Go Nation Marc L. Moskowitz, 2013-08-30 Go (Weiqi in Chinese) is one of the most popular games in East Asia, with a steadily increasing fan base around the world. Like chess, Go is a logic game but it is much older, with written records mentioning the game that date back to the 4th century BC. As Chinese politics have changed over the last two millennia, so too has the imagery of the game. Today, it marks the reemergence of cultured gentlemen as an idealized model of manhood. Moskowitz uses this game to come to a better understanding of Chinese masculinity, nationalism, and class, as the PRC reconfigures its history and traditions to meet the future.

Go as Communication Yasutoshi Yasuda, 2021-09-21 Go as Communication is the record of a surprising discovery, namely, that a simple game called First Capture Go can have enormous educational and therapeutic value. Yasutoshi Yasuda, the person responsible for this discovery, is a Japanese professional Go player. Concerned about social problems in Japanese schools, Yasuda began introducing a simplified version of Go to school children and discovered to his surprise that it had immediate positive effects. His experiences with school children encouraged Yasuda to expand his efforts to homes for the elderly and then to institutions for the mentally and physically handicapped. In every case, the game had a tremendous positive impact. The version of the game

that is used in these programs is quite easy to learn, and it is easy to make playing equipment. The book provides thorough practical guidance for both teaching the game and creating playing sets. There really is no impediment for anyone who finds Yasuda's program as appealing - and inspiring - as I and many other people do. The rewards are immediate and obvious. Scores of people around the world have introduced the capture game to thousands of people of all ages with very satisfying results. Yasuda's program offers everyone an opportunity to make a positive difference. William Cobb

The Odyssey of the Bear Josée Benabent-Loiseau, Jean-Jacques Annaud, 1989 How on earth did they do it? This behind-the-scenes diary reconstructs director Jean-Jacques Annaud's amazing undertaking-six years of preparation, nineteen wild weeks of filming in the Italian Alps with 180 crew members, a cast of three actors, twenty-three bears and hundreds of other animals including pumas, deer, horses, dogs, fish, birds, frogs, and even insects. Showing the sometimes dangerous, sometimes humorous situations of working with animals, this well-paced volume, filled with photographs, interviews, and anecdotes, proves to be a memorable story in its own right.

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as

renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

Sports Videogames Mia Consalvo, Konstantin Mitgutsch, Abe Stein, 2013-07-18 From Pong to Madden NFL to Wii Fit, Sports Videogames argues for the multiple ways that sports videogames—alongside televised and physical sports—impact one another, and how players and viewers make sense of these multiple forms of play and information in their daily lives. Through case studies, ethnographic explorations, interviews and surveys, and by analyzing games, players, and the

sports media industry, contributors from a wide variety of disciplines demonstrate the depth and complexity of games that were once considered simply sports simulations. Contributors also tackle key topics including the rise of online play and its implications for access to games, as well as how regulations surrounding player likenesses present challenges to the industry. Whether you're a scholar or a gamer, Sports Videogames offers a grounded, theory-building approach to how millions make sense of videogames today.

Exceptional States Sara L. Friedman, 2015-09-15 Between 10% and 20% of marriages in Taiwan involve the union of a Taiwanese national with a Chinese immigrant, with as many as 13,000 cross-strait couples registering new unions each year. *Exceptional States* examines new configurations of marriage, immigration, and governance emerging in an increasingly mobile Asia where Cold War legacies continue to shape contemporary political struggles over sovereignty and citizenship. This book poignantly and respectfully documents the struggle of these immigrant Chinese women as they seek belonging, acceptance, and recognition in their new land. The women's experiences parallel Taiwan's own desire to receive recognition from the international community as a sovereign nation-state. By tracing these political parallels, the book shows how Chinese marital immigrants are affected by Taiwan's own uncertain political status in relation to China in ways that marital immigrants from other Asian countries are not. *Exceptional States* illustrates the social, political and subjective consequences of immigrants who are living with this exceptional status. The book concludes with a discussion of how Chinese spouses' efforts to create a sense of belonging for themselves across the fluid waters of the Taiwan Strait offer possible insights into solving Taiwan's current sovereignty challenges--Provided by publisher.

