**United States. Army. Corps of Engineers**

**Gas Supplies of Interstate Natural Gas Pipeline Companies** United States. Energy Information Administration,1983

**Dictionary of Marine Natural Products with CD-ROM** John W. Blunt,Murray H. G. Munro,2007-09-19 Driven by the vast, yet largely unexplored, potential of bioactive organisms in the ocean and improvements in analytical techniques to facilitate their research, natural products scientists face an increasing need for single-source reference cataloging the current knowledge and state-of-the-science regarding marine natural products. Dictionary of Marine Natural Products with CD-ROM presents a comprehensive resource for more than 25,000 known natural products drawn from marine organisms. Following a similar format to the Chapman and Hall Chemical Database, this dictionary indexes each product by chemical name, CAS registry number, and compound type. Documenting all known marine natural products, each entry includes the biological source, chemical structure, physical properties, biological activity, and literature references for each compound. An accompanying CD-ROM is fully text and structure-searchable and enables unique access to this valuable resource. The editors, John Blunt and Murray Munro, both pioneers in the field, also provide an introductory monograph that describes structural compound types and marine organisms. Marine organisms offer a delicate, yet plentiful source for a vast array of novel products whose unique structural features make them suitable drug candidates, pesticides, marine anti-fouling agents, and more. The Dictionary of Marine Natural Products Web Version gives researchers a new tool for developing pharmaceutical and chemical applications of marine natural products.

**Dictionary of Natural Products, Supplement 2** John Buckingham,1995-12-07 Containing fully authenticated data on virtually all known natural products, the Dictionary of Natural Products, main work, published in 1993 was the end result of over 12 years compilation and editing by a large team of contributors and the editorial staff of the Chapman & Hall Scientific Data Division. The resulting Dictionary contains 100,000 natural products and their derivatives organized into approximately 35,000 entries.
