Big Podcast – Grow Your Podcast Audience, Build Listener Loyalty, and Get Everybody Talking About Your Show David Hooper, 2019-03-12 Is it worth doing a podcast if nobody listens? You started your podcast because you want to: - Spread an important message - Share your passion - Make money But your podcast hasn't quite taken off like you thought it would. What happened? This book is for podcasters who can't quite figure out what they're doing wrong (and are ready to do things right). You'll learn: - Why your "natural personality" may be repelling to people and how to make it attract listeners to your podcast like a magnet (See p198) - What to do when a company tries to "lowball" you on advertising fees (do nothing, except send them the email on p424) - It's easy to screw up an interview. To be sure you don't run into any problems, use my "guest contract" on p311. - A six-word "trick" (learned from a 20-year radio veteran) that will instantly make you a better host (it's on p210) - 9 reasons to kill an interview before it happens – ignore these "red flags" and you'll be sorry (p299) - What Victoria's Secret models know about podcasting (even though you never hear them talk) – this lesson starts on p208! - Nervous on the mic? You have lots of company – 75% of podcasters to be exact. I give you a 5-step way to cure your "stage fright" on p229. - If you're scared of getting bad reviews, don't worry – I have three simple ways to handle critics on p236 (two of which can turn critics into fans) - Why copying top podcasters may be killing your podcast (I share the story on p116) and how to develop a podcasting style that works for you (and will attract more listeners) - My 3-step "episode teaser" formula – it's boring, but it works (get it on p110) - Thinking of doing a "daily" podcast? You must read p103 before you start. - Want to impress a guest? See the chapter starting on p321 for my 3-step followup "ritual" that will make being on your podcast unforgettable (and encourage guests to promote your episodes) And that's just the start ... This book contains my complete system on how to attract listeners, deliver your message effectively, and build a big podcast. You can't build a big podcast on hope. But you can build a big podcast. And if you're ready to do just that, read this book.

Westchester County Airport Kent Patterson, 2017-02-06 Westchester County Airport is referred to by the International Air Transport Association as HPN or, more endearingly by its patrons, White Plains Airport. The airport is unique in that it has the feel of a rural or regional airport but is within the New York metro area. Today, the airport bustles with traffic, accommodating commercial airlines, business, and private aviation. The golden age of aviation gave way to a major industry with the employment of modern airports featuring lighted concrete runways and new technologies like radio. In Westchester County, this all began with a seaplane operation at Rye-Cove in the early 1920s, followed by the call for a county airport in 1928, but it did not come to fruition until 1945. World War II generated a need for an airfield at Rye Lake, and by 1945, diminished defense needs permitted the transition from military airfield to county airport.

Understanding Manga and Anime Robin E. Brenner, 2007-06-30 Teens love it. Parents hate it. Librarians are confused by it; and patrons are demanding it. Libraries have begun purchasing both manga and anime, particularly for their teen collections. But the sheer number of titles available can be overwhelming, not to mention the diversity and quirky cultural conventions. In order to build a collection, it is important to understand the media and its cultural nuances. Many librarians have been left adrift, struggling to understand this unique medium while trying to meet patron demands as well as protests. This book gives the novice background information necessary to feel confident in selecting, working with, and advocating for manga and anime collections; and it offers more experienced librarians some fresh insights and ideas for programming and collections. This book gives the novice background information necessary to feel confident in selecting, working with, and advocating for manga and anime collections; and it offers more experienced librarians some fresh insights and ideas for programming and collections. In 2003 the manga (Japanese comics) market was the fastest growing area of pop culture, with 75-100% growth to an estimated market size of \$100 million retail. The growth has continued with a 40-50% sales increase in bookstores in recent years. Teens especially love this highly visual, emotionally charged and action-packed media imported from Japan, and its sister media, anime (Japanese animation); and libraries have begun purchasing both. Chock full of checklists and sidebars highlighting key points, this book includes: a brief history of anime and manga in Japan and in the West; a guide to visual styles and cues; a discussion of common themes and genres unique to manga and anime; their intended audiences; cultural differences in format and content; multicultural trends that manga and anime readers embrace and represent; and programming and event ideas. It also includes genre breakdowns and annotated lists of recommended titles, with a focus on the best titles in print and readily available, particularly those appropriate to preteen and teen readers. Classic and benchmark titles are also mentioned as appropriate. A glossary and a list of frequently asked questions complete the volume.

You Can't Get Much Closer Than This A.Z. Adkins, Andrew Z. Adkins, 2015-04-09 A young soldier's memoirs of fighting in WWII: "Fascinating . . . A personal record like this is a valuable resource to anyone interested in the period" (Military Model Scene). After the Citadel and Officer Candidate School, Andrew Z. Adkins Jr., was sent to the 80th Infantry Division, then training in the California-Arizona desert. There, he was assigned as an 81mm mortar section leader in Company H, 2nd Battalion, 317th Infantry Regiment. When the division completed training in December 1943, it was shipped in stages to the United

Kingdom and then Normandy, where it landed on August 3, 1944. Lieutenant Adkins and his fellow soldiers took part in light hedgerow fighting that served to shake the division down and familiarize the troops and their officers with combat. The first real test came within weeks, when the 2nd Battalion, 317th Infantry, attacked high ground near Argentan during the drive to seal German forces in the Falaise Pocket. While scouting for mortar positions in the woods, Adkins met a group of Germans and shot one of them dead with his carbine. This baptism in blood settled the question faced by every novice combatant: He was cool under fire, capable of killing when facing the enemy. He later wrote, "It was a sickening sight, but having been caught up in the heat of battle, I didn't have a reaction other than feeling I had saved my own life." Thereafter, the 2nd Battalion, 317th Infantry, took part in bloody battles across France, sometimes coping with inept leadership and grievous losses, even as it took hills and towns away from the Germans. In the fighting graphically portrayed here, Adkins acted with skill and courage, placing himself at the forefront of the action whenever he could. His extremely aggressive delivery of critical supplies to a cut-off unit in an embattled French town earned him a Bronze Star, the first in his battalion. This is a story of a young soldier at war, a junior officer's coming of age amid pulse-pounding combat. Before his death, Andy Adkins was able to face his memory of war as bravely as he faced war itself. He put it on paper, honest and unflinching. In 1944-45, he did his duty to his men and country—and here, he serves new generations of military and civilian readers.
