Poetry and Contemporary Visual Culture / Lyrik und Zeitgenössische Visuelle Kultur Magdalena Elisabeth Korecka, Wiebke Vorrath, 2023-10-23 This book's goal is to determine the significance of visual culture in the production of contemporary poetry and to sound out the insights poetry might generate into contemporary visual culture. Its main hypothesis is that poetry holds considerable potential for (post-)digital language, image, and media criticism. The visual dimensions of recent poetry encompass, for instance, kinetic writing in digital poetry, visual elements in social media poems, and (spoken and written) text-image interactions in poetry films as well as in book poetry. The articles examine these medial correlations and their political implications by asking how visual culture is applied, exposed, and debated in poetry. This volume brings together contributions by authors from various countries working in disciplines such as literary, media, and film studies, linguistics, cultural and visual culture studies, and in poetic practice. It covers poetry in English, German, Norwegian, Polish, Ukrainian, Russian, Serbian, and also multilingual works. The book thus aims to promote international exchange between poetry researchers and stimulate further investigation into current relations between poetry and visibility from additional research perspectives and languages.

Exploring Language and Linguistics Natalie Braber, Louise Cummings, Liz Morrish, 2015-09-03 Exploring Language and Linguistics considers the key concepts of linguistics and the application of these concepts to real-world settings. The first eight chapters cover the standard topics of introduction to linguistics courses, while subsequent chapters introduce students to applied topics such as media discourse, literary linguistics and psycholinguistics. Each chapter has been written by a subject expert and experienced teacher, ensuring that the text is both up-to-date and clearly presented. Numerous learning features provide extensive student support: exercises allow students to review their understanding of key topics; summaries encourage students to reflect on the main points of each chapter; figures, photos, tables and charts clarify complex topics; and annotated suggestions for further reading point students to resources for self-study. A companion website, with 170 self-test questions, suggested group exercises, audio files and links to additional web resources, completes the learning package.

**Language of Conflict** Natalia Knoblock, 2020-06-11 Exploring the ways in which language and conflict are intertwined and interrelated, this volume examines the patterns of public discourse in Ukraine and Russia since the beginning of the Ukrainian Crisis in 2014. It investigates the trends in language aggression, evaluation, persuasion and other elements of conflict communication related to the situation. Through the analysis of the linguistic features of salient discourses and prevalent narratives constructed by different social groups, Language of Conflict reflects competing worldviews of various stakeholders in this conflict and presents multiple, often contradictory, visions of the circumstances. Contributors from Ukraine, Russia and beyond investigate discursive representations of the most important aspects of the crisis: its causes and goals, participants and the values and ideologies of the opposing factions. They focus on categorization, stance, framing, (de)legitimation, manipulation and coping strategies while analysing the ways in which the stress produced by social discord, economic hardship, and violence shapes public discourse. Primarily focusing on informal communication and material gathered from online sources, the collection provides insight into the ways people directly affected by the crisis think about and respond to it. The volume acknowledges the communicators' active role in constructing the (often incompatible) discursive images of the conflict and concentrates on the conscious and strategic use of linguistic resources in negative and aggressive communication.

Insights on Fashion Journalism Rosie Findlay, Johannes Reponen, 2022-07-18 This collection surveys the key debates and issues that currently face fashion journalism, going beyond traditional print media to consider its multiple contexts and iterations in an ever-evolving post-digital media environment. Bringing together a diverse range of contributors, Insights on Fashion Journalism explores the characteristics, complexities, shifts and specificities of the field. The book is organized into three sections, mapping fashion journalism's established and emerging practices and exploring its parameters from mainstream to marginal. Section One focuses on the complex relationships

between those who practice fashion journalism, the fashion industry and the media context in which they operate; Section Two considers the ways in which fashion journalism responds to the socio-political and cultural contexts in which it is created, as well as the impact these contexts have on tone, content and style; and Section Three investigates how language is employed in different media. Approaching fashion journalism through a critically diverse lens, this collection is an asset for academics and students in the fields of fashion studies, journalism, communication, cultural studies and digital media.

