionally? The reaction of evangelicals to

political and cultural shifts in recent years revealed what they value most. Lurking beneath our Bible-laced rhetoric, faith claims, books, and sermons is a relentless drive to WIN! But the church is not here to win. By every human measure, our Savior lost. On purpose. With a purpose. And we are his body. We are not in it to win anything. We are in it for something else entirely. That something else is what this book is about. You'll discover: How to take a stand the right way. You'll learn how to make your case with a posture of humility and understanding, rather than being fueled by the fear of losing something. How to view politics through the lens of faith. Learn curiously, listen intentionally, and love unconditionally. How the life of Jesus and his teaching applies to modern-day challenges in a fresh way. The biblical stand may not be what we've been taught. Jesus never asked his followers to agree on everything. But he did call his followers to obey a new command: to love others in the same way he has loved us. Instead of asserting our rights or fighting for power, we need to begin asking ourselves: what does love require of me?

Zconomy is the definitive manual that will prepare any executive, manager, entrepreneur, HR or marketing professional to successfully unlock the powerful potential of this emerging generation at this pivotal time.

The Leader in Me Stephen R. Covey, 2012-12-11 Children in today's world are

inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

How We Love Matters Albert Tate, 2024-04-09 This powerful book reimagines discipleship by begging us to acknowledge that racism exists in the Church-- and offers the hopeful message that we can disciple it out. It is not an accident that racism is alive and well in the American church. Racism has, in fact, been taught within the church for so long most of us don't even recognize it anymore. Pastor Albert Tate guides all of us in acknowledging the racism that keeps us from loving each other the way God intends and encourages siblings in Christ to sit together in racial discomfort, examining the role we may play in someone's else's struggle. *How We Love Matters* is a series of nine moving letters that educate, enlighten, and reimagine discipleship in a way that flips the church on its head. In these letters that include Dear Whiteness, Dear America, and Dear Church, Tate calls out racism in the world, the church, within himself and us. These letters present an anti-racist mission and vision for believers to follow that helps us to speak up at the family table and call out this evil so it will not persist in future generations. Tate believes that the only way to make change is by telling the truth about where we are--relationally, internally, and spiritually. *How We Love Matters* is an exposition of relevant Biblical truth,

a clarion call for all believers to examine how they see and understand each other, and it is a way forward toward justice, reconciliation, and healing. Because, yes, it is important that we love each other, but it is even more important how we love each other.

The Multiplier Effect Liz Wiseman, Lois Allen, Elise Foster, 2013-03-08 When you become a Multiplier, your whole team succeeds! Why do some leaders double their team's effectiveness, while others seem to drain the energy right out of the room? Using insights gained from more than 100 interviews with school leaders, this book pinpoints the five disciplines that define how Multipliers bring out the best across their schools. By practicing these disciplines, you'll learn how to: Attract top teachers to your school Create an intense environment that demands people's best thinking Drive sound decisions by constructing debate and decision-making forums Give your team a sense of ownership for responsibilities and results

Trailblazer Farooq Kathwari, 2019-09-03 Farooq Kathwari's extraordinary life began in politically divided Kashmir, where his family was separated by government decree. He had to leave home as a refugee, helped his mother survive shock therapy, joined student activists in street demonstrations, and faced down a gun-wielding security officer—all by the age of seventeen. Forced to become self-reliant, Kathwari journeyed to the United States, talked his way into a bookkeeping job, and earned a degree from NYU graduate school. He launched his first entrepreneurial venture selling Kashmiri crafts

out of his Brooklyn apartment. When Kathwari's best customer, the iconic furniture maker Ethan Allen, needed fresh leadership, he was asked to become its president. He transformed the company and become one of America's most successful—and admired—CEOs. Meanwhile, spurred by the tragic loss of his teenaged son in war, Kathwari dedicated himself to the cause of peace in Kashmir and around the world. He hosted meetings with diplomats, shuttled messages between heads of state, and worked with global leaders on issues from human rights to refugee resettlement. Brimming with drama, insight, and unexpected humor, Trailblazer recounts a unique life story, offering readers not just an engrossing journey but also the wisdom of an exceptional leader. □From Trailblazer— When the American journalist told me he hoped to report the truth about the Kashmir uprising, I decided to help. “The government people won't let you see what is really happening,” I said. “Why not let me take you around?” It was foolish of me to make such an offer. I knew I was risking retribution by the security forces. But I was a headstrong, independent young man. I wanted the truth to get out, and I would do what I could to help that happen.