Atari Age Michael Z. Newman, 2017 The cultural contradictions of early video games: a medium

for family fun (but mainly for middle-class boys), an improvement over pinball and television (but possibly harmful) Beginning with the release of the Magnavox Odyssey and Pong in 1972, video games, whether played in arcades and taverns or in family rec rooms, became part of popular culture, like television. In fact, video games were sometimes seen as an improvement on television because they spurred participation rather than passivity. These “space-age pinball machines” gave coin-operated games a high-tech and more respectable profile. In *Atari Age*, Michael Newman charts the emergence of video games in America from ball-and-paddle games to hits like *Space Invaders* and *Pac-Man*, describing their relationship to other amusements and technologies and showing how they came to be identified with the middle class, youth, and masculinity. Newman shows that the “new media” of video games were understood in varied, even contradictory ways. They were family fun (but mainly for boys), better than television (but possibly harmful), and educational (but a waste of computer time). Drawing on a range of sources—including the games and their packaging; coverage in the popular, trade, and fan press; social science research of the time; advertising and store catalogs; and representations in movies and television—Newman describes the series of cultural contradictions through which the identity of the emerging medium worked itself out. Would video games embody middle-class respectability or suffer from the arcade's unsavory reputation? Would they foster family togetherness or allow boys to escape from domesticity? Would they make the new home computer a tool for education or just a glorified toy? Then, as now, many worried about the impact of video games on players, while others celebrated video games for familiarizing kids with technology essential for the information age.

Love's Uncertainty Teresa Kuan, 2015-02-27 *Love's Uncertainty* explores the hopes and anxieties of urban, middle-class parents in contemporary China. Combining long-term ethnographic

research with analyses of popular child-rearing manuals, television dramas, and government documents, Teresa Kuan bears witness to the dilemmas of ordinary Chinese parents, who struggle to reconcile new definitions of good parenting with the reality of limited resources. Situating these parents' experiences in the historical context of state efforts to improve population quality, Love's Uncertainty reveals how global transformations are expressed in the most intimate of human experiences. Ultimately, the book offers a meditation on the nature of moral agency, examining how people discern, amid the myriad contingencies of life, the boundary between what can and cannot be controlled.

Dealing in Desire Kimberly Kay Hoang, 2015-02-11 This captivating ethnography explores Vietnam's sex industry as the country ascends the global and regional stage. Over the course of five years, author Kimberly Kay Hoang worked at four exclusive Saigon hostess bars catering to diverse clientele: wealthy local Vietnamese and Asian businessmen, Viet Kieus (ethnic Vietnamese living abroad), Western businessmen, and Western budget-tourists. *Dealing in Desire* takes an in-depth and often personal look at both the sex workers and their clients to show how Vietnamese high finance and benevolent giving are connected to the intimate spheres of the informal economy. For the domestic super-elite who use the levers of political power to channel foreign capital into real estate and manufacturing projects, conspicuous consumption is a means of projecting an image of Asian ascendancy to potential investors. For Viet Kieus and Westerners who bring remittances into the local economy, personal relationships with local sex workers reinforce their ideas of Asia's rise and Western decline, while simultaneously bolstering their diminished masculinity. *Dealing in Desire*

illuminates Ho Chi Minh City's sex industry as not just a microcosm of the global economy, but a critical space where dreams and deals are traded.

No One Will Let Her Live Claire Snell-Rood, 2015-06-23 The inequalities that structure relationships in Delhi's urban slums have left the health of women living there chronically vulnerable. Yet for women living in slums, there is no other option than to depend on someone. Based on fourteen months of intensive fieldwork with ten families in a Delhi slum, *No One Will Let Her Live* argues that women rely on moral strategies to confront the poverty and unstable relationships that threaten their well-being. Claire Snell-Rood breaks new ground by delineating the complex ways in which women set boundaries, maintain their independence, and develop a nuanced sense of selfhood that draws on endurance, asceticism, mobility, and citizenship.

