Henderson G. W.

English Grammar by Parallelism and Comparison (Classic Reprint) G. W. Henderson, 2017-10-27 Excerpt from English Grammar by Parallelism and Comparison This simple method of induction, parallelism and comparison, fully demonstrated in grammar has its advantages over other methods of today. Every teacher knows that one part of speech can not be fully understood until all the parts of speech are understood; and that all the parts of speech can not be fully understood until all the elements, words, clauses, and phrases are understood. By parallelism and comparison the teacher isolates the attention of pupils upon the language itself. They see the constant parallelism in the various uses of elements and by it proceed in groups, and in leaps and bounds to definite conclusions.
