GRE Vocabulary Flashcards 3.0 Vocab Vocab,2015-04-07 #1 Biggest Time-Wasting, Failure-Causing Advice Given by Well Meaning Teachers, Friends, and Even Parents The mistaken advice is this: Learn 10 new words daily and you'll know 3650 words in one year. The advice simply does not work because here is the fact: while most people are capable of learning 10 new words a day, but everybody forgets them within a week and many forget within 24 hours. Other versions of the same advice includes use 10 flashcards day, use a dictionary, read English novels, etc. Important: Please note that it is not your fault because it is the nature of the human mind. GRE Vocabulary Flashcards 3.0 is 3rd Generation Flashcards. 1st Generation Flashcards 1.0 - Paper flashcards You can select the flashcards of words you don't know and focus more on them Cumbersome to properly time your repetition. Paper flashcards are now obsolete for all practical purposes, but many students still use them. 2nd Generation Flashcards 2.0 - Computer-based simple flashcards For over 30 years, computer-based flashcards looked like flashcards but on screen. Limited in effectiveness. 3rd Generation

Flashcards 3.0 - Customized online vocab with audio with all the benefits of flashcards and advanced timing control for spaced repetition, with your learning history kept secure online for learning anywhere on mobile, PC, pad New and most powerful. Automatically available with your mobile phone, PC, pad. Learn whenever you get a little time free. Uses logic to show the words you need to review just in time for maximum memory. You end up revising hard words more frequently and easy words less so. Memorize 3 times faster, cutting your training time to 1/3 of normal. One or 2 Meanings with Short and Memorable Sentence Fragments You don't get 3 or 5 or 10 meanings and sentences that are impossible to remember (a dictionary is better if you want to do PhD on some aspects of words). You get short and memorable sentence fragments, so you can remember faster and better. Here are some examples (please notice how easily memorable the sentence fragments are): euphoria = elation, feeling of well-being or happiness USE = in a state of euphoria evade = to avoid USE = don't evade taxes excerpt = selection from a book, extract USE = excerpt of a new book illicit = unlawful, illegal USE = illicit liquor de facto = actual USE = de facto standard (Not full sentence) draconian = harsh USE = draconian laws prodigy = a person with extraordinary ability or talent USE = a child prodigy eke = to add to, supplement USE = to eke out a living Herculean = powerful, large USE = a Herculean task pyrrhic = a battle won with unacceptable losses USE = a pyrrhic victory Makes a Great Gift for Students Many parents and grandparents give it as a gift.

Gre Vocab Capacity Vince Kotchian, Brian McElroy, 2012-06-12 2015 version published on 12/29/14. Need a good way to remember that the word prodigal means wasteful? Just think of prada gal - a girl who spends all of her money on designer clothes. Brian McElroy (Harvard, '02) and Vince Kotchian (Boston College, '97), two of San Diego's most sought after test-prep tutors, provide a series of clever, unconventional, and funny memory devices aimed toward helping you to improve your vocabulary and remember words long-term so that you don't ever forget their meanings. Brian and Vince, combined, have been tutoring the test for over 20 years. They have analyzed all available official GRE tests to select the words that appear in this book. The vocabulary words in this book are best suited for students at a 9th-grade level or above. The words in this edition are specifically targeted toward the GRE exam, but they are also helpful for students who are preparing for other standardized tests such as the SAT, ACT, ISEE, SSAT, GMAT, LSAT or MCAT, or anyone at any age who simply wants to improve his/her knowledge of English vocabulary. Disclaimer: a few of our mnemonics might not be appropriate for kids - some contain adult language or situations. Over 950 of the words in this book appear in our other mnemonics book, SAT Vocab Capacity. So if you're easily offended, the SAT version might be a better choice. Why This Book Is Different If you're studying for the GRE, SAT, or for any other standardized test that measures your vocabulary, you may be feeling a little bit anxious - especially if you've taken a practice test and encountered words you didn't know (or maybe never even saw before)! Whether you have seven days or seven months to prepare for the test, you're going to want to boost your vocabulary. But it's not that simple - you've got to remember the words you learn. And on many GRE text completion and sentence equivalence questions, getting the right answer comes down to knowing the precise definition of the words. You could make vocabulary flashcards. You could look up words you don't know. You could read a book with lots of big words. But unless you give your brain a way to hold on to the words you learn, it will probably have a harder time remembering them when they appear on the test. That's the problem with most vocabulary books: the definitions and sentences in the books aren't especially memorable. That's where this book is different. We've not only clearly defined the words but we've also created sentences designed to help you remember the words through a variety of associations - using mnemonics. Mnemonic Examples A mnemonic is just a memory device. It works by creating a link in your brain to something else, so that recall of one thing helps recall of the other. This can be done in many ways - but the strongest links are through senses, emotions, rhymes, and patterns. Consider this example: Quash (verb): to completely stop from happening. Think: squash. The best way to quash an invasion of ants in your kitchen is simple: squash them. Now your brain has a link from the word quash (which it may not have known) to the word squash (which it probably knows). Both words sound and look the same, so it's easy to create a visual and aural link. If you picture someone squashing ants (and maybe get grossed out), you also have another visual link and an emotional link. Here's another example: Eschew (verb): to avoid. Think: ah-choo! Eschew people who say ah-choo! unless you want to catch their colds. The word eschew sounds similar to a sneeze (ah-choo!), so your brain will now link the two sounds. If you picture yourself avoiding someone who is about to sneeze in your face, even better! Again, the more connections you make in your brain to the new word, the