*Sevastopol's Wars* Mungo Melvin CB OBE, 2017-05-18 The first book in any language to cover the full history of Russia's historic Crimean naval citadel, from its founding through to the current tensions that threaten the region. Founded by Catherine the Great, the maritime city of Sevastopol has been fought over for centuries. Crucial battles of the Crimean War were fought on the hills surrounding the city, and the memory of this stalwart defence inspired those who fruitlessly battled the Germans during World War II. Twice the city has faced complete obliteration yet twice it has risen, phoenix-like, from the ashes. In this groundbreaking volume, award-winning author Mungo Melvin explores how Sevastopol became the crucible of conflict over three major engagements – the Crimean War, the Russian Civil War and World War II – witnessing the death and destruction of countless armies yet creating the indomitable 'spirit of Sevastopol'. By weaving together first-hand interviews, detailed operational reports and battle analysis, Melvin creates a rich tapestry of history.

*Resources in Education*, 1997

*New Drama in Russian* J.A.E. Curtis, 2020-05-14 How and why does the stage, and those who perform upon it, play such a significant role in the social makeup of modern Russia, Ukraine and Belarus? In *New Drama in Russian*, Julie Curtis brings together an international team of leading scholars and practitioners to tackle this complex question. *New Drama*, which draws heavily on techniques of documentary and verbatim writing, is a key means of protest in the Russian-speaking world; since the fall of the Soviet Union in 1991, theatres, dramatists, and critics have collaborated in using the genre as a lens through which to explore a wide range of topics from human rights and state oppression to sexuality and racism. Yet surprisingly little has been written on this important theatrical movement. *New Drama in Russian* rectifies this. Through providing analytical surveys of this outspoken transnational genre alongside case-studies of plays and interviews with playwrights, this volume sheds much-needed light on the key issues of performance, politics, and protest in Russia, Ukraine and Belarus. Meticulously researched and elegantly argued, this book will be of immense value to scholars of Russian cultural history and post-Soviet literary studies.

**Everyday War** Greta Lynn Uehling, 2023-02-15 *Everyday War* provides an accessible lens through which to understand what noncombatant civilians go through in a country at war. What goes through the mind of a mother who must send her child to school across a minefield or the men who belong to groups of volunteer body collectors? In Ukraine, such questions have been part of the daily calculus of life. Greta Uehling engages with the lives of ordinary people living in and around the armed conflict over Donbas that began in 2014 and shows how conventional understandings of war are incomplete. In Ukraine, landscapes filled with death and destruction prompted attentiveness to human vulnerabilities and the cultivation of everyday, interpersonal peace. Uehling explores a constellation of social practices where ethics of care were in operation. People were also drawn into the conflict in an everyday form of war that included provisioning fighters with military equipment they purchased themselves, smuggling insulin, and cutting ties to former friends. Each chapter considers a different site where care can produce interpersonal peace or its antipode, everyday war. Bridging the fields of political geography, international relations, peace and conflict studies, and anthropology, *Everyday War* considers where peace can be cultivated at an everyday level.

*New Imaginaries* Marian J. Rubchak, 2015-06-01 Having been spared the constraints imposed on intellectual discourse by the totalitarian regime of the past, young Ukrainian scholars now engage with many Western ideological theories and practices in an atmosphere of intellectual freedom and uncensored scholarship. Displacing the Soviet legacy of prescribed thought and practices, this volume's female contributors have infused their work with Western elements, although vestiges of

Soviet-style ideas, research methodology, and writing linger. The result is the articulation of a “New Imaginaries” — neither Soviet nor Western — that offers a unique approach to the study of gender by presenting a portrait of Ukrainian society as seen through the eyes of a new generation of feminist scholars.

*Nationalisms Today* Tomasz Kamusella, Krzysztof Jaskułowski, 2009 After the end of communism and the breakups of the studiously anational polities of the Soviet Union and Yugoslavia into successor nation-states, nationalism and ethnicity returned to the fore of international politics. Earlier these forces had been relegated to the back burner of history when the Cold War struggle unfolded. But even then the process of decolonization had been none other but the gradual globalization of the nation and nation-state as the most legitimate forms of modern-day peoplehood and statehood. At present, nationalism is the sole uncontested global ideology of statehood legitimization. The ethnic variety of this ideology also forms the basis upon which stateless groups reinvent themselves as nations in order to be able to lay claim to territorial autonomy or separate statehood. This volume inaugurates a new Peter Lang book series, *Nationalisms across the Globe*, devoted to these burning issues, which shall influence the near future of the world. From a geographical perspective, this collection focuses mainly on Central and Eastern Europe and also Southern Africa. Significantly it also proposes novel theoretical approaches to the phenomena of nationalism and ethnicity.

