Story of General Motors General Motors Corporation,1957 Pamphlet published for career education and corporate outreach . Includes a time line, Milestones of Progress 1867 - 1958.

General Motors, the First 75 Years of Transportation Products General Motors Corporation,1983 Beyond the Horizons: The Lockheed Story is the story of those turbulent eighty-two years during which Lockheed achieved fantastic successes and endured occasional failures. Lockheed aircraft set innumerable records and were flown by great pioneering aviators such as Amelia Earhart, Wiley Post, and Howard Hughes. Lockheed engineers achieved fame usually reserved for film stars: Men like the great Kelly Johnson and Ben

Rich advanced the world of aviation with their genius, and were honored as legends in their own time. Yet the secret of Lockheed lies in the spirit of family that illuminated the corporation over the years and permitted it to gain great triumphs and survive great tragedies. Over eight decades, Lockheed's unique corporate culture has enabled the company to thrive despite fierce competition. Making the right choices in leadership and technology at the right time contributed to their success, and here is the inside story of the people responsible for transforming Lockheed into the most profitable, prestigious, and influential company in the aerospace industry. --

On a Global Mission: The Automobiles of General Motors International Volume 3 Louis F.

Fourie, 2016-12-27 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.