Working Skin Joseph D. Hankins, 2014-07-26 Since the 1980s, arguments for a multicultural Japan have gained considerable currency against an entrenched myth of national homogeneity. *Working Skin* enters this conversation with an ethnography of Japan's *Buraku* people. Touted as Japan's largest minority, the Buraku are stigmatized because of associations with labor considered unclean, such as leather and meat production. That labor, however, is vanishing from Japan: Liberalized markets have sent these jobs overseas, and changes in family and residential record-keeping have made it harder to track connections to these industries. Multiculturalism, as a project of managing difference, comes into ascendancy and relief just as the labor it struggles to represent is disappearing. *Working Skin* develops this argument by exploring the interconnected work of tanners in Japan, Buraku rights activists and their South Asian allies, as well as cattle ranchers in West Texas, United Nations officials, and international NGO advocates. Moving deftly across these engagements, Joseph Hankins analyzes the global political and economic demands of the labor of

multiculturalism. Written in accessible prose, this book speaks to larger theoretical debates in critical anthropology, Asian and cultural studies, and examinations of liberalism and empire, and it will appeal to audiences interested in social movements, stigmatization, and the overlapping circulation of language, politics, and capital.

Born Out of Place Nicole Constable, 2014-03-14 Hong Kong is a meeting place for migrant domestic workers, traders, refugees, asylum seekers, tourists, businessmen, and local residents. In *Born Out of Place*, Nicole Constable looks at the experiences of Indonesian and Filipina women in this Asian world city. Giving voice to the stories of these migrant mothers, their South Asian, African, Chinese, and Western expatriate partners, and their Hong Kong-born babies, Constable raises a serious question: Do we regard migrants as people, or just as temporary workers? This accessible ethnography provides insight into global problems of mobility, family, and citizenship and points to the consequences, creative responses, melodramas, and tragedies of labor and migration policies.

The Middle Game of Go Eio Sakata, 2007-01 Sakata Eio is regarded as one of the strongest go players of the 20th century. He was born on February 15, 1920 in Tokyo, Japan. After winning most of the major titles in the 1950s, in 1961 he finally took the Honinbo title from Takagawa Kaku who had held it for a record nine consecutive terms. In 1963, Sakata captured the Meijin title, making him the first player simultaneously to hold the two titles Meijin-Honinbo. Sakata's peak came in 1964, when he won 30 games and lost only two and held seven major titles: Meijin, Honinbo, Nihon Ki-in Championship, Asahi Pro Best Ten, Oza, Nihon Kiin Number One, and NHK Cup. Sakata is now 86 and lives in Tokyo. He is retired but still active. This book, *The Middle Game of Go* or *Chubansen*, first published in 1971, was Sakata's third book published in English, the first being *Modern Joseki*

and Fuseki, Vol. 1 and the second being Modern Joseki and Fuseki, Vol. 2, The Opening Theory of Go. These volumes are now regarded as a classics in Go literature. They are also the first books published by The Ishi Press. This book, along with the two other volumes in his series by Sakata Eio, made The Ishi Press the world's leading English language publisher on the game of go.

Go for Beginners Kaoru Iwamoto, 1977-03-12 Go is an ancient, subtly beautiful game of territory. But with its nearly endless possibilities and challenges, it is more than just another game; it is a way of life for tens of millions of players throughout the world. Embodying four thousand years of Oriental thought and culture, go is the oldest game in the world still played in its original form. Go is the kind of game that one can learn in a day—and spend a lifetime perfecting. It is more art than science: in order to surround and capture the opponent's territory, one needs intuition, flexibility, and acute perception combined with a sharp analytical mind. Each player is a partner in an exercise of coexistence; each player needs the other for self-enlightenment and for enjoyment. But then, too, go is a game whose strategy has been compared to the tactics of guerilla warfare. Go can be all things to all people; it is simple, elegant, and unexpectedly beautiful. This book contains an introduction; a brief example game; a clear, leisurely explanation of the rules; and illustrations of the simplest techniques of good play and of some easy and some more difficult problems the player will encounter. The appendixes include a concise list of rules, a glossary of technical terms, and a list of international and American go organizations. Among go players, **Go for Beginners** is known as the best beginner's book available.
