The NexStar User's Guide II Michael Swanson, 2017-10-31 Michael Swanson's online discussions with literally thousands of NexStar owners made it clear that there was a desperate need for a book such as this – one that provides a complete, detailed guide to buying, using and maintaining NexStar telescopes. Although this book is highly comprehensive, it is suitable for beginners – there is a chapter on Astronomy Basics – and experts alike. Celestron's NexStar telescopes were introduced in 1999, beginning with their first computer controlled go to model, a 5-inch. More models appeared in quick succession, and Celestron's new range made it one of the two dominant manufacturers of affordable go to telescopes.

Vultures' Picnic Deluxe Greg Palast, 2011-11-15 An enhanced eBook featuring fifteen videos from investigative reporter Greg Palast's globetrotting, Sam Spade-style investigation—including extraordinary footage of pre-dawn stake-outs of billionaire financial vultures, narrowly avoiding prison in Azerbaijan (shot with a spy-pen camera), exploring the inside a whale carcass in the Arctic and trekking deep in the Amazon rainforest. Watch as Palast connects the dots of corruption between the oil industry, the financial sector, and the government. On April 20, 2010, BP's Deepwater Horizon exploded in the Gulf of Mexico, killing eleven men and spilling million of barrels of crude oil into the water. Days later, a confidential cable arrives on investigative reporter Greg Palast's desk from a terrified insider. He has the real, hushed-up facts of the disaster—facts that can only be found buried in the files of a Central Asian dictatorship. Taking him and his team of journalist-detectives from the streets of Baku, where Palast searches for a brown valise full of millions, to a small Eskimo village where he hears first hand of the depth of deceit and heartbreaking environmental devastation, to a burnt out nuclear reactor in Japan to Chevron's operations in the Amazon jungle, Vultures' Picnic charts the course of Palast's quest to bring the truth of the BP disaster to light. Along the way, we see the many other crimes perpetrated by the energy giants of the worlds, the banks that fund their lies, and the governments that turn a blind eye. Like a page-turning spy thriller, full of mystery, intrigue, and featuring a reporter with

the guts to get arrested, chase down insiders, or stakeout a Vulture in the still of a winter morning, Vultures' Picnic is pulp non-fiction at its best. It's a journey into the corrupt heart of Big Oil, and behind it, Bigger Finance, exposing once and for all the corporate vultures that feed on the weak, and poison our planet.

Trace Metals in a Tropical Mangrove Wetland Santosh Kumar Sarkar,2017-08-09 This book offers a comprehensive and accessible guide covering various aspects of trace

metal contamination in abiotic and biotic matrices of an iconic Indian tropical mangrove wetland – Sundarban. Divided into nine chapters, the book begins by discussing the fundamental concepts of sources, accumulation rate and significance of trace metal speciation, along with the impact of multiple stressors on trace metal accumulation, taking into account both tourist activities and the exacerbating role of climate change. The second chapter presents a detailed account of the sampling strategy and preservation of research samples, followed by exhaustive information on sediment quality assessment and ecological risk, instrumental techniques in environmental chemical analyses, quality assurance and quality control, along with the Sediment Quality Guidelines (SQGs). Using raw data, the sediment quality assessment indices (e.g., pollution load index, index of geoaccumulation, Nemerow Pollution Load Index etc.) and conventional statistical analyses are worked out and interpreted precisely, allowing students to readily evaluate and interpret them. This is followed by chapters devoted to trace metal accumulation in sediments and benthic organisms, as well as acid-leachable and geochemical fractionation of trace metals in sediments. The book then focuses on chemical speciation of butylin and arsenic in sediments as well as macrozoobenthos (polychaetous annelids). Finally, potential positive role of the dominant mangrove Avicennia in sequestering trace metals from rhizosediments of Sundarban Wetland is elaborately discussed. This timely reference book provides a versatile and in-depth account for understanding the emerging problems of trace metal contamination – issues that are relevant for many countries around the globe.
