Hockney-Van Gogh Hans den Hartog Jager,2019 A parallel look at Hockney and Van Gogh's love of nature as expressed in their landscape paintings

A Memoir of Vincent van Gogh Jo van Gogh-Bonger,Martin Gayford,2018-04-03 The general outlines of Vincent van Gogh's life—the early difficulties in Holland and Paris, the revelatory impact of the move to Provence, the attacks of madness and despair that led to his suicide—are almost as familiar as his paintings. Yet neither the paintings nor Van Gogh's story might have survived at all had it not been for his sister-in-law, the teacher, translator, and socialist Jo van Gogh-Bonger. Jo married the painter's brother, Theo, in 1889, and over the next two years lived through the deaths of both Vincent and her new husband. Left with an infant son, she inherited little save a cache of several hundred paintings and an enormous archive of letters. Advised to consign these materials to an attic, she instead dedicated her life to making them known. Over the next three decades she tirelessly promoted Vincent's art, organizing major exhibitions and compiling and editing the correspondence, the first edition of which included, as a preface, her account of Van Gogh's life. This short biography, written from a vantage point of familial intimacy, affords a revealing and, at times, heartbreaking testimony to the painter's perilous life. An introduction by the art critic and scholar Martin Gayford provides an insightful discussion of the author's relationship with the Van Goghs, while abundant color illustrations throughout the book trace the development of the painter's signature style.

Van Gogh's Ghost Paintings Cliff Edwards,2015-06-03 One of the most significant and revealing paintings by the world famous artist Vincent van Gogh was never seen by anyone but the artist himself. The painting was so important to the artist that he painted it twice. He was so conflicted about the painting that he destroyed it twice. Cliff Edwards argues these two unique paintings Vincent created and destroyed are at least as important to understanding the artist and his work as are the two thousand or more paintings and drawings that do exist. In Van Gogh's Ghost Paintings, Edwards invites his readers on a journey that begins in a Zen master's room in Japan and ends at a favorite site of the artist, a ruined monastery and its garden

in the south of France. Recovering the intent of van Gogh and the nature of his ghost paintings becomes a zen koan waiting to be solved. The solution offers access to the deepest levels of the artist's life as painter and spiritual pilgrim. The journey leads to the artist's choice of the biblical theme of the Garden of Gethsemane. The answer to the mystery of the lost paintings illuminates the relationship of joy and suffering, discovery and creation, religion and the arts in van Gogh's life and work. In this fascinating book Edwards solves a long-ignored mystery that provides a critical key to the relation of van Gogh's religion and art.

Vincent van Gogh Victoria Charles, 2012-01-17 Vincent van Gogh's life and work are so intertwined that it is hardly possible to observe one without thinking of the other. Van Gogh has indeed become the incarnation of the suffering, misunderstood martyr of modern art, the emblem of the artist as an outsider. An article, published in 1890, gave details about van Gogh's illness. The author of the article saw the painter as "a terrible and demented genius, often sublime, sometimes grotesque, always at the brink of the pathological." Very little is known about Vincent's childhood. At the age of eleven he had to leave "the human nest", as he called it himself, for various boarding schools. The first portrait shows us van Gogh as an earnest nineteen year old. At that time he had already been at work for three years in The Hague and, later, in London in the gallery Goupil & Co. In 1874 his love for Ursula Loyer ended in disaster and a year later he was transferred to Paris, against his will. After a particularly heated argument during Christmas holidays in 1881, his father, a pastor, ordered Vincent to leave. With this final break, he abandoned his family name and signed his canvases simply "Vincent". He left for Paris and never returned to Holland. In Paris he came to know Paul Gauguin, whose paintings he greatly admired. The self-portrait was the main subject of Vincent's work from 1886c88. In February 1888 Vincent left Paris for Arles and tried to persuade Gauguin to join him. The months of waiting for Gauguin were the most productive time in van Gogh's life. He wanted to show his friend as many pictures as possible and

decorate the Yellow House. But Gauguin did not share his views on art and finally returned to Paris. On 7 January, 1889, fourteen days after his famous self-mutilation, Vincent left the hospital where he was convalescing. Although he hoped to recover from and to forget his madness, but he actually came back twice more in the same year. During his last stay in hospital, Vincent painted landscapes in which he recreated the world of his childhood. It is said that Vincent van Gogh shot himself in the side in a field but decided to return to the inn and went to bed. The landlord informed Dr Gachet and his brother Theo, who described the last moments of his life which ended on 29 July, 1890: “I wanted to die. While I was sitting next to him promising that we would try to heal him. [...], he answered, ‘La tristesse durera toujours (The sadness will last forever).’”
