Give and Go Thomas Mc Laughlin, 2008-03-07 From the city courts of Harlem to the church halls of Indiana, pickup basketball culture is intensely local and reflects the histories and identities of its players. In *Give and Go*, Thomas Mc Laughlin examines how players put into play a loose set of values and ethical styles that influence how they think, feel, move, and relate to others within the community. A lifelong pickup ball player—one of modest skills but serious intent—Mc Laughlin has internalized and embodied the culture of the game, and he writes as a participant in the basketball community, putting into words what his body already knows. This book reflects the author's personal experience and observation of the game, through the lens of contemporary cultural theory, and also examines the representation of basketball culture in popular media, including the films *Hoop Dreams*, *Hoosiers*, and *White Men Can't Jump*. As only an insider can, Mc Laughlin takes readers onto the court and into the minds of players as they negotiate the culture of the game.

Evidence-Based Applied Sport Psychology Roland A. Carlstedt, PhD, 2012-11-13 This is the first book to call for a major paradigm shift in applied sport psychology by providing a wealth of systematic, scientifically validated research in a field where assessment and treatment has often been haphazard. In his quest to bring sport psychology to a higher level of validity, Dr. Carlstedt describes the most current assessment methods, intervention procedures, and promising research that are critical for use in evidence-based practice. These assessment and treatment methods are based on 25 years of rigorous scientific approaches and principles that incorporate the most sophisticated research methods now available. The book describes the mechanisms that influence peak performance or psychological performance deficits and the mental training process, and provides procedures that will take the guesswork out of typical assessment and mental training. It offers tools with which practitioners can reexamine their modus operandi and critically explore the mechanism of interaction outcomes. To this end, the book includes extensive data sets on personality, behavioral tendencies, mind-body responses, and performance outcome. Dr. Carlstedt advocates moving beyond compartmentalized therapeutic sessions in the office to directly observe athletic performance during training and actual competition. The text also contains individual and team case studies to enhance its focus on individualized, efficacy-tested protocols for each individual athlete. Key Features: Presents a detailed client-centered assessment and intervention model grounded in technology-supported, step-by-step procedures, followed by efficacy testing Focuses on the importance of empirical scrutiny and individualized, efficacy-tested protocols for each individual athlete Describes the Carlstedt Protocol containing a visualization efficiency test among many other technologically based assessment and training tools Provides a roadmap for achieving a gold-

standard system of accountability Practitioners will learn how to work within Carlstedt's integrative model to improve athlete performance and contribute to the advancement of evidence-based applied sport psychology.

If The Shoe Fits, Wear It Bernard Young, 2008-07 The way you view yourself and relationships with a man or woman will never be the same, especially when you look at relationships in God's perspective. You'll be more careful when you're ready to build a long term relationship. Knowing who you are and knowing your destiny is very important before walking down the aisles. The right man with the right woman equals the right relationship. You can even have a good looking soul mate that loves you for you who won't cheat. I'll be talking about these topics in the book. Having the right mate for life. Be careful who you fall in love with. The four types of love. How to build your relationship. Does color matter? Does age matter? (For adults not minors) Sex is a great thing in the right content. How God views sex. What causes relationships not to work? How we try to force relationships that was never intended to work. Being single and celibate. Domestic violence. Why divorce is at a high rate. Getting that good looking soul mate according to God's will (plan).
