Global Corruption Report: Sport Transparency International,2016-02-05 Sport is a global phenomenon engaging billions of people and generating annual revenues of more than US\$ 145 billion. Problems in the governance of sports organisations, fixing of matches and staging of major sporting events have spurred action on many fronts. Yet attempts to stop corruption in sport are still at an early stage. The Global Corruption Report (GCR) on sport is the most comprehensive analysis of sports corruption to date. It consists of more than 60 contributions from leading experts in the fields of corruption and sport, from sports organisations, governments, multilateral institutions, sponsors, athletes, supporters, academia and the wider anti-corruption movement. This GCR provides essential analysis for understanding the corruption risks in sport, focusing on sports governance, the business of sport, planning of major events, and match-fixing. It highlights the significant work that has already been done and presents new approaches to strengthening integrity in sport. In addition to measuring transparency and accountability, the GCR gives priority to participation, from sponsors to athletes to supporters an essential to restoring trust in sport.

*Theory, Development, and Strategy in Transmedia Storytelling* Renira Rampazzo Gambarato,Geane Carvalho Alzamora,Lorena Tárzia,2020-05-17 This book explores transmedia dynamics in various facets of fiction and nonfiction transmedia studies. Moving beyond the presentation/definition of transmediality as a field of study, the authors examine novel advancements in the theory, methodological development, and strategic planning of transmedia storytelling. Drawing upon a theoretical foundation grounded in Peircean semiotics and reflected in the methodological approaches to fiction and nonfiction transmedia projects, the chapters delve into diverse case studies, such as *The Handmaid's Tale* and mega sporting events like the Olympics and FIFA World Cup, that illustrate the applications of our own methods and the implications of the logic behind transmedia dynamics. Expanding upon their own scholarship, the authors tackle the relevant topic of transmedia journalism, and present new approaches to transmedia strategic planning around educational initiatives in developing countries. The book is an important reference for scholars and students of media studies, education, journalism and transmedia, and those interested in comprehending theory, methodological development, and strategic planning of transmediality.

*Women's Club Football in Brazil and Colombia* Mark Biram,2024-01-15 The first women's football book on Latin America centring the perspectives of players brings rare interview material that cuts through the clichés to uncover the lived reality of women footballers. It includes the first large-scale survey of South American women footballers' views into dialogue with institutional and media perspectives. The early chapters consider the backdrop Latin American women footballers operate in, a media and institutional panorama that privileges a heteronormative athletic femininity whilst ensuring women's football is never portrayed as anything other than an inferior version of the hegemonic (men's) game. Following this, drawing on nine months of ethnographic fieldwork in which 33 semi-structured interviews were carried out with players and institutional figures, this pioneering book foregrounds the lived reality of women's football in three strategic locations. Firstly, three months were spent in the Amazon region of Brazil where Esporte Clube Iranduba provides a fascinating alternative model for the growth of women's football. This is contrasted with Santos FC, where women's football tends to be constantly overshadowed by the presence of banal patriarchy, and finally with another fleeting glimpse of how another model is possible at Atlético Huila of Colombia, the surprise winner of the women's Copa Libertadores in

2018.

**África Brasil** Kamille Viola, 2021-02-15 Among the long string of historical albums he created, *África Brasil*, from 1976, is a milestone in Jorge Ben's career. It is the record in which he definitely swaps the acoustic for the electric guitar. Narrating Jorge Ben's journey, album by album, to *África Brasil*, the 14th studio LP of his career, the journalist Kamille Viola interviews musicians, producers, researchers and even soccer stars like Zico (honored in the track *Camisa 10 da Gávea* to review the artist's life story and the background details of the album's production. Considered to be the high point in the career of the author of *Umbabarauma*, *África Brasil* comprises alongside *A tábua de esmeralda* (1974) and *Solta o pavão* (1975) Ben's inspired musical alchemy trilogy. As Jorge Ben recalls in an interview to author of the book: This guitar was amazing because I was still playing on the Ovation [guitar], and one day one of my musicians, the bass player Dadi, showed up with it and I liked the guitar, I found it beautiful, and I said: 'Dadi, do you want to swap that guitar or sell it or something?' He said 'No, no'. I said: 'Dadi, you're a bass player and I have a Fender bass guitar. We could swap'. And he agreed immediately. So I got the guitar and that was it, we started to 'electrify' (laughs). Among artists like Gilberto Gil, Marcelo D2, Lúcio Maia, Jorge Du Peixe, Dadi, Gustavo Schroeter and BNegão, interviewed by the author for the book, Mano Brown, leader of the group Racionais MC's and an outspoken admirer, summarizes Jorge Ben's importance: He's like James Brown, Marvin Gaye, these great artists with a large body of work, from time to time they come to you. The music comes back. I listened to Jorge Ben at several moments of my life, several moments of his career. I recall many phases. [...] In samba sessions, we would sing Jorge Ben. Whoever could sing Jorge Ben in a samba rhythm was doing ok (laughs). Kamille Viola, a journalist with over 10 years' research on Ben's work, stresses in the book: Gilberto Gil, Mano Brown, Chico Science and Nação Zumbi: Jorge Ben was a beacon to all of them. Tropicalism, Brazilian rap and manguêbeat, three of the most important musical expressions in Brazil, looked to the alchemist for inspiration. If it were not for Jorge Lima Menezes, the Babulina of Rio Comprido, the history of Brazilian music would certainly be different. The Brazilian Music Records series, published in Portuguese and English, is edited by the music critic Lauro Lisboa Garcia.

