Joseph Needham

The Daodejing. The Ancient Chinese Classic of Daoism in the Chinese Classical Text and a Modern Chinese Text Version and Additional Study Aids Muhammad Wolfgang G. A. Schmidt, 2017-02-23 This ancient Chinese Classic is well-known in the West and has been translated many times. Due to the linguistic vagueness and the difficult state of the original text, all translations are significantly different. Therefore, the aim of this edition is to assist the western reader by including a modern Chinese text version in addition to the original. This newer version is easier to read and understand and enables a parallel, comparative study of both text versions. For both text versions, a Latin-based Hanyu Pinyin transcription is provided as well as a Chinese-English glossary and a Writing Practice section for all the traditional Chinese character forms used in both texts. Intended is the book for both Western learners of Chinese as well as those Western readers interested in the text with only some basic Chinese language skills.

The Indiana Companion to Traditional Chinese Literature William H. Nienhauser, 1986 A veritable feast of concise, useful, reliable, and up-to-date information (all prepared by top scholars in the field), Nienhauser's now two-volume title stands alone as THE standard reference work for the study of traditional Chinese literature. Nothing like it has ever been published. --Choice The second volume to The Indiana Companion to Traditional Chinese Literature is both a supplement and an update to the original volume. Volume II includes over 60 new entries on famous writers, works, and genres of traditional Chinese literature, followed by an extensive bibliographic update (1985-1997) of editions, translations, and studies (primarily in English, Chinese, Japanese, French, and German) for the 500+ entries of Volume I.

Did Dōgen Go to China? Steven Heine, 2006-05-25 Dōgen (1200-1253), the founder of the Sōtō Zen sect in Japan, is especially known for introducing to Japanese Buddhism many of the texts and practices that he discovered in China. Heine reconstructs the context of Dōgen's travels to and reflections on China by means of a critical look at traditional sources both by and about Dōgen in light of recent Japanese scholarship. While many studies emphasize the unique features of Dōgen's Japanese influences, this book calls attention to the way Chinese and Japanese elements were fused in Dōgen's religious vision. It reveals many new materials and insights into Dōgen's main writings, including the multiple editions of the Shōbōgenzō, and how and when this seminal text was created by Dōgen and was edited and interpreted by his disciples. This book is the culmination of the author's thirty years of research on Dōgen and provides the reader with a comprehensive approach to the master's life works and an understanding of the overall career trajectory of one of the most important figures in the history of Buddhism and Asian religious thought.

Sun Zi: The Art of War. An Ancient Chinese Military Classic With the Chinese Original Text, Text-Analytical Data, an English Translation by Lionel Giles (1910), Latin Hanyu Pinyin Transcription and Chinese-English Meaning Definitions Muhammad Wolfgang G. A. Schmidt, 2018-03 This ancient Chinese work on military strategy by Master Sun is dating back a period in Chinese history where the central feudal state governed by the Zhou rulers was in decline with the result that regional rulers waged war among themselves to gain supremacy over each other. Sun, living at some time during the Spring and Autumn period (770-476 B.C.) was a military leader who wrote a remarkable piece of work dealing with the thirteen strategical principles (strategems) to be applied in warfare. His text is considered the oldest book on military strategy, and what he wrote was studied and considered useful and applied many centuries later inside and outside military. This book is in its essence a "psychology" and "philosophy" of war dealing with opponents in military struggle and civil life alike. The principles elaborated on are appreciated by leaders of military, business corporations and in sports today.

Traditional Chinese Stories Yau-Woon Ma, Joseph S. M. Lau, 1986 For centuries the Chinese referred to their fiction as xiaoshuo, etymologically meaning roadside gossip or small talk, and held it in relative disregard.

The History of the Relations Between the Low Countries and China in the Qing Era (1644-1911) Willy vande Walle, Noël Golvers, 2003 Inc., Portland, OR (booknews.com).

Taiping Guangji: A Collection of Ancient Novels in China; Volume of Gods, Ghosts and Spirits (Vol. 291 – 374) Li Fang, Taiping Guangji 太平廣記 is the first collection of ancient classical Chinese documentary novels. The book has 500 volumes with 10 catalogues. It is a kind of book based on the documentary stories of the Han Dynasty and the Song Dynasty. 14 people including Li Fang, Hu Mongolian 胡 三 木, Xu Xuan, Wangke Zhen, Song white, Lv Wenzhong worked under Song Taizong Emperor's command for the compilation. It began in the second year of Taiping Xingguo (977 A.D) and was completed in the following year (978 A.D.). This book is basically a collection of ancient stories compiled by category. The book is divided into 92 categories according to the theme, and is divided into more than 150 details. The story of the gods and spirits in the book accounts for the largest proportion, such as the fifty-five volumes of the gods, the fifteen volumes of the female fairy, the twenty-five volumes of the gods, the forty volumes of the ghosts, plus the Taoism, the alchemist, the aliens, the dissidents, the interpretation and Spirit vegetation of birds and so on, basically belong to the weird story of nature, represents the mainstream of Chinese classical story. The book includes the Volume of Volume of Gods, Ghosts and Spirits (Vol. 291 – 374) from Tai Ping Guang Ji.

