### Advances in Computer Science and Ubiquitous Computing

James J. Park, Simon James Fong, Yi Pan, Yunsick Sung, 2021-01-04

This book presents the combined proceedings of the 11th International Conference on Computer Science and its Applications (CSA 2019) and the 14th KIPS International Conference on Ubiquitous Information Technologies and Applications (CUTE 2019), both held in Macau, China, December 18-20, 2019. The aim of these two meetings was to promote discussion and interaction among academics, researchers and professionals in the field of ubiquitous computing technologies. These proceedings reflect the state of the art in the development of computational methods, involving theory, algorithms, numerical simulation, error and uncertainty analysis and novel applications of new processing techniques in engineering, science and other disciplines related to ubiquitous computing.

**The Last Lecture** Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been

diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

**Human Interface and the Management of Information. Information in Intelligent Systems** Sakae Yamamoto, Hirohiko Mori, 2019-07-10 This two-volume set LNCS 11569 and 11570 constitutes the refereed proceedings of the Thematic Area on Human Interface and the Management of Information, HIMI 2019, held as part of HCI International 2019 in Orlando, FL, USA.

HCII 2019 received a total of 5029 submissions, of which 1275 papers and 209 posters were accepted for publication after a careful reviewing process. The 91 papers presented in the two volumes were organized in topical sections named: Visual information; Data visualization and analytics; Information, cognition and learning; Information, empathy and persuasion; Knowledge management and sharing; Haptic and tactile interaction; Information in virtual and augmented reality; Machine learning and intelligent systems; Human motion and expression recognition and tracking; Medicine, healthcare and quality of life applications.

Intelligent Systems and Computer Technology D.J. Hemanth,V.D.A. Kumar,S. Malathi,2020-12-15 Recent developments in soft-computation techniques have paved the way for handling huge volumes of data, thereby bringing about significant changes and technological advancements. This book presents the proceedings of the 3rd International Conference on Emerging Current Trends in Computing & Expert Technology (COMET 2020), held at Panimalar Engineering College, Chennai, India on 6 and 7 March 2020. The aim of the book is to disseminate cutting-edge developments taking place in the technological fields of intelligent systems and computer technology, thereby assisting researchers and practitioners from both institutions and industry to upgrade their knowledge of the latest developments and emerging areas of study. It focuses on technological innovations and trendsetting initiatives to improve business values, optimize business processes and enable inclusive growth for corporates, industries and education alike. The book is divided into two sections; 'Next Generation Soft Computing' is a platform for scientists, researchers, practitioners and academics to present and discuss their most recent innovations, trends and concerns, as well as the practical challenges encountered in the field. The second section, 'Evolutionary Networking and Communications' focuses on various aspects of 5G

communications systems and networking, including cloud and virtualization solutions, management technologies, and vertical application areas. It brings together the latest technologies from all over the world, and also provides an excellent international forum for the sharing of knowledge and results from theory, methodology and applications in networking and communications. The book will be of interest to all those working in the fields of intelligent systems and computer technology.

**Illogical** Emmanuel Acho, 2022-03-22 From the New York Times bestselling author of *Uncomfortable Conversations with a Black Man*, a call to break through our limits and say yes to a life of infinite possibility. You may know Emmanuel Acho as the host of groundbreaking video series “Uncomfortable Conversations with a Black Man.” Or as a New York Times bestselling author. Or as an Emmy-winning television broadcaster. Or as a former linebacker for two NFL franchises. What you probably don’t know is that Emmanuel defines his own life with just one word: *Illogical*. Behind every triumph, every expression of his gifts, Acho has had to ignore what everyone around him called “logic”: the astronomical odds against making it, the risks of continuing to dream bigger or differently. Instead of playing it safe, at every turn Acho has thrown conventional wisdom—logic—out the window. Now, in this revelatory book, he’s empowering us all to do the same. Whether it’s creating the next groundbreaking startup, fighting for change as an activist, or committing to a personal passion, *Illogical* is the go-to book for all readers ready to become change-makers. With a step-by-step guide to finding our callings and shifting our mindsets, enlivened by stories from Acho’s life and other illogical pioneers, and the Bible, Acho asks us to replace the limits set for us, and which we set for ourselves, with a world of possibility. Our horizons, he shows us, are endless.