**Women's Football in Latin America** Jorge Knijnik, Ana Costa, 2022-11-30 The chapters in the *Women's Football in Latin America* two volumes will look at the social and historical means of the embodied representation of gender differences that has been deeply embedded in the history of Latin American women and football. The authors identify and analyse how, in a range of ways, Latin American women have found in-between spaces, amid severe macho structures, to establish and play their football. As a result, the book will be of interest to researchers and students of sport sociology, football studies, gender studies, comparative sports studies, sports history, and Latin American sporting culture. The first volume of this edited collection brings together a variety of high-quality research investigating women's football in Brazil to an international, English readership.

The complex issues surrounding women and sport have attracted the attention of Brazilian academics since the early 1980s, and this book seeks to update that scholarship to the modern day, with chapters on sports media, 2019 FIFA Women's World Cup, grassroots women's football, women's football fans. The book also indicates the forthcoming research and political challenges for gender equity in Brazilian football.

**Football and Social Sciences in Brazil** Sérgio Settani Giglio, Marcelo Weishaupt Proni, 2021-11-02 This book presents a kaleidoscopic view of the multidisciplinary field of research developed within Brazilian social sciences to study football as a major cultural and social phenomenon in the country. As a contributed volume, it brings together chapters authored by researchers from different disciplines, such as sociology, anthropology, political science, history, geography, economy, communication studies and physical education, who contributed to make Brazilian football a multifaceted object of study for the human and social sciences. The book is divided in four parts. The first two parts are dedicated to the classic areas, in which the best known research lines are concentrated: part one focuses on politics and history, while part two is dedicated to sociology and anthropology. The third part brings together studies from other four different areas: communication studies, geography, economy and physical education. The fourth part is organized not by disciplines, but around transversal themes, such as gender, violence, fans and racism. The varied approaches and different interpretations brought together in this book seek to provide an overview of the fertile academic debate that has stimulated the renewal of scientific research on football in Brazil, which makes Football and Social Sciences in Brazil a useful resource for researchers from different disciplines within the human and social sciences interested in the study of football as major cultural and social phenomenon all over the world.

**Voices of Latin America** Tom Gatehouse, 2019-03-15 These are uncertain times in Latin America. Popular faith in democracy has been shaken; traditional political parties and institutions are stagnating, and there is a growing right-wing extremism overtaking some governments. Yet, in recent years, autonomous social movements have multiplied and thrived. This book presents voices of these movement protagonists themselves, as they describe the major issues, conflicts, and campaigns for social justice in Latin America today. Latin America Bureau, a London-based, independent organization providing news and analysis on the region, spoke to people from fourteen countries, from Mexico to the Southern Cone. The book captures the voices indigenous activists, fighting oil drilling in their homelands; mothers from favelas seeking justice for their children killed by police; opponents of large-scale mining projects; independent journalists working, at great personal risk, to expose corruption and human rights violations; women and LGBT people confronting violence and discrimination; and students demanding their right to a free, universal and high-quality education system. Though their locations and causes are disparate, these people and their movements share learning and activism, and their cooperation helps to link the movements across national borders. Voices of Latin America is essential reading for students, travelers, journalists—anyone with an interest in social justice movements in Latin America.

**The Games of Land Dispossession** Erick Omena, 2023-11-21 This book offers a comparative study of state strategies in relation to urban redevelopment projects associated with sports mega-events in Brazil, South Africa and the United Kingdom. It examines urban governance strategies

employed to dispossess working-class communities of their land and counteract the subsequent emergence of discontent in various national contexts, offering an intricate analysis of the mechanisms of class dominance operating across diverse regions of the globe. This is based on the application of Gramscian theory concerning the capitalist state and its fluid interplay between coercion and consent. Juxtaposing historical trajectories in the execution of redevelopment initiatives linked to large-scale sporting events, the book offers an in-depth examination of the state-civil society relations shaping the London 2012 and Rio 2016 Olympic Parks, alongside the regeneration initiatives concerning the Maracanã stadium in Rio de Janeiro and the Ellis Park stadium in Johannesburg – respectively earmarked for the 2014 and 2010 FIFA World Cups. Drawing on insights from a range of disciplines and an explicitly Gramscian analytical framework, this book will appeal to students and scholars in urban planning, sport sociology, development studies, and human geography.

**No Laughing Matter: Race Joking and Resistance in Brazilian Social Media** Luiz Valério P. Trindade, 2020-10-06 'No Laughing Matter: Race Joking and Resistance in Brazilian Social Media' examines the social phenomenon of construction and dissemination of colonial-like racist discourses fostered against upwardly-mobile black women through disparagement humour on social media platforms, adopting a fresh and innovative perspective. In this book, Luiz Valério P. Trindade explores the idea that disparagement humour might not be as exempt of social impact as the jokers might believe, and that, in fact, this kind of humour reveals the hidden facet of deep-seated colonial ideologies still present in Brazilian society despite being hailed as a unique model of a post-racial society. The author argues that these ideologies establish and naturalise superior social positions and symbolic privileges to whites while undermining and delegitimising black women's upward social mobility. Social media platforms enable the proponents of these beliefs not only to engage in the practice of online hate speech but also to attract a considerable number of like-minded people, creating a long-lasting echo chamber effect in the cyberspace. This way, they manage to amplify the reach and reverberation of their racist discourses in the online environment in ways not commonly seen in Brazilian offline social contexts. This monograph is of great interest and relevance to students, scholars, and researchers across a variety of disciplines, most notably Critical Race Studies, Media Communication Studies and Critical Humour Studies, and also academics in other areas such as Critical Discourse Analysis, Postcolonial Studies, Cultural Studies and Latin American Studies.