Innovative Computing Vol 2 - Emerging Topics in Future Internet Jason C. Hung, Jia-Wei Chang, Yan Pei, 2023-06-02 This book comprises select peer-reviewed proceedings of the 6th International Conference on Innovative Computing (IC 2023). The contents focus on communication networks, business intelligence and knowledge management, web intelligence, and fields related to the development of information technology. The chapters include contributions on various topics such as databases and data mining, networking and communications, web and Internet of Things, embedded systems, soft computing, social network analysis, security and privacy, optical communication, and ubiquitous/pervasive computing. This volume will serve as a comprehensive overview of the latest advances in information technology for those working as researchers in both academia and industry.

How to Read the Chinese Novel David L. Rolston, 2014-07-14 Fiction criticism has a long and influential history in pre-modern China, where critics would read and reread certain novels with a concentration and fervor far exceeding that which most Western critics give to individual works. This volume, a source book for the study of traditional Chinese fiction criticism from the late sixteenth to the early twentieth centuries, presents translations of writings taken from the commentary editions of six of the most important novels of pre-modern China. These translations consist mainly of tu-fa, or how-to-read essays, which demonstrate sensitivity and depth of analysis both in the treatment of general problems concerning the reading of any work of fiction and in more focused discussions of particular compositional details in individual novels. The translations were produced by pioneers in the study of this form of fiction criticism in the West: Shuen-fu Lin, Andrew H. Plaks, David T. Roy, John C. Y. Wang, and Anthony C. Yu. Four introductory essays by Andrew H. Plaks and the editor address the historical background for this type of criticism, its early development, its formal features, recurrent terminology, and major interpretive strategies. A goal of this volume is to aid in the rediscovery of this traditional Chinese poetics of fiction and help eliminate some of the distortions encountered in the past by the imposition of Western theories of fiction on Chinese novels. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

A History of the Religious Beliefs and Philosophical Opinions in China from the Beginning to the Present Time Léon Wieger, 1927

Taiping Guangji; A Collection of Ancient Novels in China; The Volume of "Strange Men and Aliens" (Vol. 81 - 101) Li Fang, Taiping Guangji 太平廣記 is the first collection of ancient classical Chinese documentary novels. The book has 500 volumes with 10 catalogues. It is a kind of book based on the documentary stories of the Han Dynasty and the Song Dynasty. 14 people including Li Fang, Hu Mongolian 胡 璩 Li Mu, Xu Xuan, Wangke Zhen, Song white, Lv Wenzhong worked under Song Taizong Emperor's command for the compilation. It began in the second year of Taiping Xingguo (977 A.D) and was completed in the following year (978 A.D.). This book is basically a collection of ancient stories compiled by category. The book is divided into 92 categories according to the theme, and is divided into more than 150 details. The story of the gods and spirits in the book accounts for the largest proportion, such as the fifty-five volumes of the gods, the fifteen volumes of the female fairy, the twenty-five volumes of the gods, the forty volumes of the ghosts, plus the Taoism, the alchemist, the aliens, the dissidents, the interpretation and Spirit vegetation of birds and so on, basically belong to the weird story of nature, represents the mainstream of Chinese classical story. The book includes the Volume of "Strange Men and Aliens" (Vol. 81 - 101) from Tai Ping Guang Ji.

The Interweaving of Rituals Nicolas Standaert, 2011-07-01 The death of the Italian Jesuit Matteo Ricci in China in 1610 was the occasion for demonstrations of European rituals appropriate for a Catholic priest and also of Chinese rituals appropriate to the country hosting the Jesuit community. Rather than burying Ricci immediately in a plain coffin near the church, according to their European practice, the Jesuits followed Chinese custom and kept Ricci's body for nearly a year in an air-tight Chinese-style coffin and asked the emperor for burial ground outside the city walls. Moreover, at Ricci's funeral itself, on their own initiative the Chinese performed their funerary rituals, thus starting a long and complex cultural dialogue in which they took the lead during the next century. The *Interweaving of Rituals* explores the role of ritual - specifically rites related to death and funerals - in cross-cultural exchange, demonstrating a gradual interweaving of Chinese and European ritual practices at all levels of interaction in seventeenth-century China. This includes the interplay of traditional and new rituals by a Christian community of commoners, the grafting of Christian funerals onto established Chinese practices, and the sponsorship of funeral processions for Jesuit officials by the emperor. Through careful observation of the details of funerary practice, Nicolas Standaert illustrates the mechanics of two-way cultural interaction. His thoughtful analysis of the ritual exchange between two very different cultural traditions is especially relevant in today's world of global ethnic and religious tension. His insights will be of interest to a broad range of scholars, from historians to anthropologists to theologians.

