Cheap Gold and Silver Vicki Priebe, 2012-02-06 Which of these do you want?- to have extra money to pay your bills?- to find spectacular gifts for

your loved ones at ridiculously low prices?- to have lots of beautiful head turning jewelry to wear?- to invest in precious metals for less than the current spot price?- to have extra money to take that vacation you've been dreaming of?- to protect yourself or your family's finances in the event of a serious crisis?- to know more about buying and selling precious metals? So you aren't ripped off.- to know how you are missing deals on precious metals in plain sight?- to make your own decisions and be your own boss?If you have a want or need associated with any of the above questions, then this book might be your answer. Imagine your excitement, when you notice a beautiful thick gold colored necklace lying on a table at an estate sale. You quickly pick it up. It's heavy and looks like gold. However, the only mark on it doesn't indicate gold, so you put it down. Luckily you read this book and remember the lesson on marks, and quickly pick it up again. Jackpot! You bought an 18 K gold necklace for \$2; it's worth \$246 for the gold content value. That's a \$244 profit/savings in less than 5 minutes. Would this put a big smile on your face? This is one of my true stories; check out picture 53 to see it. Make money, save money and invest in precious metals:Is it possible to make money finding gold and silver in your spare time? The answer is yes. If I sold all the items I purchased, I'd average \$24-\$73 per hour. I've been doing this and now it's your turn. I want you to capitalize on the opportunities all around you; trust me they're out there. In addition to making money, I wanted to invest in precious metals without affecting my family's budget. I couldn't imagine taking \$1,600 from my monthly income to buy one gold coin, but I could take \$2 to buy gold jewelry. Does this sound familiar; do you have the same thoughts? Take this educational journey with me and reap your rewards. Capitalizing on these amazing deals not only allows me to make money and invest in precious metals, but I'm able to save money buying gifts for my family, friends and myself. If I spend \$2 on a gold necklace and pendant set that retails for \$100, I saved myself \$98. Now that's the smart way to keep up with the Joneses. Or if I give it away as a gift, no one will know I only spent \$2; they'll think I spent \$100. Read this book and you could save substantial amounts of money too.Filled with killer (not filler) content, including:- ideas on where to search (offline and online),- stories to provide proof, entertainment, and illustrate the lesson being taught,- tips on finding the gold and silver that others miss,- techniques on how to find the precious metals,- hallmarks and hidden marks to look for,- how to get the best price for your items,- how to sell your gold and silver,- warnings to help protect you and your money,- how to test your precious metals,- 88 pictures,- and lots more information (200 pages worth). This book will pay for itself many times over:- IF YOU SAVE \$100 buying a gift (a gold ring) for a friend, or- IF YOU MAKE a profit of \$75 selling a precious metal item, or- IF YOU SAVE \$40 investing in a few ounces of sterling silver,by using one

piece of information, then the book paid for itself many times over. You didn't lose a dime and all the information is free to use repeatedly, forever. How can you go wrong with that deal? With the current high spot prices of precious metals, just one necklace, one pendant, or two forks can be worth these types of savings and profits, easily. No, I'm not promising thousands of dollars in 10 minutes, but it's possible. It has happened to me. I paid \$5 for a gold whale pendant that retails for around \$2,000. Read this story in Chapter 4.

