**Gang Green** Gerald Eskenazi,1998 NEW YORK TIMES sportswriter Gerald Eskenazi recounts the improbable happenings, bad luck, poor decisions, and sheer strangeness that typify the mystifying approach to professional football of the only team--since the 1970 AFL-NFL merger--that has never won a division title. Fans will love this hilarious, yet poignant trip down memory lane. photos.

Hustle Harder, Hustle Smarter Curtis "50 Cent" Jackson,2020-04-28 NEW YORK TIMES BESTSELLER For the first time, Curtis "50 Cent" Jackson opens up about his amazing comeback—from tragic personal loss to thriving businessman and cable's highest-paid executive—in this unique self-help guide, his first since his blockbuster New York Times bestseller *The 50th Law*. In his early twenties Curtis Jackson, known as 50 Cent rose to the heights of fame and power in the cutthroat music business. A decade ago the multi-platinum selling rap artist decided to pivot. His ability to adapt to change was demonstrated when he became the executive producer and star of *Power*, a high-octane, gripping crime drama centered around a drug kingpin's family. The series quickly became "appointment" television, leading to Jackson inking a four-year, \$150 million contract with the Starz network—the most lucrative deal in premium cable history. Now, in his most personal book, Jackson shakes up the self-help category with his unique, cutting-edge lessons and hard-earned advice on embracing change. Where *The 50th Law* tells readers "fear nothing and you shall succeed," *Hustle Harder, Hustle Smarter* builds on this message, combining it with Jackson's street smarts and hard-learned corporate savvy to help readers successfully achieve their own comeback—and to learn to flow with the changes that disrupt their own lives.

*World Class* Peggy Shinn,2018-02-06 What makes a great team? Sports journalist Peggy Shinn answers this question in her enthralling account of the dramatic rise of the U.S. women's cross-country ski team, winners of eight medals at three world championships over the past five years. Shinn's story - based on dozens of interviews with athletes, coaches, parents, spouses, and friends - paints a vivid picture of the obstacles that America's female athletes must overcome not just to ski with the world's best, but to beat them. In a sport where U.S. women have toiled for decades, mostly in the middle or the back of the pack, the development of a world-class team attests to the heady combination of a transformational leader, a coach who connects with his athletes, the super-fast individual skiers who are also conscientious teammates - and a bit of good luck. This is the story of Kikkan Randall, Liz Stephen, Holly Brooks, Jessie Diggins, Ida Sargent, Sadie Bjornsen, Sophie Caldwell, Rosie Brennan, and coach Matt Whitcomb - and how they created the perfect team.

Best Backcountry Skiing in the Northeast David Goodman,2020-12-14 Updated for the first time in ten years, the bible of Eastern backcountry skiing returns with an all-new edition, fully revised to reflect the latest and greatest off-piste lines--as well as the trove of newly created and rehabilitated ski glades in New Hampshire, Vermont, Maine, New York, and Massachusetts.

**International Internet Law** Joanna Kulesza,2012-03-15 This book discusses the international legal issues underlying Internet Governance and proposes an international solution to its problems. The book encompasses a wide spectrum of current debate surrounding the governance of the internet and focuses on the areas and issues which urgently require attention from the international community in order to sustain the proper functioning of the global network that forms the foundation of our information fuelled society. Among the topics discussed are international copyright protection, state responsibility for cyber-attacks (cyberterrorism), and international on-line privacy protection. Taking a comparative approach by examining how different jurisdictions such as the United States, the European Union, China and Singapore have attempted various solutions to the problem of Internet Governance, the author offers a practical solution to the problem and is a proponent of International Internet Law. Kulesza suggests that just as in the case of International Environmental Law, an Internet Framework Convention could shape the starting point for

international cooperation and lead to a clear, contractual division of state jurisdictional competences. International Internet Law is of particular interest to legal scholars engaged with the current challenges in international law and international relations, as well as students of law, international relations and political science. The issues discussed in the book are also relevant to journalists and other media professionals, facing the challenges of analyzing current international developments in cyberspace.