Who Can Ride the Dragon? Yu Huan Zhang, Ken Rose, 1999 (The authors) have performed a great service by clearing a path into the formidable dense thicket that constitutes Chinese medicine in the West. This text provides... a window of inestimable value into a world of meaning that satisfies a yearning on the part of many who hunger to know the substrate from which Chinese Medicine emerges. Harriet Beinfield Author, *Between Heaven and Earth, A Guide to Chinese Medicine* An excellent book for those studying Traditional Chinese Medicine (TCM), this new text provides an insight into the depth and subtlety of this interesting subject. It delves into the linguistic and cultural wellsprings of China's venerable past, describing all aspects of TCM and making it applicable to Western approaches. It teaches the reader about the characteristics, expressions and concepts of TCM, allowing them to integrate its theories and practice into their own personal approach.

Science and Civilisation in China Joseph Needham, 1991

Marketing Dictatorship Anne-Marie Brady, 2008 Click here to hear Anne-Marie Brady's BBC World Service radio documentary titled *The Message from China* China's government is no longer a Stalinist-Maoist dictatorship, yet it does not seem to be moving significantly closer to democracy as it is understood in Western terms. After a period of self-imposed exclusion, Chinese society is in the process of a massive transformation in the name of economic progress and integration into the world economy. The Chinese Communist Party (CCP) is seeking to maintain its rule over China indefinitely, creating yet another new China. Propaganda and thought work play a key role in this strategy. In this important book, noted China scholar Anne-Marie Brady answers some intriguing questions about China's contemporary propaganda system. Why have propaganda and thought work strengthened their hold in China in recent years? How has the CCP government strengthened its power since 1989 when so many analysts predicted otherwise? How does the CCP maintain its monopoly on political power while dismantling the socialist system? How can the government maintain popular support in China when the uniting force of Marxist-Leninist-Maoist ideology is spent and discredited? What has taken the place of communist ideology? Examining propaganda and thought work in the current period offers readers a unique understanding of how the CCP will address real and perceived threats to stability and its continued hold on power. This innovative book is a must-read for everyone interested in China's growing role in the world community.

Encyclopedia of China Dorothy Perkins, 2013-11-19 Presents a representative cross-section of entries on all aspects of the history and culture of China. Alphabetically organized, the entries include* major cities and provinces* historical eras and figures* government and politics* economics* religion* language and the writing system* food and customs* sports and martial arts* crafts and architecture* important Chinese figures outside of mainland China* important Westerners in China.

Selected Biographies of Treacherous Officials in Ancient China Ji Lu, The book is the volume of *Selected Biographies of Treacherous Officials in Ancient China* among a series of books for 100 *Biographies on Chinese Historical Figures*.

The Chinese HEART in a Cognitive Perspective Ning Yu, 2009-02-26 This book is a cognitive semantic study of the Chinese conceptualization of the heart, traditionally seen as the central faculty of cognition. The Chinese word *xin*, which primarily denotes the heart organ, covers the meanings of both heart and mind as understood in English, which upholds a heart-head dichotomy. In contrast to the Western dualist view, Chinese takes on a more holistic view that sees the heart as the center of both emotions and thought. The contrast characterizes two cultural traditions that have developed different conceptualizations of person, self, and agent of cognition. The concept of heart lies at the core of Chinese thought and medicine, and its importance to Chinese culture is extensively manifested in the Chinese language. Diachronically, this book traces the roots of its conception in ancient Chinese philosophy and traditional Chinese medicine. Along the synchronic dimension, it not only makes a systematic analysis of conventionalized expressions that reflect the underlying cultural models and conceptualizations, as well as underlying conceptual metaphors and metonymies, but also attempts a textual analysis of an essay and a number of poems for their metaphoric and metonymic images and imports contributing to the cultural models and conceptualizations. It also takes up a comparative perspective that sheds light on similarities and differences between Western and Chinese cultures in the understanding of the heart, brain, body, mind, self, and person. The book contributes to the understanding of the embodied nature of human cognition situated in its cultural context, and the relationship between language, culture, and cognition.

This Captivating World of Kindle Books: A Comprehensive Guide Unveiling the Benefits of Kindle Books: A Realm of Ease and Flexibility Kindle books, with their inherent mobility and ease of availability, have freed readers from the limitations of physical books.
