Google Wallet - a Glimpse Into the Future of Mobile Payments Rohan Handa,Kritika Maheshwari,Malvika Saraf,2011-12 Project Report from the year 2011 in the subject Information Management, University of Southern California, language: English, abstract: Over the past few thousand years of evolution, the way we pay has changed shapes and materials. It has gone from gold to coins, paper money to plastic cards and now with Google's venture into the mobile payment industry, we are at the threshold of the next big shift. Google Wallet is a mobile payment Android app that transforms a phone into a wallet. This app utilizes the Near Field Communication (NFC) technology that allows its users to pay for purchased items and redeem offers. At this initial stage of business, there are many features and factors that Google needs to change in order to bring about the mass adoption of this service. As the Business Technology Analysts at Google, we - Kritika Maheshwari, Malvika Saraf and Rohan Handa aim at addressing the hurdles for this technology and the methods to bring it to fruition. In the process we evaluate Google's profit motivation and the bigger strategy behind this service. First, we explain the business approach which describes the importance of the adopted business model. We use Porter's Five Force analysis to determine the competitive intensity in the market followed by SWOT analysis to give recommendations that will help in the mass adoption. Finally, we focus our paper on formulating a strategy canvas in order to study the existing payment methods in comparison to our service. The paper concludes with recommendations to Google for promoting wide customer acceptance.

On the Move to Meaningful Internet Systems: OTM 2009 Robert Meersman,Tharam Dillon,Pilar Herrero,2009-11-06 Internet-based information systems, the second covering the large-scale in- gration of heterogeneous computing systems and data resources with the aim of providing a global computing space. Eachofthesefourconferencesencouragesresearcherstotreattheirrespective topics within a framework that

incorporates jointly (a) theory, (b) conceptual design and development, and (c) applications, in particular case studies and industrial solutions. Following and expanding the model created in 2003, we again solicited and selected quality workshop proposals to complement the more archival nature of the main conferences with research results in a number of selected and more avant-garde areas related to the general topic of Web-based distributed computing. For instance, the so-called Semantic Web has given rise to several novel research areas combining linguistics, information systems technology, and artificial intelligence, such as the modeling of (legal) regulatory systems and the ubiquitous nature of their usage. We were glad to see that ten of our earlier successful workshops (ADI, CAMS, EI2N, SWWS, ORM, OnToContent, MONET, SEMELS, COMBEK, IWSSA) re-appeared in 2008 with a second, third or even fourth edition, sometimes by alliance with other newly emerging workshops, and that no fewer than three brand-new independent workshops could be selected from proposals and hosted: ISDE, ODIS and Beyond SAWSDL. Workshop sessions productively mingled with each other and with those of the main conferences, and there was considerable overlap in authors.

Ulterior Motives (Covert Missions Book #3) Mark Andrew Olsen, 2009-03-01 When an al-Qaida email is intercepted, promising a New Year's Day attack on America, it leads to the capture of the group's leader. But even under fierce interrogation, the terrorist clings to his jihadist beliefs and resists divulging anything of the threat. Desperate, the Army resorts to a contingency plan that proposes to break a subject's resistance by inducing a religious conversion. One hitch: the top-secret attempt must be masked as an offer of clemency, and must rely on a completely innocent mentor, a so-called witness who is unaware of the project's true aims. They find that witness in Greg Cahill, a disgraced FBI agent who has since turned to Christ and serves in a prison ministry. Lured by an offer of restoration, as well as the lifting of a restraining order that's keeping him from seeing his son, Greg begins an unlikely friendship with a man the entire country despises. Despite himself, he begins to share his faith--yet with a combustible result unforeseen by either himself or his government handlers.
