100 Questions and Answers to help you land your Dream Android Job Enrique López Mañas, 2015-07-13 There is a boom in the mobile applications market. It has been projected that by 2015 more than a billion (with a billion) smartphones will be sold, twice as many as the number of personal computers. Mobile channels are increasing their revenues figures, with percentages over 100% being the norm and not the exception. Each business needs a mobile application, and therefore the demand of engineers, UX designers and QA testers is under huge demand. There is far more demand for jobs than offer, and the situation is even more optimistic for senior developers. *100 Questions and Answers to help you land your Dream Android Job* collects 100 questions and answers, divided in three levels, that the author has been summarising during several years both as an interviewer and as a candidate. If you are looking for a position as an Android developer, no matter how experienced you are, or if you are looking to hire new members for your organisation, this book will provide you all the material you need to take the right decision and hire the right candidate!
