Dark Ecology Timothy Morton,2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

Lucifer Over London Chloe Aridjis,Viola di Grado,Xiaolu Guo,2020-11-12 London, a city of constant transition, transaction, translation. London does not exist; London is a language without a place and it is the aphasic city; it's the mother of all languages. *Lucifer Over London* is a new anthology nine narrative essays written by a host of international prize-winning authors including Chloe Aridjis, Viola di Grado, Xiaolu Guo, Joanna Walsh and Zinovy Zinik. First published in Italy by Humboldt Books, *Lucifer Over London* is now appearing in English for the first time. This is a version of London as seen from the immigrants of recent migrations, of deportations to come, from those who create London even as they contradict it.

The Collected Works of Walter Pater, Vol. IX: Correspondence Robert Seiler,2023-01-05 *Imaginary Portraits* is volume 3 in the ten-volume *Collected Works of Walter Pater*. Among Victorian writers, Pater (1839-1894) challenged academic and religious orthodoxies, defended 'the love of art for its own sake', developed a new genre of prose fiction (the 'imaginary portrait'), set new standards for intermedial and cross-disciplinary criticism, and made 'style' the watchword for creativity and life. Pater's *Imaginary Portraits* are among some of the most stylish and original pieces of short fiction in Victorian literature: portrayals of a series of handsome male protagonists across the ages of European history, set against a range of evocative European backdrops from Classical Greece to Medieval France, eighteenth-century Germany and modern England. Together, they constitute a remarkable testimony to Pater's profound understanding of centuries of cultural history, reworked in the hybrid genre of the imaginary portrait as sophisticated portrait miniatures of minor characters touched and affected by major moments in European history. They question central issues of nationhood and belonging, a Pan-European cultural identity, and the fate of the individual in the face of collective history. As formative texts for Modernist writers like Joyce, Eliot, and Woolf, Pater's *Imaginary Portraits* had an impact which reached far beyond the nineteenth century.

First, Do No Harm Lisa Belkin,2021-02-16 "Crammed with provocative insights, raw emotion, and heartbreaking dilemmas," (The New York Times) *First, Do No Harm* is a powerful examination of how life and death decisions are made at a major metropolitan hospital in Houston, as told through the stories of doctors, patients, families, and hospital administrators facing unthinkable choices. What is life worth? And when is a life worth living? Journalist Lisa Belkin examines how these questions are asked and answered over one dramatic summer at Hermann Hospital in Houston, Texas. In an account that is fascinating, revealing, and almost novelistic in its immediacy, Belkin takes us inside a major hospital and introduces us to the people who must make life and death decisions every day. As we walk through the hallways of the hospital we meet a young pediatrician who must decide whether to perform a risky last-ditch surgery on a teenager who has spent most of his fifteen years in a hospital; we watch as new parents battle with doctors over whether to disconnect their fragile, premature twins from the machine that keeps them breathing; we are in the operating room as a poor immigrant, paralyzed from a gunshot in the neck, is asked by doctors whether or not he wishes to stay alive; we witness the worry of a kidney specialist as he decides whether or not to transfer an uninsured baby to the county hospital down the road. We experience critical moments in the lives of these real people as Belkin explores challenging issues and questions involving medical ethics, human suffering, modern technology, legal liability, and financial reality. As medical technology advances, the choices grow more complicated. How far should we go to save a life? Who decides? And who pays?
