Bloggers Boot Camp Charlie White,John Biggs,2014-04-16 Anyone can build a blog. It's quite easy. The difficult part is keeping it relevant, technically sound, and popular. Bloggers Boot Camp shows you how to blog for success. It teaches you how to find a niche, find your unique voice, and how to hold a conversation with an audience. It provides information on all the right tools for the blog, and it offers best ways to promote your blog and content for maximum success and a profitable life. Though rules in creating compelling content haven't really changed, ways in which the world blogs has since the last edition. The authors have learned a lot about social media since writing the previous edition's manuscript. They understand and know how social media can make or break a blog. Microblogging is a new trend brought on by the wide utilization of social media. To that same end, networking with other bloggers and content creators on the web is another form of building one's blog and one's reputation as a writer.

What School Leaders Need to Know About Digital Technologies and Social Media Scott McLeod,Chris Lehmann,2011-10-25 Facebook, Twitter, Google...today's tech-savvy students are always plugged in. However, all too often their teachers and administrators aren't experienced in the use of these familiar digital tools. If schools are to prepare students for the future, administrators and educators must harness the power of digital technologies and social media. With contributions from authorities on the topic of educational technology, What School Leaders Need to Know About Digital Technologies and Social Media is a compendium of the most useful tools for any education setting. Throughout the book, experts including Will Richardson, Vicki Davis, Sheryl Nussbaum-Beach, Richard Byrne, Joyce Valenza, and many others explain how administrators and teachers can best integrate technology into schools, helping to make sense of the often-confusing world of social media and digital tools. They offer the most current information for the educational use of blogs, wikis and podcasts, online learning, open-source courseware, educational gaming, social networking, online mind mapping, mobile phones, and more, and include examples of these methods currently at work in schools. As the book clearly illustrates, when these tools are combined with thoughtful and deliberate pedagogical practice, it can create a transformative experience for students, educators, and administrators alike. What School Leaders Need to Know About Digital Technologies and Social Media reveals the power of information technology and social networks in the classroom and throughout the education community.

Public Relations in Asia Pacific Mary M. Devereux,Anne Peirson-Smith,2011-12-08 Public Relations in Asia Pacific reflects the growing professionalism in the practice of public relations in the world's fastest expanding economy. It is a carefully drawn road map, both strategically and tactically, for all manner of entities, for profit and not-for-profit on how to establish and maintain effective relationships with their numerous stakeholders. Particularly insightful are the many examples of public relations in action within the Asia Pacific region. It's a "must" read for those interested in public relations careers and those new to the profession; and it's a first-rate refresher for the established professional. —Harold Burson, Founding Chairman, Burson-Marsteller Worldwide Mary Devereux and Anne Peirson-Smith have combined their considerable talents and experience to produce a bible of how public relations is—and should be—practiced in the Asia Pacific. One of its many virtues is that it debunks the myth that PR is just one long lunch hosted by caricature Svengalis and Spin Doctors. Rather, it sets the profession in a cultural context that will be valuable to those starting at PR 101, professionals and corporate executives who want to know how truth can be well told (with all due credit to McCann Erickson). —Kerry McGlynn, Special Adviser, Corporate Communication Department, Cathay Pacific Airways As greater social pluralism, stakeholder influence and internet driven consumer sophistication and empowerment grow relentlessly across nearly all Asian societies, Public Relations in Asia Pacific is a timely guide to the critical role of good public relations. Clear, helpful and with a wealth of good examples of how best practice PR in action can make real and tangible contributions to governments, businesses, NGOs as well as to ordinary people, this is essential reading for anyone concerned with how to communicate well in the world's fastest growing economic region. —Tim Sutton, Chairman Asia Pacific, Weber Shandwick In an increasingly globalized world, public relations practices and strategies become critical for organizations to communicate effectively to their diverse audiences worldwide. This book is therefore an extremely timely and relevant contribution to PR students and practitioners in the Asia-Pacific region as it provides not only a comprehensive overview of the essential concepts and skills of public relations but also specific case studies which illustrate tactical uses of public relations across a wide range of issues and countries. In my opinion, this book fills a major gap in the understanding of public relations concepts and

practices and will constitute a fundamental resource for all those who aspire to excel within the field. —Dr. Indrajit Banerjee, Secretary-General, Asian Media Information and Communication Centre (AMIC)

The Runaway Species David Eagleman, Anthony Brandt, 2018-06-19 This enlightening examination of creativity looks “at art and science together to examine how innovations . . . build on what already exists and rely on three brain operations: bending, breaking and blending” (*The Wall Street Journal*) *The Runaway Species* is a deep dive into the creative mind, a celebration of the human spirit, and a vision of how we can improve our future by understanding and embracing our ability to innovate. David Eagleman and Anthony Brandt seek to answer the question: what lies at the heart of humanity’s ability—and drive—to create? Our ability to remake our world is unique among all living things. But where does our creativity come from, how does it work, and how can we harness it to improve our lives, schools, businesses, and institutions? Eagleman and Brandt examine hundreds of examples of human creativity through dramatic storytelling and stunning images in this beautiful, full-color volume. By drawing out what creative acts have in common and viewing them through the lens of cutting-edge neuroscience, they uncover the essential elements of this critical human ability, and encourage a more creative future for all of us. “The Runaway Species approach[es] creativity scientifically but sensitively, feeling its roots without pulling them out.” —*The Economist*