**Congressional Record** United States. Congress, 1972

*Identity in Formation* David D. Laitin, 1998 Laitin portrays these Russian-speakers as a beached diaspora since the populations did not cross international borders; the borders themselves receded. He asks what will become of these populations. Will they learn the languages of the republics in which they live and prepare their children for assimilation? Will they return to a homeland many have never seen? Or will they become loyal citizens of the new republics while maintaining a Russian identity?

**National Geographic**, 1918

**The Ukrainians** Andrew Wilson, 2022-11-08 As in many postcommunist states, politics in Ukraine revolves around the issue of national identity. Ukrainian nationalists see themselves as one of the world's oldest and most civilized peoples, as “older brothers” to the younger Russian culture. Yet Ukraine became independent only in 1991, and Ukrainians often feel like a minority in their own country, where Russian is still the main language heard on the streets of the capital, Kiev. This book is a comprehensive guide to modern Ukraine and to the versions of its past propagated by both Russians and Ukrainians. Andrew Wilson provides the most acute, informed, and up-to-date account available of the Ukrainians and their country. Concentrating on the complex relation between Ukraine and Russia, the book begins with the myth of common origin in the early medieval era, then looks closely at the Ukrainian experience under the tsars and Soviets, the experience of minorities in the country, and the path to independence in 1991. Wilson also considers the history of Ukraine since 1991 and the continuing disputes over identity, culture, and religion. He examines the economic collapse under the first president, Leonid Kravchuk, and the attempts at recovery under his successor, Leonid Kuchma. Wilson explores the conflicts in Ukrainian society between the country's Eurasian roots and its Western aspirations, as well as the significance of the presidential election of November 1999.

*Building Research Capacity at Universities* Maia Chankseliani, Igor Fedyukin, Isak

Frumin, 2022-10-11 This edited volume represents a collective contribution to the current debates on developing university research capacity. The chapters in this volume offer empirical case studies from post-Soviet countries which share a common history, common policies and practices of higher education. These commonalities make the regional focus meaningful and analytically valid. At the same time, the case studies demonstrate divergence from the shared Soviet tradition and offer historical, sociological, and political analyses of how and in what ways universities in former Soviet countries internalised their research mission and developed the capacity to carry out this mission. This volume is the first of its kind to examine national and institutional resources, political will, and individual agency to understand how these influenced universities' motivation, expertise, and opportunities of undertaking research since the early 1990s, and how universities changed their

structures and practices under these influences. The book will appeal to students and scholars in the fields of education, sociology, political science, and economics.

**The Church's Unholy War** Nicholas Denysenko, 2023-05-04 How did religion contribute to Russia's invasion of Ukraine? Heated disputes and alienation among Orthodox Christians in Ukraine and Russia contributed to Russian aggression in Crimea and Donbas in 2014, and the full-scale invasion of Ukraine in 2022. This book examines attempts from the early twentieth century to the present day to liberate the Ukrainian Orthodox Church from Russian control. It explores the causes of bitter alienation, Russia's use of soft power to maintain control, the development of hate speech used to discriminate against independent-minded Ukrainians, and the transition from soft to hard power from 2014 to the present.

*Problems of Communism*, 1979

Collection European Audiovisual Observatory, 2003-01-01 In the media law field, we are all confronted more and more frequently with the term horizontal regulation. What exactly is meant though by horizontal regulation? Does it already exist in the audiovisual field, particularly in EC law, and, if so, how does it work? What are its limitations? This edition provides some answers to these questions. In five articles, it describes horizontal rules in five different subject areas and compares and analyzes them.--Publisher's description.

*Politics of Visibility and Belonging* Emil Edenborg, 2017-07-14 In this book, Edenborg studies contemporary conflicts of community as enacted in Russian media, from the 'homosexual propaganda' laws to the Sochi Olympics and the Ukraine war, and explores the role of visibility in the production and contestation of belonging to a political community. The book examines what it is that determines which subjects and narratives become visible and which are occluded in public spheres; how they are seen and made intelligible; and how those processes are involved in the imagination of communities. Investigating the differentiated consequences of visibility, Edenborg discusses what forms of visibility make belonging possible and what forms of visibility may be related to exclusion or violence. The book maps and analyses the practices and mechanisms whereby a state seeks to produce and shape belonging through controlling what becomes visible in public, and how that which becomes visible is seen and understood. In addition, it examines what forms contestation can take and what its effects may be. Advancing theoretical understanding and offering a useful way to analytically conceptualize the role of visibility in the production and contestation of political communities, this work will be of interest to students and scholars of gender and sexuality politics, borders, citizenship, nationalism, migration and ethnic relations.
