Racial Encounter Kevin Durrheim,John Dixon,2013-05-13 The political and legislative changes which took place in South Africa during the 1990s, with the dissolution of apartheid, created a unique set of social conditions. As official policies of segregation were abolished, people of both black and white racial groups began to experience new forms of social contact and intimacy. By examining these emerging processes of intergroup contact in South Africa, and evaluating related evidence from the US, Racial Encounter offers a social psychological account of desegregation. It begins with a critical analysis of the traditional theories and research models used to understand desegregation: the contact hypothesis and race attitude theory. It then analyzes every day discourse about desegregation in South Africa, showing how discourse shapes individuals' conception and management of their changing relationships and acts as a site of ideological resistance to social change. The connection between place, identity and re-creation of racial boundaries emerge as a central theme of this analysis. This book will be of interest to social psychologists, students of intergroup relations and all those interested in post-apartheid South Africa.

Making It Up As I Go Along Maria T. Lennon,2005-06-07 When California-born war correspondent Saffron Roch discovers that she's pregnant (read: knocked-up, newly jobless, and single at thirty-eight), she decides to leave Sierra Leone and surgeon Oscar DeVries, the baby's cheating father who, despite his huge ego and surprisingly small member, had captured her heart. So Saffron turns in

her backstage pass to the violent dissolution of third-world countries and returns home to Los Angeles, where she is about to inherit a beach property worth a fortune. There she throws herself into motherhood, joining a politically correct breast-feeding support group at the Pump Station. In full-blown culture shock, missing Africa, Saffron comes face to face with a group of unlikely women friends and a roomful of Scud nipples that, on looks alone, could bring any rogue nation to its knees. Making It Up As I Go Along is a dazzling debut novel that questions the very meaning of motherhood, home, and family, while offering an unforgettable look at the camaraderie of women who, across borders and generations, teach Saffron a thing or two about what matters most in life.
