YAHTZEE Scratch and Play to Go! Tom Verhoeff,Peter Gordon,2009-05 No more dice to lose, and it can go anywhere: everybody s a winner with this addictive new book! Just as with Hasbro s real YAHTZEE game, players get to roll five dice three times to find their highest score. But instead of throwing actual dice, they scratch them off the page, lottery-styleand keep only the dice they want as they go for better combinations with their remaining rolls. With multiple copies of the book, readers can stage head-to-head competitions. And for extra fun, players can compare their score with the author s, with the score obtained using perfect strategy, and with the best possible score you could get if you had x-ray vision.-Hasbro s popular game meets our own best-selling Scratch & Solve series for assured success- Today, more than 50 million YAHTZEE games are sold annually-Written by one of the most esteemed puzzle creators around, a championship winner and bestselling author whose work has appeared in America s top newspapers- This easy-to-play and portable version of YAHTZEE can go anywhere, and be enjoyed solo: it s perfect for trips, commutes, or whenever there are a few minutes to spare

How To Excel At Fire Department Promotional Exams Steve Prziborowski,2013-10 Getting promoted in the fire service is not an easy process. Many people have that desire to promote, but for whatever reason cannot put the pieces together to make it a reality. Over the 20 plus years I have been in the fire service, I have had the opportunity to be on both sides of the promotional process - as a candidate, and as a rater and proctor. This book will assist fire department personnel specifically prepare for their next promotional exam. Promotional candidates will be exposed to and offered key points for the most common tasks and events within a fire department promotional process including, but not limited to: promotional preparation, completing the application, resume preparation, the written exam, the oral interview, the personnel problem, the oral presentation, and the emergency simulation.

Get Money Kristin Wong,2018-03-27 Learn how to live the life you want, not just the life you can afford! Managing your money is like going to the dentist or standing in line at the DMV. Nobody wants to do it, but at some point, it's inevitable: you need to clean your teeth, renew your license, and manage your personal finances like a grown-up. Whether you're struggling to pay off student loan debt, ready to stop living paycheck to paycheck, or have finally accepted that your Beanie Baby collection will never pay off, tackling your finances may seem immensely intimidating. But it doesn't have to be. By approaching personal finance as a game--something that requires you to set clear goals, as well as face challenges you must beat--personal finance can not only be easy to understand, but it can also be fun! In *Get Money*, personal finance expert Kristin Wong shows you the exact steps to getting more money in your pocket without letting it rule your life. Through a series of challenges designed to boost your personal finance I.Q., interviews with other leading financial experts, and exercises tailored to help you achieve even your biggest goals, you'll learn valuable skills such as: Building a budget that (gasp) actually works Super-charging a debt payoff plan How to strategically hack your credit score Negotiating like a shark (or at least a piranha) Side-hustling to speed up your money goals Starting a lazy investment portfolio...and many more! Simply put, with this gamified guide to personal finance, you'll no longer stress about understanding how your finances work--you'll finally get money.

Ice 'n' Go Jenny Moshak,Debby Schriver,2013-05-30 The 1972 passage of Title IX, the federal law that prohibits sex discrimination in education, was a gamechanger for women and girls in athletics. in the forty years since the law was enacted, participation in sports—especially of girls and women—has grown dramatically. With that growth have come challenges. in *Ice-n-Go: A Perspective on Sports and Life*, Jenny Moshak, celebrated trainer of the legendary lady Vols basketball team and associate athletic director for sports medicine at the university of tennessee, Knoxville, reflects on the role of sports in society and addresses the high stakes and costs of winning in sports today. *Ice-n-Go* is a culmination of the breadth of knowledge and unique insight from Moshak’s more than twenty-five years of work in major college sports. in this highly readable new book, she covers social issues, medical concerns, motiva- tional techniques, gender roles and expectations, the impact of sports on our children, and how the body works, heals, and recovers. though she writes on serious subjects in a serious way, Moshak’s tone is always upbeat and positive with surprisingly simple strategies for improving the athletic experience for all, especially kids. An outstanding athlete herself, she shares lessons learned on her own demanding coast-to-coast bicycle ride across the united states. in sharing her stories, sound advice and fresh ideas, Moshak seeks to do for us what she has always done for the players in her care: to help protect, nurture, and grow the athlete who is in each one of us. Jenny Moshak is the celebrated trainer of the legendary Lady Vols basketball team and associate athletic director for sports medicine at the university of Tennessee, Knoxville. a frequent speaker at workshops and conferences across the country, Moshak is an adjunct professor in the exercise science department at the university of tennessee. the U.S.A. Olympic Committee cited Moshak for “Outstanding athletic training support” at the United States Olympic Festival. Now retired from the university of tennessee, Knoxville, Debby Schriver was the first woman to be elected president of the national Orientation directors association. she is the author of *In the Footsteps of Champions: The University of Tennessee Lady Volunteers, the First Three Decades*.

Operations Research Himanshu,2018-11-10 Operations research encompasses a wide range of problem-solving techniques and methods applied in the pursuit of improved decision-making and efficiency. Some of the tools used by operations researchers are statistics, optimization,

probability theory, queuing theory, game theory, graph theory, decision analysis, mathematical modeling and simulation. An Information System is any combination of information technology and people's activities using that technology to support operations, management, and decision-making. In a very broad sense, the term information system is frequently used to refer to the interaction between people, algorithmic processes, data and technology. Operations Research is the scientific study of logistic networks to provide for decision support at all levels in order to optimize production and distribution of the commodity flows. Nowadays, these logistic networks have become very large and may range over several countries, while the demands for quality of service have grown similarly to ever higher standards. Generally one agrees that to maintain such large networks successfully, one needs the control of all the information flows through the network, that is, continuous information on the status of the resources. Operations research is an interdisciplinary branch of applied mathematics and formal science that uses advanced analytical methods such as mathematical modeling, statistical analysis, and mathematical optimization to arrive at optimal or near-optimal solutions to complex decision-making problems. It is often concerned with determining the maximum or minimum of some real-world objective. The book of operations management features the latest concepts and applications while not losing focus on the core concepts that has made this text a market leader.

Generation Z Victoria Carrington,Jennifer Rowsell,Esther Priyadharshini,Rebecca Westrup,2015-12-17 This book argues that the mythic figure of the zombie, so prevalent and powerful in contemporary culture, provides the opportunity to explore certain social models – such as ‘childhood’ and ‘school’, ‘class’ and ‘family’ – that so deeply underpin educational policy and practice as to be rendered invisible. It brings together authors from a range of disciplines to use contemporary zombie typologies – slave, undead, contagion – to examine the responsiveness of everyday practices of schooling such as literacy, curriculum and pedagogy to the new contexts in which children and young people develop their identities, attitudes to learning, and engage with the many publics that make up their everyday worlds.