Peace Leadership Ebben Van Zyl, 2018-10-01 In our progressively changing environment, it is of crucial importance to deepen our understanding of peace between people and how leadership can enhance that by 'leading for peace'. This book proposes a useful framework for all leaders (including business, political leaders and peace developers) on how to attain peace between

people. The book is presented in four sections: 1. Peace leadership in perspective: Discussions on the nature and meaning of peace leadership, important building blocks for peace leadership (emotional, social and communal intelligence), and a peace leadership-in-action model (which forms the basis of the book). 2. Implementation strategies focus on lead self, lead with others and lead communities. Lead self includes: leading peace through self, others and the community, the role of wisdom and spirituality in leading self and others, and individual, social and cultural inertia preventing humanity from attaining peace. Lead others includes: leadership theories which support peace leadership, the improvement of cultural intelligence amongst peace leaders, and women's role in peace building. Lead communities includes: peace leadership in the public and private sectors, healthcare for the vulnerable and its meaning and contribution towards peace leadership, and working from helplessness to serving the community. 3. Tools and initiatives to become a highly effective peace leader, including information and communication technological innovations for peace leaders and sport as a tool for peace building. 4. Concluding thoughts. Concluding thoughts are given, with the emphasis on what we have learned and looking ahead. This editorial book provides a significant contribution within the emerging peace leadership discipline as the international community, non-governmental organisations, and the public and private sectors struggle to formulate sustainable peace initiatives at the tribal, local and communal

societal level.

Risk General Stanley McChrystal, Anna Butrico, 2021-10-05 From the bestselling author of *Team of Teams* and *My Share of the Task*, an entirely new way to understand risk and master the unknown. Retired four-star general Stan McChrystal has lived a life associated with the deadly risks of combat. From his first day at West Point, to his years in Afghanistan, to his efforts helping business leaders navigate a global pandemic, McChrystal has seen how individuals and organizations fail to mitigate risk. Why? Because they focus on the probability of something happening instead of the interface by which it can be managed. In this new book, General McChrystal offers a battle-tested system for detecting and responding to risk. Instead of defining risk as a force to predict, McChrystal and coauthor Anna Butrico show that there are in fact ten dimensions of control we can adjust at any given time. By closely monitoring these controls, we can maintain a healthy Risk Immune System that allows us to effectively anticipate, identify, analyze, and act upon the ever-present possibility that things will not go as planned. Drawing on examples ranging from military history to the business world, and offering practical exercises to improve preparedness, McChrystal illustrates how these ten factors are always in effect, and how by considering them, individuals and organizations can exert mastery over every conceivable sort of risk that they might face. We may not be able to see the future, but with McChrystal's hard-won guidance, we can improve our resistance and build a strong defense

against what we know—and what we don't.

Right Color, Wrong Culture Bryan Loritts, 2014-08-27 Increasingly, leaders recognize the benefit of multi-ethnic organizations and are compelled to hire diverse individuals who will help them reflect a new America. In his address at a Global Leadership Summit, Bryan Loritts challenged leaders to have a vision that is about more than the stuff that perishes—to have a vision for making sacrifices that make a difference and help to bring about transformation in the lives of others. He brings a similar challenge to leaders in this fable of self-discovery and change, as he explores the

central, critical problem leaders often encounter when transitioning their church, business, or organization to reflect a multi-ethnic reality: finding a leader who is willing to immerse themselves in the environments and lives of people who are different from them. In *Right Color, Wrong Culture* you enter into a conversation between individuals who are grappling with changing neighborhoods while struggling to remain relevant within communities growing in diversity. You journey with Gary and Peter as they challenge those around them to reach beyond what is comfortable and restructure their leadership team. Known for his passion to build diversity in organizations, Bryan Loritts equips you to identify the right person needed in order for your organizations to become multi-ethnic.

The Fourth Industrial Revolution Klaus Schwab, 2017-01-03 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manu-

facturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Leadership for change W.P. Wahl, René Pelser, 2020-12-31 This edited volume reveals how the journey of transformation at the University of the Free State (UFS) became interwoven with student leadership development and global learning. The UFS initiated two intersecting co-curricular programmes, namely, the First-Year Leadership for Change (F1L4C) programme in 2010; and the triennial Global Leadership Summit (GLS) in 2012. Although these programmes changed over time, their core focus remained to be the development of transformational student leaders through the creation of global learning spaces. From its inception in 2010 to the last GLS in 2018, the UFS global learning project involved 780 students and 259 staff members from 109 institutions, across four continents. The goal of this edited volume is to

create a deeper understanding of how the UFS F1L4C and GLS programmes enhanced student leadership development through global learning, especially in the context of higher education transformation.
