The Hard Run Carol M. Green,2015-01-15 What is pain? What is your relationship with pain? What can you learn from pain? The Hard Run uses running stories to identify types of pain or discomfort and how to use that knowledge to improve your life. Is the pain you are currently suffering something you must endure? Is it truly damaging and must be stopped? Or is your current discomfort simply proof that you are alive and experiencing this mortal existence to its fullest? Let The Hard Run help you discover better relationships with various kinds of pain, so you may enjoy your life more fully! I would hope that the reader will be entertained, instructed, and motivated. Perhaps, some unfortunate life experiences can be avoided if one heeds the lessons within these pages. At the least, I would hope that this book helps the reader understand and appreciate the value of discomfort. There is a lesson in everything, whether we like it or not.

Devonshire Folk Tales Michael Dacre,2011-09-16 Devon is a county rich in history and folklore, the roots of which lie in the beliefs of ancient Celtic inhabitants. Long ago, whilst middle England was converted to Christianity, the Celtic people of the edge-lands were still Druids. With no explanation offered for the cycles of hardship and abundance, a large amount of folklore and superstition emerged. Moulded by the land, weather and generations of people's attempts to make sense of the world, these thirty tales are full of Devonshire wit and wisdom, and tell of the strange and macabre; memories of magic and otherworlds; and proud recollections of folk history. The captivating stories, brought to life with unique illustrations from the author, will be enjoyed by readers time and again.

Videojournalism Kenneth Kobre,2013-01-17 Videojournalism is a new field that has grown out of traditional print photojournalism, slideshows that

combine sound and pictures, public radio, documentary filmmaking and the best of television news features. This amalgam of traditions has emerged to serve the Internet's voracious appetite for video stories. Videojournalism is written for the new generation of backpack journalists. The solo videojournalist must find a riveting story; gain access to charismatic characters who can tell their own tales; shoot candid clips; expertly interview the players; record clear, clean sound; write a script with pizzazz; and, finally, edit the material into a piece worthy of five minutes of a viewer's attention. Videojournalism addresses all of these challenges, and more - never losing sight of the main point: telling a great story. This book, based on extensive interviews with professionals in the field, is for anyone learning how to master the art and craft of telling real short-form stories with words, sound and pictures for the Web or television. The opening chapters cover the foundations of multimedia storytelling, and the book progresses to the techniques required to shoot professional video, and record high quality sound and market the resulting product. Videojournalism also has its own website - go to just one URL and find all the stories mentioned in the book. You also will find various how-to videos on the site. To keep up with the latest changes in the field such as new cameras, new books, new stories or editing software, check the site regularly and like www.facebook.com/KobreGuide.
