David Jefferis

Glow Amy Kathleen Ryan,2011-09-13 Part of the first generation to be conceived in deep space, fifteen-year-old Waverly is expected to marry young and have children to populate a new planet, but a violent betrayal by the dogmatic leader of their sister ship could have devastating consequences.

Weird Weather David A. J. Seargent,2012-03-02 This book is, in a sense, a sequel to David Seargent's first Springer book *Weird Astronomy* (2010). Whereas *Weird Astronomy* extended over a broad range of purely astronomical topics, the present work concentrates on phenomena closer to home; the atmospheric and shallow space events as opposed to deep space events. The line between astronomy and meteorology is blurred - a fact that is discussed in *Weird Weather*. It is not primarily a book of wonders or of the unexplained, although some of the topics covered remain mysteries. It is primarily directed toward those who are fascinated by climate and weather, and who are open-minded when considering Earth's climate, what drives it, and what are the causes of climate change. The author, David A. J. Seargent, presents the facts with a balanced and scientific approach. *Weird Weather: Tales of Astronomical and Atmospheric Anomalies* is about strange, unusual, and apparently inexplicable observations of the air and sky. Primarily these are in the Earth's atmosphere, but there are corresponding phenomena in the atmospheres of other planets of the Solar System - lightning on Venus, Jupiter, and Saturn, whirlwinds and dust storms of Mars, and auroras on Jupiter. Topics include anomalous lights, anomalous sounds, spectacular effects of cloud illumination by the Sun or Moon, lightning phenomena, electrophonic sounds of lightning, aurora and meteors, tornado and whirlwind phenomena

on Earth and Mars, usual atmospheric effects, mirages, and the possible astronomical influences on cloud and climate.

What is the biggest star? and What is a black hole? Includes a How-to Young Astronomer spread, and Internet links that act as stepping-stones to lead inquiring young minds further into the high-tech universe of space exploration. Inviting design and easy-to-follow text will draw in even the most hesitant reader.

The Bones Remember Sara E. Johnson,2020-09-08 A new title in the Alexa Glock Forensics Mysteries. When bodies wash up on the beach, is man or animal the culprit? It'll take everything forensic specialist Alexa Glock has to seek out the truth. Because lips may lie, but teeth never do... These thrilling New Zealand mysteries are: Perfect for Fans of Kathy Reichs and Candice Fox For readers of forensic mysteries and international mysteries For lovers of police procedurals and marine science At first, Alexa Glock's initial case as a traveling forensic investigator seems straightforward—her expertise in teeth helps her identify the skeletal remains of a hunter found on the remote Stewart Island in New

Zealand. But when she realizes the bullet lodged in his skull was not self-inflicted, and then a second, shark-ravaged body washes up on Ringaringa Beach, it's clear that something dangerous is lurking in the beautiful waters surrounding the island. The disturbing sight seems to confirm what locals have hashed out in the pub: shark cage-diving, lucrative for owners and popular with tourists, has changed the great white sharks' behavior, turning them into man-eaters. Tensions between cagers and locals mount as Alexa—christened the shark lady—dives into the harrowing case. While measuring bite patterns, she makes a shocking discovery that just might lead her to who—or what—is behind both deaths. Alexa Glock, an expert in teeth and bones, finds herself playing shark detective in the newest book of Sara E. Johnson's acclaimed forensic mysteries. But she'll soon learn that there are dark things lurking beneath the water, something far worse than a natural born predator...

The Book of Iris Derek Challis, Gloria Rawlinson, 2002 Brilliant, beautiful, difficult and doomed, Iris Wilkinson (known as the writer Robin Hyde) led a short, tumultuous and incredibly productive life. Here her story is told for the first time in a dramatic and deeply moving narrative. Researched by both authors from 1965 to 1971, it was written in a first draft by Iris Wilkinson's friend, Gloria Rawlinson; since Rawlinson's death in 1995 it has been revised and completed by Derek Challis, Wilkinson's son. It includes appalling accounts of hidden pregnancies, harsh experience as a solo mother, dependence on drugs, intimate acquaintance with sexism and poverty, mental breakdown, and a perilous trip to China in wartime. There are deep friendships and hurtful betrayals. Always there is a dedicated and determined commitment to writing.Jacket.

Delphi Complete Works of Harry Collingwood (Illustrated) Harry

Collingwood, 2022-07-06 The popular adventure novelist William Lancaster was the son of a Royal Navy captain and wrote under the pseudonym of Harry Collingwood. He studied at Royal Naval College, Greenwich and distinguished himself by carrying off many prizes. Instead, he became a civil engineer, specialising in harbour commissions. In his spare time, he turned to writing adventure yarns and historical novels, almost always with a nautical setting. His novels reveal his informed knowledge of the genre and an untiring ability to construct compelling and original adventure stories. For the first time in publishing history, this eBook presents Harry Collingwood's complete works, with numerous illustrations, rare texts, informative introductions and the usual Delphi bonus material.