**Drafting Legislation** Helen Xanthaki, 2014-10-16 This book constitutes the first thorough academic analysis of legislative drafting. By placing the study of legislation and its principles within the paradigm of Flyvberg's phronetic social sciences, it offers a novel approach which breaks the tradition of unimaginative past descriptive reiterations of drafting conventions. Instead of prescribing rules for legislation, it sets out to identify efficacy as the main aim of the actors in the policy, legislative and drafting processes, and effectiveness as the main goal in the drafting of legislation. Through the prism of effectiveness as synonymous with legislative quality, the book explores the stages of the drafting process; guides the reader through structure and sections in their logical sequence, and introduces rules for drafting preliminary, substantive and final provisions. Special provisions, comparative legislative drafting and training for drafters complete this thorough analysis of the drafting of legislation as a tool for regulation. Instead of teaching the reader which drafting rules prevail, the book explores the reasons why drafting rules have come about, thus encouraging readers to understand what goal is served by each rule and how each rule applies. The book is aimed at academics and practitioners who draft or use statutory law in the common or civil law traditions.

**The Blissfully Dead** Professor of Early Christian Studies Mark Edwards, Dr, Mark Edwards, Louise Voss, 2015-09-29 When the body of a teenage girl is found in a London hotel, DI Patrick Lennon is mystified. Nobody saw her or her killer enter the hotel, and there is no apparent motive--until a second teenager is found and Lennon realises somebody is targeting fans of the world's biggest boy band. As Lennon struggles with both his home life and his rivals on the force, the pressure to catch the killer before he strikes again reaches fever pitch. And when Lennon makes a terrible mistake that ends in disaster, he finds himself in a race to save not only the lives of more teenage girls but also his own career.--Page [4] of cover.

**After Access** Jonathan Donner, 2015-11-20 An expert considers the effects of a more mobile Internet on socioeconomic development and digital inclusion, examining both potentialities and constraints. Almost anyone with a \$40 mobile phone and a nearby cell tower can get online with an ease unimaginable just twenty years ago. An optimistic narrative has proclaimed the mobile phone as the device that will finally close the digital divide. Yet access and effective use are not the same thing, and the digital world does not run on mobile handsets alone. In *After Access*, Jonathan Donner examines the implications of the shift to a more mobile, more available Internet for the global South, particularly as it relates to efforts to promote socioeconomic development and broad-based inclusion in the global information society. Drawing on his own research in South Africa and India, as well as the burgeoning literature from the ICT4D (Internet and Communication Technologies for Development) and mobile communication communities, Donner introduces the "After Access Lens," a conceptual framework for understanding effective use of the Internet by those whose "digital repertoires" contain exclusively mobile devices. Donner argues that both the potentialities and constraints of the shift to a more mobile Internet are important considerations for scholars and practitioners interested in Internet use in the global South.

**The Centered Skier** Denise McCluggage, 1986-10-01

**Retro-Ski** Greg Morrill, 2013-11 Author, columnist, and longtime skiing fanatic Greg Morrill takes a look back at the history of the sport, recalling memories from days gone by. In each chapter Morrill poses a trivia question relating to a topic in skiing history and explores related topics through both personal memories and historical research--Page [4] of cover.

Information and Communication Technology for Development (ICT4D) Richard Heeks, 2017-11-08 Mobile phones are close to ubiquitous in developing countries; Internet and broadband access are becoming commonplace. Information and communication technologies (ICTs) thus represent the fastest, broadest and deepest technical change experienced in international development. They now affect every development sector – supporting the work of hundreds of millions of farmers and micro-entrepreneurs; creating millions of ICT-based jobs; assisting healthcare workers and teachers; facilitating political change; impacting climate change; but also linked with digital inequalities and harms – with the pace of change continuously accelerating. Information and Communication Technology for Development (ICT4D) provides the first dedicated textbook to examine and explain these emerging phenomena. It will help students, practitioners, researchers and other readers understand the place of ICTs within development; the ICT-enabled changes already underway; and the key issues and interventions that engage ICT4D practice and strategy. The book has a three-part structure. The first three chapters set out the foundations of ICT4D: the core relation between ICTs and development; the underlying components needed for ICT4D to work; and best practice in implementing ICT4D. Five chapters then analyse key development goals: economic growth, poverty eradication, social development, good governance and environmental sustainability. Each chapter assesses the goal-related impact associated with ICTs and key lessons from real-world cases. The final chapter looks ahead to emerging technologies and emerging models of ICT-enabled development. The book uses extensive in-text diagrams, tables and boxed examples with chapter-end discussion and assignment questions and further reading. Supported by online activities, video links, session outlines and slides, this textbook provides the basis for undergraduate, postgraduate and online learning modules on ICT4D.

