Big Brother Mark Dice,2011-01 In Big Brother: The Orwellian Nightmare Come True, Mark Dice details actual NSA high-tech spy systems, mind-reading machines, secret government projects, and emerging artificial intelligence programs that seem as if they came right out of George Orwell's novel Nineteen Eighty-Four. Orwell's famous book was first published in 1949, and tells the story of a nightmarish future where citizens have lost all privacy and are continuously monitored by the omniscient Big Brother surveillance system which keeps them obedient to a totalitarian government. The novel is eerily prophetic as many of the fictional systems of surveillance described have now become a reality. Mark Dice shows you the scary documentation that Big Brother is watching you, and is more powerful than you could imagine. - The National Security Agency - Facial Recognition Scanners - Mind Reading Machines - Neural Interfaces - Psychotronic Weapons - Orwellian Government Programs - The Nanny State - Orwellian Weapons - Artificial Intelligence - Cybernetic Organisms - A Closer Look at 1984 - Our Social Structure - The Control of Information - Perpetual State of War - The Personification of the Party - Telescreens - A Snitch Culture - Relationships in Shambles - A Heartless Society - Foreign Countries Painted as Enemies - Power Hungry Officials - An Erosion of the Language - Double Think - And More! Emerging Technologies Applicable to Hazardous Materials Transportation Safety and Security William H. Tate,Mark David Abkowitz,2011 Explores near-term (less than 5 years) and longer-term (5-10 years) technologies that are candidates for enhancing the safety and security of hazardous materials transportation for use by shippers, carriers, emergency responders, or government regulatory and enforcement agencies. The report examines emerging generic technologies that hold promise of being introduced during these near- and longer-term spans. It also highlights potential impediments (e.g., technical, economic, legal, and institutional) to, and opportunities for, their development, deployment, and maintenance. The research focused on all modes used to transport hazardous materials (trucking, rail, marine, air, and pipeline) and resulted in the identification of nine highly promising emerging technologies.--Provided by publisher.

Engineering, Science, and Sustainability Dimitrios A Karras,Sai Kiran Oruganti,Sudeshna Ray,2023-09-28 ISC 2022 is dedicated to the Niti Aayog policies to promote sustainability through exchange of ideas emerging out of the academia. The ISC is an annual conference that is held in virtual mode until COVID restrictions on travel exist. The vision of the conference is to capacitate Academia with the necessary ideas that provide insights of the grassroot level development to various stakeholders of the Niti-Aayog policies. Towards this goal, the conference creates a conjunction of various stakeholders of Niti-Aayog policies that include- academic institutions, government bodies, policy makers and industry. The ISC organizers make concerted efforts to promote academic research that would technological, scientific, management & business practices, and insights into policy merits & disruptions. The framework of exchange of ideas is geared towards adoption of deep technologies, fundamental sciences & engineering, energy research, energy policies, advances in medicine & related case studies. This framework enables the round table discussions between the academia, industry and policy makers through its range of plenary and keynote speakers.

The Future of Digital Business Innovation Vincenzo Morabito,2016-03-05 This book identifies and discusses the main challenges facing digital business innovation and the emerging trends and practices that will define its future. The book is divided into three sections covering trends in digital systems, digital management, and digital innovation. The opening chapters consider the issues associated with machine intelligence, wearable technology, digital currencies, and distributed ledgers as their relevance for business grows. Furthermore, the strategic role of data visualization and trends in digital security are extensively discussed. The subsequent section on digital management focuses on the impact of neuroscience on the management of information systems, the role of IT ambidexterity in managing digital transformation, and the way in which IT alignment is being reconfigured by digital business. Finally, examples of digital innovation in practice at the global level are presented and reviewed. The book will appeal to both practitioners and academics. The text is supported by informative illustrations and case studies, so that practitioners can use the book as a toolbox that enables easy understanding and assists in exploiting business opportunities involving digital business innovation.

AI-Driven Volunteer Selection Jesko Elsner,2015-03-03 In case of medical emergency situations, a Volunteer Notification System aims to alarm potential helpers who can arrive at the victim fast enough to provide cardiopulmonary resuscitation until the professional EMS arrive on scene. A simplistic solution for selecting the corresponding volunteers is described by a so called notification radius, i.e., alarming any volunteer with a geographic location that is within a maximum distance from the victim. Whilst the actual geographical distance is an important parameter to be considered, this work will illustrate that various additional decision parameters are of importance, and elaborate an AI-driven volunteer selection system to increase the reliability and efficiency of occurring notifications.

Advances in Communication, Devices and Networking Rabindranath Bera,Prashant Chandra Pradhan,Chuan-Ming Liu,Sourav Dhar,Samarendra Nath Sur,2020-07-27 This book covers recent trends in the field of devices, wireless communication and networking. It gathers selected papers presented at the International Conference on Communication, Devices and Networking (ICCDN 2019), which was organized by the Department of Electronics and Communication Engineering, Sikkim Manipal Institute of Technology, Sikkim, India, on 9–10 December 2019.