There is absolutely no question that people leave days are looking for alternative investments rather than traditional stock and bonds, because although the economy is steadily (but slowly) improving. More and more people are realizing the old adage of you should never put all your eggs in one basket and they're looking for something slightly more tangible. Something they can hold in their hands and feel the texture of and something that they know will always have a market value. Something like silver and gold coins! There are advertisements for gold coin and bullion investment opportunities all over on the Internet, television, newspapers and magazines, and these companies tout gold as the world's greatest investment is after all a noble metal scientifically speaking this means that it will not erode or become corrosive however in its most raw and natural form gold can develop a surface tarnish. When exposed to direct or intense sunlight. This tarnish which can be easily polished away is known as sunburn gold and as beautiful and a rock solid investment as gold is it is also very expensive the current price. For one, troy ounce of gold is 1,306.72 and the current price for a 1 ounce gold coin is between 1,327.10 and 1,403.96 US dollars. So for a lot of people investing in gold coins is slightly out of reach. However, silver is a slightly more reasonable choice. A 1 ounce silver coin currently sells for between 23.02 and 28.38 US dollars although the price may seem to be bargain-basement compared to the price of gold in the eyes of the two investors. It looks like an opportunity, because silver is still a finite resource, meaning that it is limited, and eventually the price will increase, although it may take a considerable time for you to see significant return in value based solely on the value of the silver itself. Silver coins often have a significant value to collectors above and beyond, a monetary investment. The Complete Guide to Investing in Gold and Precious Metals Alan Northcott,2011 As the U.S. economy struggles to recover from the worst

economic crisis since the Great Depression, citizens across the country are searching for alternative investment vehicles. Many are finding solace in a precious metal that has been a universal measure of wealth since early civilization: gold. Investment brokers and novices alike are reaping the benefits that come with diversifying their investments. Gold's value is determined by a number of factors including the volume of the metal held by prosperous countries, the rarity of the metal as it is refined, and current market trends, such as inflation and the movement of the investment market. In 1910, gold was worth \$20 an ounce; a century later, in 2010, the value of gold reached nearly \$1,120 an ounce. This book discusses where the value of these metals first originated and how they have evolved over the course of human history. You will learn how practical uses of precious metals have directly affected their value over time and how metals like gold and silver are direct indicators of the current state of the economy. Most importantly, you will learn to recognize market trends that pinpoint the risk of inflation and the exodus from stock to precious metals that will often occur as a result. You will learn how to use mutual funds and futures to diversify your portfolio without spreading yourself too thin. With advice from dozens of financial experts and commodities traders, you will learn how to maximize your return and minimize your risk. If you are looking to diversify your portfolio and protect your investments, *The Complete Guide to Investing in Gold and Precious Metals* is your handbook for making the most from your investment. Zakat Practical Guide Kazi Mohammed Riyazuddin, 2023-03-21 Traditionally, gold and silver were considered stores of value. With the passage of time, new forms of wealth have emerged ranging from land and building to shares, bonds, fixed deposits, currencies, annuities, insurance policies, wallets, MF, PF, et al, with ownership in sole proprietorship concerns, partnership firms, private companies, public companies, trusts, and societies. This requires expertise in finance and accounting while applying principles of zakat for determining zakat liability accurately. The book "Zakat Practical Guide" is an exercise in calculating zakat liability on all types of wealth. Besides the basic concepts, the book contains a number of case studies for the

calculation of the zakat of salaried persons, manufacturers, businessmen, professionals, investors, and agriculturists. Truly it is a practical guide.

Going for Gold Zoltan Erdey, 2020-03-10 Do you want to build your wealth and secure your financial future? Do you want to ensure that inflation does not eat away at everything that you have worked so hard for? Do you want to own wealth outside of the paper financial system? If your answer to these three questions is yes, then you need to own real money. Not rands, dollars or euros: these are merely fiat currencies. You want to own gold and silver, as without them, your wealth is only worth the value of the ink and the paper on which it is printed. For thousands of years, holders of gold and silver have discovered that both metals are monetary antidotes against global financial chaos caused by debt, fiscal imprudence and ad infinitum money-printing. The proprietor of even a few ounces of gold is not only an investor but an individual with the assurance that their wealth and purchasing power remains preserved. **Going for Gold** is not an attempt to coerce investors into allocating a portion of their total investment portfolio to precious metals. Rather, it speaks directly to the South African investor and declutters and contextualises the vast amounts of information available about precious metals, providing counsel that the mainstream financial industry has disregarded at best, and suppressed at worst.