**Researching Forensic Linguistics** Georgina Heydon, 2019-05-15 Researching Forensic Linguistics is an informative, hands-on guide to conducting research in forensic linguistics that can underpin legal and justice practices and address social justice problems involving language. Georgina Heydon takes readers step by step through the research process using case studies that draw on different types of forensic and legal language data such as police interviews, anonymous reports of sexual assault, threatening letters and justice stakeholder interviews. Each chapter is framed by a language problem arising from either forensic linguistic case work or a key issue in language and the law. Up-to-date research methods in forensic linguistics are presented, including authorship attribution using online corpora, practice-based linguistic analysis and experimental techniques. This is an ideal companion for linguists who want to apply their skills to a forensic setting, practitioners in the legal and justice fields seeking to understand how linguistic analysis can support their work, and any student undertaking research in forensic linguistics within English language, linguistics, applied linguistics and legal studies.

*An Introduction to Danish Culture* Norman Berdichevsky, 2011-10-10 Denmark, the southernmost Nordic nation, remains little-known to many citizens of the world. Too often conflated with its Scandinavian neighbors to the north, it is a land of generally flat terrain, with an inviting temperate climate. The land of the Danes has much to offer visitors, and this guide to Danish society, culture, and history offers an inside look, with details on Denmark's substantial contributions to science, engineering, exploration, seafaring, literature, philosophy, music, architecture, and many other fields. Brief portraits depict such Danes as Clown Prince Victor Borge, Hans Christian Andersen, Kierkegaard, and Out of Africa author Karen Blixen. Throughout, there is a focus upon Denmark's human rights record, democratic institutions, and humanistic traditions. By examining Danish culture, this work fosters a greater understanding of Denmark, its people, and their way of life.

*The Physics of Filter Coffee* Jonathan Gagné, 2021-04-15 The Physics of Filter Coffee is a deep dive into the science behind coffee brewing. In the book, renowned astrophysicist Jonathan Gagné brings welcome scientific expertise to coffee making. Not only does the book contain numerous original ideas about coffee brewing, but Jonathan lays to rest many controversial ideas about coffee making.

**The Last Mermaid** Shana Abé,2008-04-29 Shana Abé has entranced countless readers with her passion-filled novels of adventure, intrigue, and romance. Now the author of *The Secret Swan* delivers a gift from the sea: three hauntingly beautiful tales connected by a legend, a locket, and a love beyond time. 531 a.d.: The tiny island of Kell is said to be enchanted, inhabited by an extraordinary creature who comforts shipwrecked sailors passing into the next world. Prince Aedan of the Isles believes in no such nonsense—until he awakens on Kell itself and meets the sensuous siren who rescued him from the sea. 1721: Ronan MacMhuirich, Earl of Kell, is the target of an unlikely assassin: Leila, a mysterious woman from an exotic land. But his irresistibly beautiful would-be slayer is in just as much danger as Ronan when she falls for this man with a magic of his own. 2004: What do you do when you inherit a Scottish island you never knew existed—and find yourself pursued by a handsome stranger who wants to buy it from you? That’s what happens to Ruri Kell when she accepts Iain MacInnes’s invitation to visit her birthright, and listens to a proposition as sinfully tempting as everything else about him. Three seductive love stories, three passionate couples, all linked by one of the most romantic myths of all.
