respective artists.

A Memoir of Vincent van Gogh Jo van Gogh-Bonger, Martin Gayford, 2018-04-03 The general outlines of Vincent van Gogh's life—the early difficulties in Holland and Paris, the revelatory impact of the move to Provence, the attacks of madness and despair that led to his suicide—are almost as familiar as his paintings. Yet neither the paintings nor Van Gogh's story might have survived at all had it not been for his sister-in-law, the teacher, translator, and socialist Jo van Gogh-Bonger. Jo married the painter's brother, Theo, in 1889, and over the next two years lived through the deaths of both Vincent and her new husband. Left with an infant son, she inherited little save a cache of several hundred paintings and an enormous archive of letters. Advised to consign these materials to an attic, she instead dedicated her life to making them known. Over the next three decades she tirelessly promoted Vincent's art, organizing major exhibitions and compiling and editing the correspondence, the first edition of which included, as a preface, her account of Van Gogh's life. This short biography, written from a vantage point of familial intimacy, affords a revealing and, at times, heartbreaking

testimony to the painter's perilous life. An introduction by the art critic and scholar Martin Gayford provides an insightful discussion of the author's relationship with the Van Goghs, while abundant color illustrations throughout the book trace the development of the painter's signature style.

*Surrealism Beyond Borders* Stephanie D'Alessandro, Matthew Gale, 2021-10-04 *Surrealism Beyond Borders* challenges conventional narratives of a revolutionary artistic, literary, and philosophical movement. Tracing Surrealism's influence and legacy from the 1920s to the late 1970s in places as geographically diverse as Colombia, Czechoslovakia, Egypt, Japan, Korea, Mexico, the Philippines, Romania, Syria, Thailand, and Turkey, this publication includes more than 300 works of art in a variety of media by well-known figures—including Dalí, Ernst, Kahlo, Magritte, and Miró—as well as numerous artists who are less widely known. Contributions from more than forty distinguished international scholars explore the network of Surrealist exchange and collaboration, artists' responses to the challenges of social and political unrest, and the experience of displacement and exile in the twentieth century. The multiple narratives addressed in this expansive book move beyond the borders of history,

geography, and nationality to provocatively redraw the map of Surrealism.

*Make a Masterpiece -- Van Gogh's Starry Night* Vincent Van Gogh, 2014-09-17 Create a Starry Night of your very own or reproduce van Gogh's masterpiece. This book features the painting's dramatic landscape with the foreground items removed and transformed into individual stickers.

*The Unseen Van Gogh* Richard Mühlberger, 1998 The Unseen Van Gogh is a journey of discovery straight into the artist's most famous -- and some little-known -- masterpieces. Enlargements of key details, presented alongside the full canvases, invite the viewer to step into van Gogh's paintings for an intimate look at his world and his method of work. The complex genius of his work is all the more evident up close: the branches of a tree, a figure in a landscape, or the halo of light around a lantern become beautifully abstract. The details stand alone as works of art unto themselves, and in so doing reveal the transcendent completeness of the larger work.

*Van Gogh to Mondrian* Piet de Jonge, 2004 The Kroller-Muller Museum is one of the great art collections in Europe, yet it remains unknown to many Americans because of its remote location in the

Hoge Veluwe National Park in rural southeast Netherlands. This beautifully illustrated book features highlights from the Museum's collection of late-nineteenth- and early-twentieth-century art, including more than a score of works by Vincent van Gogh. The Museum is the result of the passion of a singular collector: Helene Kroller-Muller (1869-1939). The wife of a Dutch shipping magnate, she used almost unlimited funds to amass an astounding collection in a short period of time. Beginning in the 1910s, she collected voraciously -- not only Van Gogh but Neo-Impressionist masters Seurat, Signac, and Denis, and Symbolists Redon and Toorop. She patronized and supported artists who were pioneering abstraction -- particularly Mondrian, Van Doesburg, and Van der Leek -- and collected the Cubists, including Picasso, Gris, and Leger. Mrs. Kroller-Muller had a consuming desire to create a museum where her collection could be displayed for the public. Over a period of more than twenty-five years, she worked with some of the leading architects of the early twentieth century -- H. P. Berlage, Mies van der Rohe, and Henry van de Velde -- and finally in 1938 her dream was realized with the opening of the institution that bears her name. Book jacket.
